IN THE MAKING OF MEN

By ELLARD YOW

We, the sociology class of Henderson high school, have in making a general survey of Henderson, not only tried to bring to the attention of the people the existing curriculum but to find out what they think should be taught in a high school. When the question, what should be taught in Henderson high school, was asked the citizens to the city it practically "knocked them off their feet. Few had ever given the question any thought before now; maybe that is the reason for the present circumstances. We have not made this survey because of any personal good that we may derive from it, but have attempted to bring about better conditions for those students following us. We, personally, are not satisfied with the present curriculum. We have only these courses absolutely required in the most lenient college requirements.

We find that the majority of the people think that high school boys should be taught some vocation to be elective such as Manual Training, Agriculture, etc.; and that the girls should be taught the care of the home under such subjects as Home Economics and Hygiene with a business course offered to both boys and girls. Very few students graduating from the high school ever graduate from college therefore they must be taught how to make a living for themselves and their family. We find this opinion prevailing especially among those who have had difficulties in making a living, because they realize the necessity of being trained. They also see that unless this training is put in the high school that their children have little chance of accomplishing any more than they have, and I am sure that this thought hurts them more than any other thought that may enter their minds. The public opinion in many instances is that those who are not educated do not want their children to go to school; but, in every instance, we found just the opposite.

Those who are able to send their children to college also agree that vocational training is important because it not only builds a foundation for the vocational course to be built upon in college, but it widens the horizons of the student. He becomes a more understanding and tolerant person. He obtains invaluable knowledge that he can use in and around the home.

Quick Relief for Chills and Fever and Other Effects of Malaria!

Don't put up with the suffering of Malaria—the teeth-chattering chills and the burning fever. Get rid of Malaria by getting the infection out of your system. That's what Grove's Tasteless Chill Tonic does—destroys and drives out the infection. At the same time, it builds up your system against further attack. Grove's Tasteless Chill Tonic contains tasteless quinine which kills the infection in the blood. It also contains iron which builds up the blood and helps it overcome the effects of Malaria as well as fortify against reinfection. These are the effects you want for COMPLETE relief. Grove's Tasteless Chill Tonic is pleasant to take and absolutely safe, even for children. No bitter taste of quinine. Get a bottle today and be forearmed against Malaria. For sale at all drug stores. Now two sizes—50c and \$1. The \$1 size contains 2 1/2 times as much as the 50c size and gives you 25 per cent more for your money.

THIS DOUBLE CHECKING SYSTEM GUARANTEES ACCURACY

Of course, the first thing to do when you are below par is to consult your physician. Then, to be sure that his instructions are carried out properly let us fill your prescription. For when you bring your prescription to our drug store, you can depend upon it being handled by graduate chemists and know that the ingredients are pure and fresh. Then, too, we employ a double checking system that guarantees accuracy. This is your protection and the protection for your family.

HAVE YOUR PRESCRIPTIONS FILLED AT THE REXALL DRUG STORE . . . R. Parker's Drug Store We Deliver SAVE with SAFETY at The Rexall DRUG STORE

Next to the demand for vocational subjects (all of which are to be added to the present curriculum), we find the desire for the cultural subjects to be taught such as Music, Art, Literature, Domestic Arts, languages, social sciences, etc. These subjects were demanded mostly by those educated people who have experienced the usefulness and joy of being well informed. They know the pleasure in being able to talk intelligently on any subject. They enjoy in addition to the personal usefulness, the joy of doing something for their contemporaries. This erudition not only affords pleasure but at times is very useful from the standpoint of making a living; it is one of the best references that a job-hunter can have, and is a factor that does very much toward insuring the continuance of a job. Not a few uneducated people would like to see cultural subjects taught in the high school. You won't find many developed talents in the mill sections because, in the first place, they haven't had a chance to develop their talents on account of financial reasons preventing their college education; and in the second place, if their talents had been developed they wouldn't likely be in the mill section. Since they haven't had a chance at these subjects they realize what they have missed, consequently they want their children to have this education. They are aware of the fact that unless their children are taught these cultural subjects in high school their talents will more than likely be wasted because they are not financially able to allow their children to pursue education any further than our own free public schools. There fore in order that such a large number of people may have the advantages of these subjects they must be taught in high school.

We found that a great number of citizens asked for subjects pertaining to the physical side of one's self; that is, physical education, physiology, athletics, and first aid. Next to the development of the mind and soul, physical development and care is the most important subject pertaining to life. Although the body differs from the mind in that its period of development lasts only a limited period but is alike in that it requires constantly food, exercise, and proper care. It is immensely important to teach physical education in the high school because it is during that age that numbers of young men and women spoil the rest of their lives by the abuse and dissipation of their physical self. If a full course in Physiology was required of high school graduates we would have less insane asylums, prisons and hospitals. Almost as important is the requirement of physical school age that, in most cases, the real exercise. It is also during high body goes through the period of development. Proper exercise is necessary in order to prepare the body for life's work and play.

Is the fact that high school students are not allowed to develop their talents and ambitions the cause of so much friction among the American people? Is not the fact that the government has started with those grown persons already developed criminals or physically corrupted instead of the undeveloped minds and bodies of the high school students an immense factor causing not only high taxes but mentally, physically, and financially dependent citizens? The problem of selecting high school curricula is not only that of the school board and citizens of Henderson but all the countries of the world. We, high school seniors, would like those students succeeding us to have more and better opportunities to become better men mentally, physically, and in dealing with their fellow men. We will do all in our power to bring these visualized opportunities into being; but we can't do much by ourselves, we can only join our efforts with those of the citizens of Henderson. Will you join us in the cause or will you see those men made into criminals, lunatics, and partisans of society?

Occupations with the number interviewed or each: Home-maker—40; Banker, 4; Salesmen, 4; Preacher, 4; Clerk, 14; Farmer 5; Stenographer, 7; Bank Clerk, 2; Contractor, 1; Policeman 1; Insurance and Real Estate Agent, 1; Store Owner, 2; Tobacco Buyer, 2; Nurse, 4; Furniture Dealer, 1; Painter, 1; Merchant, 12; Business Manager, 3; Teacher, 12; Druggist, 5; Laborer, 7; Lawyer, 6; Negro Preacher, 1; Office Manager, 1; Negro Cook, 1; Furniture Designer, 1; Insurance Agent, 5; Saleslady, 3; Housekeeper, 1; Store Manager, 1; Doctor 2; Mechanic, 2; Carpenter, 1; Plumber, 1; Electrician 2; Librarian, 1; Executive Kookkeeper, 3; Factory Worker 1; Telegraph Operator, 1; Mill Worker, 9; Oil Utility Man, 1; Government Worker 1; Contractor and Builder, 1; Total interviewed, 185.

CITIZENSHIP

Citizenship is loyalty to your home, city, state, and nation. In order to be a good citizen we must learn to respect the rights of others, we must take others into our consideration. Citizenship demands cooperation with the people by which you are surrounded. It means more than not breaking laws—it means to add value to our country, state or city. To be a good citizen we must be courteous and respectful of other people in the home school etc. A good citizen can do much for the good and upbuilding of the state or nation and a bad citizen can do much for the tearing down and ruin of the states. If everybody was a good citizen we would need very few rules and regulations because they would know how to conduct them selves properly without them.—Esther Faulkner.

THIS IS NO BULL I'm One of the Jones

Our president seems to have had a big birthday. Has everybody seen the new bracelet she's wearing? Little Nellie seems to have had quite a big one herself. We hear she's using Evening in Paris perfume now. Lately we've been wondering what's become of Alexandria and why Buba seen so often with the little Senior of Young Avenue.

TO THE DEAREST SPONSOR OF ALL

We, the Sophs of the Henderson High appreciate The interest our sponsor in us did take. She worked so hard to make our play come out to what she would call O. K. She gave most excellent assistance to the cast, and worked with the committees so they would last. Everything she did was just the thing to make our play the crowd to bring. Not only in plays is she fine. So "Hats Off" to our Sophomore queen Miss Athleen Turnage, the best, we deem!

THANKS

The Sophomore Class wishes to thank the following people and organizations for their assistance in making the class play a success. First, Miss Athleen Turnage who so marvelously directed the cast and worked with the committees; Mr. Payne for the very attractive programs; for the furniture; Mrs. Newell, Mr. and Mrs. G. W. Knott, Mrs. John School for the gate and fence; Barnes Funeral Home for the grass; Miss Taylor and Mr. Harrison, Glee Club for their entertainment between acts; Mr. D. C. Loughlin for his time and truck; Miss Shannon Morton for making up the entire cast; Mr. W. W. Passavant for the electrical fixtures, Elvie Turner and Billy Parham for

FRESHMAN PLAY TO BE PRESENTED

The Freshman Class play will be presented on Friday Night December 14, at the Central school auditorium. This year instead of just one play, they will be two both the same night. The titles are "The Snowman" and "Why the Chimes Rang." The plays will be directed by Miss Evelyn Bickley, the Freshman class sponsor, and the casts have been selected. Committees also have been appointed to look after matters such as lighting, tickets, costumes, etc. Practices were begun last week and everyone is working hard to make the play a success. As everyone knows, the Sophomore Class Play was given a week or so ago and the people who went were very much pleased with the splendid performance that was presented.

TWO HOLIDAYS FOR THANKSGIVING

This year, as usual, the Puppies, along with the other Bulldogs, will be given two days for Thanksgiving which will fall on the 29th. Some of the Freshmen will go away to visit their kinfolk, while others will just stay at home to eat their turkey, cranberry sauce, and the various Thanksgiving Treats. Each boy and girl in the Freshman class is looking forward with joy and is hoping to have a good time.

POSITIONS WANTED

Wanted: A place in a tall, dark haired senior's heart by a blond freshman girl and lives on the extreme end of South Garnett Street.
Wanted: A position in a small blond freshman's heart by the drummer boy and singer of the freshman class.

Auto Tags Go On Sale Saturday

(Continued from Page One.)

Raleigh, Director Harris cautions all car owners to be careful not to lose these application cards, since consid-

erable delay will be experienced in getting a new license if the application card is lost.
"It will also be to the advantage of all automobile and truck owners to obtain their new licenses as soon as possible after December 1 and thus avoid the rush and congestion after Christmas." Director Harris said. "A good many people still remember the delay and inconvenience they suffered last year by waiting too long to get their new license plates. The best way to avoid any inconvenience this year is for car and truck owners to get their new license plates as soon after the offices open December 1 as possible. Then they can roll along without any worry."
Those who do not have their new license plates by January 1, will be subject to arrest by the highway patrol and there will be no extension of time after midnight, December 31, it was pointed out.

SEVEN ARE HURT AS CARS COLLIDE

Two Boys and Two Girls, White, and Three Colored Men Are Injured

Two boys and two girls, all white, and three colored men were injured Sunday afternoon in a collision of the automobiles in which they were riding on the Lumbank road.
Of the four whites, Donald Evans was the worst hurt, and was the only one of the quartette still in Maria Parham hospital today. The two girls, Misses Bessie Ramsey and Louise Bobbitt, were discharged today, while the fourth of the quartette, Sidney Grissom, was treated for his injuries without being admitted to the hospital.
John Henry Hicks, 37, colored, is at Jubilee hospital in an unconscious condition with a fractured skull, and his condition is considered serious. Ray Vann is also at Jubilee hospital with a wound in his head, but is conscious. Jesse Brame, the third colored man injured, was discharged from the hospital after receiving treatment. It was understood three more colored persons were in their car but were not injured.
No details of how the collision occurred could be obtained today. It was at first reported that Hicks had been killed, but he was still living at Jubilee hospital in mid-afternoon.

PANTHERS DEFEAT DURHAM TEAM 20-7

Spectacular Runs Give Henderson The Winning Margin in Durham

The Henderson Institute Panthers, local Negro high school eleven, defeated Hillside high, of Durham Saturday in the Bull City 20 to 7 to go into a tie for the eastern Negro high school football honors with Tarboro, the playoff to be arranged at a later date to decide the one to meet the western winner.
Two spectacular runs put the Panthers on the winning ledger.
In the first quarter, Henderson recovered a fumbled punt behind the goal line for their first touchdown. The try for point failed.
The second half saw most of the scoring with Robinson taking the ball on a faked place kick to the one yard line and Marable took it over. Robinson kicked the point.
Durham worked the ball down to the ten yard stripe and Ghee intercepted a pass. Brown circled left end on a fake kick but was pulled down from the rear after a run of 55 yards. On the next play Brown took the ball the remaining 25 yards for a score. A pass, Robinson to Ghee was good for the extra point.
Durham filled the air with passes, completing one for a score in the final minutes of play They added the extra point.
Washington, Nov. 26.—(AP)—A post season tropical storm, described by the Weather Bureau as "not particularly destructive," centered 200 miles southwest of Bermuda this morning, and was moving westward or southwestward.
Considerable wind was reported and storm warnings were hoisted on the Atlantic seaboard from Hatteras to Atlantic City.
Additional observations were sought in radio messages to ships in the vicinity to determine the direction and intensity of the disturbance.
Possibility that the storm will not be as damaging as others during the

past summer was foreseen by the bureau because of the late date. The hurricane seasons usually ends by November 15.

Nude Body of Man Stirs Cincinnati

(Continued from Page One.)

been identified as Alvin Brunner, of 1817 Flatbush avenue, Brooklyn, N. Y., a jewelry auctioneer.
MAN MAKES FIND WHEN HE FIRES HIS FURNACE
Cincinnati, Nov. 26 (AP)—Jacob Fishoff went in to his basement to fire his furnace early today and discovered the nude body of a man stuffed tightly in a barrel.
The makeshift casket was in a cellar garage of an apartment building in suburban Avondale, the center of Cincinnati's Jewish population.
Mrs. Goldie Miller said she rented the garage yesterday to a man who said he was an "embroidery salesman from the east." She told police she noticed a barrel tied to the rear of the salesman's car when he drove into the garage, but did not notice whether it was there when he departed.
Police, searching their gallery of the missing for a clue to the victim's identity, broadcast an alarm for the apprehension of the "embroidery salesman" whose sedan bore an out-of-State license.

NOTICE OF ADMINISTRATION

North Carolina: Vance County: Notice is hereby given that I have qualified as administrator of the Estate of B. F. Wade, deceased. All persons having claims against said decedent will exhibit same to me at Henderson, N. C., within one year from date hereof or this notice will be pleaded in bar of recovery. All persons indebted to said estate are requested to make immediate payment. This the 19th day of November A. D. 1934. WILLIAM F. WADE, Administrator of the Estate of B. F. Wade.

Announcing GULF NO-NOX ETHYL

Now AVIATION GRADE GASOLINE

with 6 points** of superiority and at NO INCREASE IN COST

If you wanted the very best motor fuel today that money could buy . . . What grade would you ask for? . . . Where would you go to get it?
To answer both of these vital questions for the owners of new and old automobiles, Gulf announces No-Nox Ethyl Aviation Grade Gasoline available today at Gulf stations and dealers at no increase in cost!
Almost everyone knows that there has always been an especially fine grade of gasoline for airplanes . . . but up until now that grade has never been available to motorists with high compression ratio motor cars. Now it is . . . Gulf No-Nox Ethyl Aviation Grade Gasoline!

- #### *WHAT IS AVIATION GRADE?
- Gulf No-Nox Aviation grade is the finest motor car fuel available, regardless of price. Its high octane rating has been further increased. Its distillation characteristics conform to those of United States government specifications for aviation gasoline.
- #### **WHAT ARE THE SIX POINTS OF SUPERIORITY?
1. Quicker starting
 2. Quicker warming up
 3. Better acceleration
 4. Less crankcase dilution
 5. More available power
 6. Increased anti-knock properties

This new Gulf No-Nox Ethyl Aviation Grade Gasoline will give you quicker starting on cold mornings because it is more volatile. It will warm up your engine faster . . . give you more available power . . . get you away faster in traffic . . . give you more anti-knock power on hills . . . and more economy for city driving!
It is an ideal motor fuel for winter . . . and there is no increase in cost.
Simply look for the "Sign of the Gulf Orange Disc", identify it, drive in and say: "Fill up my tank with that new No-Nox Ethyl Aviation Grade Gasoline."
You may not be able to fly with it in your motor car, but you'll feel like you can!

TO ALL NEW CAR OWNERS, BOTH PRESENT AND FUTURE . . . NOTICE!!

CHEVROLET AUTOMOBILES "Specifications . . . compression ratio . . . master models . . . 5.45 to 1." Page 5, 1934 Chevrolet Repair Manual.	FORD AUTOMOBILES "Engine Specifications . . . compression ratio . . . 6.3 to 1." Ford Salesman's Handbook, Page 54.	PLYMOUTH AUTOMOBILES "General Specifications . . . compression ratio . . . aluminum head . . . 6.50 to 1." Page 3, Group 8, Plymouth 1934 Maintenance Manual.
---	---	---

From year to year during the past few years, the tendency in design of automobile motors has been towards higher compression ratios to a point where today a gasoline must have high anti-knock properties in order to give maximum fuel performance. The approach of

winter weather makes necessary a further quality—quicker starting! Gulf's new No-Nox Ethyl Aviation Grade Gasoline combines both of these essential qualities with four ** others to meet the present demands of motorists and approaching winter weather. Try it!
