New Deal Seeks Immediate Enactment Of Legislation To Safeguard AAA Set-Up

CLAUSES PROPOSED TO AVOID ADVERSE RULINGS BY COURT

Would Prevent Suits By Industry To Recover \$824,430,579 Processing Tax Paid

PLAN TO LEGALIZE POWERS CONFERRED

Would Back Authority Given Secretary Wallace by Straight-Out Legislative Enactment; Amendments Sought Believed Sufficiently Explicit

Washington, June 6.—(AP)—The New Deal today sought quick passage of legislation designed to prop up the Agricultural Adjustment Administration in the event it suffers a Supreme Court setback.

Congress went to work immediately on a bill proposed by Secretary Wallace. It contained a provision that if the Supreme Court should decide that the processing taxes levied under the present AAA law were unconstitutional, processors of farm products could not file suit to recover \$824,430,579 already paid in case the court should object to the power which Congress has given Wallace to fix the tax rate, the new legislation would provide direct authority for continuing the levies at their present amount until December 31, 1936.

Chester C. Davis, the farm administrator, said he believed the powers which would be conferred by the newly proposed AAA amendments would be explicit enough to avoid Supreme Court criticism on the grounds that they constituted too broad a delegation of legislative authority.

Davis said the court should be closed to tax suits in the event the processing taxes are held invalid, "because these taxes have been passed on by the processors to others, and we do not think it right that a man should recover a tax which he did not pay out of his own pocket."

A statement said rental and benefit payments to producers cooperating in the adjustment program and other crop expenditures chargeable against processing tax collections totalled \$790,355 up to May 1, this year. Tax receipts to the same date were placed at \$824,430,579.

Injunction On Liquor Improbable

In the St. Walter Hotel, Daily Dispatch Bureau, BY J. C. BASKERVILLE

Raleigh, June 6.—Much doubt is being expressed in political and legal circles here as to whether the drys will be able to secure a permanent injunction in any of the counties that have called liquor elections and thus prevent the holding of any election, on the grounds that it is going to be very difficult for the attorneys for the drys to show that the holding of a liquor election will cause any damage or injury.

"An injunction is a recourse to the

While Dawson continues to remain silent as an oyster about his proposed candidacy for the Senate, his friends are beginning to talk. They maintain that Dawson is just about the only man in the State who has the proper

The charges against the officer developed from a lengthy inquiry by a House Military sub-committee into War Department expenditures and business practices.

PRESIDENT BITTER ABOUT COURT'S ACT

Hands Tied, Nature Must Take Its Course, Meaning of His Words

By CHARLES P. STEWART
Central Press Staff Writer
Washington, June 6.—If the President could be quoted directly it would be easier to explain the impression produced on most, if not all, of this listeners at his meeting of May 31 with the Washington correspondents. At the meeting he referred to the Supreme Court's NRA ruling as an ox cart decision and spoke of it as returning the country to horse and buggy days.

There is no doubt, however, that a great majority of the newspaper men present—approximately 150 of them—

The second ransom bill—one of the 20,000 paid to the abductors last week—was discovered in the Spokane, Wash., post office. The first one was uncovered in a Portland bank Tuesday, after it was tendered at Huntington, Oregon, Sunday night for a railroad ticket to Salt Lake City.

Washington, June 6.—(AP)—A resolution extending a skeleton NRA organization until April 1, 1936, but repealing all presidential power to prescribe, approve or enforce codes of fair competition was agreed upon today by House, Senate and administration leaders.

A study of the possibility of preserving labor standards through interstate compacts bolstered by Federal cooperation was initiated today by President Roosevelt as administration leaders agreed on the principles of "stop-gap" legislation.

The President made known his intention in reply to resolutions adopted by the joint commission on interstate compacts in session here.

A secret meeting of Senate, House and administration representatives was held after some congressional spokesmen had said the White House was considering new and higher taxes on inheritances and gifts as a part of the future NRA program.

Some added that Mr. Roosevelt may send a message to Congress shortly advocating increased inheritance taxes to raise revenue and to replace NRA as a means of distributing income.

Senate, House and administration representatives agreed in secret con-
