BUSINESS ASKS RECOVERY AHEAD OF REFORM

Daniels Indirectly Warns Legislators Against Legalizing Liquor

SENATE APPROVES OF SPENDING BILL ALL BUT SCHOOLS

Allotment Remains for Consideration at Afternoon Session of Upper Branch

ACTION ON REVENUE BILL IS DEFERRED

Conference Report, Adopted by House, To Come Up Later; Daniels Reminds General Assembly of Huge Dry Majority in State in 1933; Still Arguing Food Tax

Raleigh, April 30.—(AP)—The Senate today temporarily sidetracked the controversial public school fund allotment in the biennial appropriations bill but adopted all other sections of the measure before joining the House in a joint session to hear an address by Josephus Daniels, United States ambassador to Mexico.

Daniels praised the national leadership of President Roosevelt, and, though he made no mention of legislation approved by the House and pending in the Senate to legalize liquor in the State, cited to the attention of the legislators the 184,000 majority the State gave against national repeal in 1933. He cautioned them to be representatives of the people and express the will of the majority and not of themselves.

The senators placed on their calendar for later consideration the conference report on the biennial revenue bill. It will come up after the money spending bill is completed, either later today or tomorrow probably. The House passed the compromise on final reading yesterday.

As a committee of the whole, the Senate was to start work on the school appropriation item this afternoon. It had before it an amendment offered by six senators to set the figure at \$22,000,000 yearly, instead of the \$20,931,000 recommended for the first year and \$20,900,000 for the second.

Huge Gains In Incomes For State

Raleigh, April 30.—(AP)—Revenue receipts of the State of North Carolina in April aggregated \$3,151,462.53, an increase of \$425,963.55, or 15.63 percent, over April, 1934, collections, Revenue Commissioner A. J. Maxwell announced today.

For ten months of the fiscal year, collections totaled \$44,030,944.73, an increase of \$5,708,123.82, or 14.89 percent, over the similar period of last fiscal year, Maxwell reported.

General fund receipts in April totaled \$1,280,000, including \$664,857.11 from the sales tax, as compared with receipts of \$1,098,164.66 in April a year ago when the sales tax contributed \$632,515.46. The general fund collections for ten months this fiscal year were \$21,481,433.57, compared with \$18,636,875.79 in the same period a year ago, a gain this year of \$2,794,557.78, or 14.95 percent.

Young Roosevelt Charges Relief Fund Will Be Used To Try To Buy 1936 Votes

Boston, April 30.—(AP)—Colonel Theodore Roosevelt, Jr., expressed the belief today that the \$4,800,000,000 work relief appropriation "will be used in large amount for campaign purposes for an out-and-out attempt to buy the votes of the American people."

Colonel Roosevelt, head of the National Republican Club, son of the late President Theodore Roosevelt, and a distant cousin of President Franklin D. Roosevelt, made the accusation in an address prepared for delivery at a conference of New Eng-

Doughton Refusal Clears Atmosphere In Governor Race

New Pennsy Chief

Martin W. Clement, above, vice president of the Pennsylvania railroad, has been named to succeed William Wallace Atterbury as president of the Pennsylvania railroad. Clement has been acting head of the Pennsylvania since Atterbury was taken ill a year ago.

Hoey and Graham Now Considered Certain Candidates In Next Year's Primary

REACHES DECISION VERY RELUCTANTLY

Only After Consultation With High Administration Leaders Did Doughton Decide To Run Again For Governorship

Raleigh, April 30.—(AP)—The political outlook in North Carolina was measurably clarified today with an announcement by Representative Robert L. Doughton, that he would not be a candidate for the Democratic nomination for governor in next year's primary.

In a brief formal statement at Washington last night, the veteran congressman put an end to speculation that has prevailed for months and let it be known that he expected to seek renomination to Congress for a fourth term.

Saying he had reached his decision reluctantly and only after consultation with the highest administration leaders, Representative Doughton explained: "My position as chairman of the ways and means committee makes it necessary for me to consider other duties rather than my own inclination."

"Farmer Bob's" elimination of his name served to heighten interest in political circles in the expected statement from Clyde R. Hoey, at Shelby, who has been mentioned for months as a likely candidate. The Shelby lawyer has indicated he will declare his intention shortly after the legislature adjourns.

John A. MacRae, Charlotte attorney, definitely announced for the governorship several weeks ago and has been preparing for an active campaign.

Lieutenant Governor A. H. Graham, is regarded as almost certain to be among the competitors for the nomination.

Merger Of Counties Is Remote Yet

Local Government Chief Cause of High Taxes, but Politicians Don't Mind.

Daily Dispatch Bureau, In the Star-Walter Hotel, By C. A. PAUL

Raleigh, April 30.—Despite the fact that local government units have been released from many of their obligations, local taxes in North Carolina will be more than \$50,000,000 for each of the next two years, according to reliable opinions expressed here. Meanwhile the State appropriations bill, excluding roads, mostly a maintenance problem, while greatly increased over the allotment for the last two years, contemplates the spending of only \$32,500,000 for each of the next two years.

In other words, local taxes for the next two years will increase in spite of the fact that the State has assumed many of the functions, including support of the public schools, once performed by local government units. The public school appropriations alone

STATE TERMINALS FOR GAS PROPOSED

Terrific Fight Expected, However, When Legislature Begins Debate.

Daily Dispatch Bureau, In the Star-Walter Hotel, BY J. C. BASKERVILLE

Raleigh, April 30.—Three joint resolutions, already passed by the House are now reposing on the Senate calendar awaiting action as soon as the upper house disposes of the appropriations and revenue bills. They are expected to cause considerable fireworks when they are reached. One of these is the resolution to empower the governor to appoint a commission to study the advisability of the State building its own gasoline terminal in

GILKEY IS SLATED FOR NRA DIRECTOR

Marion Man May Be Named Compliance Head for State Any Day Now.

Daily Dispatch Bureau, In the Star-Walter Hotel, Raleigh, April 30.—J. Quince Gilkey, of Marion, who for years has been one of the most active members of the State Board of Conservation and Development, will soon be appointed as State NRA director of labor compliance in North Carolina, according to well authenticated reports current here. The formal announcement of his

Mexico Money Crisis

President Lazaro Cardenas

With Mexico faced with economic loss by increasing value of its money due to higher silver prices, President Lazaro Cardenas, above, and his cabinet called in all silver money and announced substitution of paper currency of small denominations. Mexico, China and other silver currency countries have suffered severe economic repercussions due to the drain caused by the American government's silver purchase policy—silver, of course, flowing toward the attractive prices offered by the U. S. treasury.

LEGISLATURE FAR FROM END, THOUGH MONEY BILLS OUT

School Machinery Act and Rental Textbook Bills Are Two Important Measures

BOTH MAY DEVELOP BATTLE ON FLOOR

Textbook Publishers Will Fight Hard Against Textbook Proposal; Lethal Gas and Tigher Marriage Bills Still Pending on the Senate Calendar.

Daily Dispatch Bureau, In the Star-Walter Hotel, BY J. C. BASKERVILLE

Raleigh, April 30.—The General Assembly is still far from through with its work, despite the fact that it has now almost disposed of the revenue and appropriations bills. It has enough important measures still pending and which must be acted upon to keep it here from ten days to two weeks yet, according to most of the more experienced members. Few observers believe the assembly will be able to wind up its work and adjourn sine die before May 10.

Two of the most important bills of the entire session, the school machinery act and the rental textbook bills, have not yet been reported out of the House Education Committee yet. One of these, the school machinery act, must be passed before the assembly adjourns, and since it must pass three readings in each house, it cannot be passed in less than six days, even if there is no opposition to it and no debate. It is generally conceded, however, that this bill will meet with strong opposition from some quarters and that it may take a week to get it through the House alone. If the bill is reported out by the House Education

WEATHER FOR NORTH CAROLINA. Fair and colder, probably light frost in the interior tonight; Wednesday fair, slightly warmer in extreme west portion.

Great Britain And Germany Postpone Naval Conference

Will Await Further Clarification of Germany's Foreign Policy By Leader Hitler

BRITISH AVIATION EXPANSION URGED

Meanwhile, France Likewise Determines To Keep Her Air Force at Full Strength and Starts Recruiting and Accumulation of Large Wheat Stocks

London, April 30.—(AP)—An authoritative source said today the proposed naval conversations between Great Britain and Germany have been "postponed" pending an expected announcement by Reichsmarschall Hitler on Germany's foreign policy.

It was said the British government was complying with Hitler's desire for postponement of the conversations, and that it had agreed on the basis that, until the atmosphere was cleared with a more definite statement of policy on Hitler's part, it would be unsatisfactory to proceed with the conversations at this time.

Strong elements within the British government joined today with the popular clamor for immediate expansion of the nation's defense program as a reply in kind to Germany's re-armament.

The doubling of Great Britain's air armament for the coming year will have powerful backing tomorrow at the important cabinet session called to formulate the government's declaration of policy. This will be given in the House of Commons Thursday.

Government supporters also have received the long-silenced scheme for a League of Nations air police force. Whether they took this step with the approval of their leaders will not become known until Thursday.

RECRUITING IS STARTED BY FRENCH AIR SERVICE

Paris, April 30.—(AP)—France, with an eye on Germany's rearmament in the air, today sought to keep her own air force at full strength by calling for the recruiting of trained aviation machine gunners, radio operators and mechanics to fill vacancies at the Dugy military air base attached to the famous Le Bourget field.

At the same time, France moved for aviation alliances with other nations and toward the completion of the Franco-Russian mutual assistance treaty.

The minister of agriculture indicated the French army was storing

CINCINNATI FEELS CHEVROLET STRIKE

Workers Decide To Go Out Until Contracts Cover All Employees

Cincinnati, April 30.—(AP)—The Chevrolet motor strike spread to Cincinnati today from Toledo with a walkout of workers in the assembly plant in suburban Norwood. Workers began leaving the plant at about 10 a. m., after leaders of the United Auto Workers Union presented a series of demands to Floyd J. Luns, general manager of the Chevrolet plant and to Harry Blow, general manager of the adjoining plant of the Fisher Body Company.

The walk-out followed a decision of Toledo strikers to ask workers in other General Motors plants to quit work until contracts are signed for all.

Busy Attacker

Milo Reno

Milo Reno, president of the National Farmers Holiday association, enthusiastically welcomed Senator Huey Long to the association's national convention in Des Moines, but said the Rev. Charles E. Coughlin, radio priest, "pulled a boner" in not attending. Reno denounced Secretary of Agriculture Henry A. Wallace, calling him "Lord Corn" and attacked the AAA as "a program of deceit, misrepresentation, coercion and bribery."

Fail To Get Compromise On The NRA

Negotiations Between Roosevelt and Congress Leaders in Total Collapse

Washington, April 30.—(AP)—Negotiations for an agreement between President Roosevelt and congressional leaders for a compromise extension of NRA collapsed at a White House conference today, but Senate Republicans and recovery law opponents immediately launched a new drive for a temporary extension of the act.

With Donald Richberg, recovery board chairman, sitting at his side, President Roosevelt was said to have rejected a proposal from the congressional leaders to extend the present recovery law until March, with price

Roosevelt Commands That House Stop All Testimony Hitting At Other Nations

Washington, April 30.—(AP)—In a sharply worded message, President Roosevelt today ordered the House Military Committee to discontinue publication of testimony it is taking in a study of the War Department. The President, in the unprecedented action, warned the committee he would exercise his authority as commander-in-chief of the army and navy if necessary, to stop publication of anything he regarded as unfriendly to other nations.

Mr. Roosevelt called attention to statements made by two army officers before the committee concerning the relations between the United

FOUR PLANKS FOR RECOVERY OFFERED TO PRODUCE WORK

Early Adjournment of Congress and Postponement of Reforms Is First of These

STABLE CURRENCY ANOTHER PROPOSAL

End to Devaluing Dollar To Stimulate Prices and Pledge of Definite Cut In Government Expenditures Sought; New Deal Is Attempting Too Much

Washington, April 30.—(AP)—A call to the Roosevelt administration "to postpone reform measures" in the interest of speedy recovery was advocated today by Henry I. Harriman, president of the Chamber of Commerce of the United States.

This was the keynote of the Harriman address opening the 23rd annual convention of the chamber.

Couched in moderate but firm language, Harriman's speech disclosed vital differences from the views of the administration on several major Roosevelt plans.

Harriman, who has been regarded by his associates as a counsellor of friendly relations with the administration, mixed praise with criticism. "The New Deal has attended much that is good," he said, "but it has tried to do too much in too short a time."

C. B. Ames, chairman of the Texas

New Appeal For Textile Aid Is Made

Washington, April 30.—(AP)—A New England trio, a governor, a manufacturer and the head of a huge labor organization, urged a special cabinet committee today to provide immediate assistance for the cotton textile industry.

Governor Green, Rhode Island Democrat, told the committee that a serious condition existed in the industry. Thomas M. McMahon, president of the United Textile Workers, which last September concocted a general strike in the textile industry, added his voice to the clamor for assistance to the mills.

Harry H. Burton, manager of the Lonsdale Company of Providence, R. I., was the third member.

The appearance of Green and McMahon in the same group recalled an incident during the general strike last fall when the Rhode Island governor asked for Federal troops to maintain order in his state.

Governor Green submitted several recommendations, including re-enactment of the national industrial recovery act, with strengthening of the cotton textile code, particularly to equalize all classes of wages between the North and the South.

Meanwhile, the Department of Commerce figures showed sharp decreases in cotton textile production in March as compared with a year ago.
