Belgrade, Yugoslavia, Dec. 6.—(AP)—The Yugoslav government, it was announced today, has decided to expel all the 27,000 Hungarians now living in Yugoslavia. The government's decision means the uprooting of the entire Hungarian element in Yugoslavia. It was stated authoritatively that the expulsion will be a gradual process, but will proceed relentlessly. About 300 luckless former Hungarians have found themselves without country. This group was composed of men and women who renounced Hungarian citizenship preparatory to becoming Yugoslavs. Hungary has thrown them out and Yugoslavia will not permit them to return. They are living in three trains stranded in "no man's land" at the Hungarian-Yugoslav frontier.

Norris and Possibly Others To Offer Amendments This Session

OUTLOOK IS BRIGHTER Many Liberals in Congress Rouse Fresh Hopes; Smaller States Might Kill Proposal Even If Submitted.

By CHARLES P. STEWART Central Press Staff Writer

Washington, Dec. 6.—Popular election of presidents, without the intervention of an electoral college, will be fought for again, harder than ever at the coming session of congress. The constitution will have to be amended to permit the change. That is to say, the senate and the house of representatives, each, will have to vote, by a two-thirds majority, for submission of the proposed amendment to the respective states and then three-quarters of the states will have to ratify it, before it can become effective.

NORRIS TO TRY AGAIN From time to time the popularly elective plan, for presidential elections, has been before the national lawmakers for years. In the last Congress Senator Geor-

Russia was described by League of Nations sources today as fearing isolation for herself would result from any Franco-German political accord. It is understood that France has agreed not to make any special bilateral treaties without consulting Russia beforehand.

Russia has come to the position of giving prime importance to the east-west pact as, with peace assured on her western boundary, she would be left free to cope with the Japanese problem in the Far East.

Washington, Dec. 6.—(AP)—Evidence that the DuPont Company sent a shipment of powder to Holland in 1929 for re-shipment to China "while an embargo was in effect against sending munitions directly to China," was received today by Senate investigators.

This came after Senator Clark, Democrat, Missouri, had asserted that it was not necessary for the United States to enter the World War except to protect the munitions makers' profits.

Also the munitions committee was told that State Department files showed no indication the department had suggested a conference of arms makers called by Herbert Hoover as secretary of commerce, before the 1925 Geneva arms conference.

The former President said yesterday Frank B. Kellogg, secretary of state in 1925, had suggested the conference.

During frequent clashes with witnesses Senator Clark told Irene Dupont, munitions manufacturer, at one point that the latter was "not running this investigation."
