FAVORABLE REPORT IN THE COMMITTEE

Would Determine Whether Monopolistic, Oppressive and Unfair Methods and Practices Are Used by Warehousemen, Processors and Manufacturers

Washington, July 24.—(AP)—Representative Warren, Democrat, North Carolina, said today he would seek immediate House consideration of his resolution to authorize expenditure of \$125,000 for investigation by the Federal Trade Commission of profits by middlemen handling agricultural products.

The resolution has been voted a favorable report by the House Interstate and Foreign Commerce Committee.

The proposed investigation would be for the purpose of determining whether "monopolistic, oppressive and unfair methods and practices" were used by warehousemen, processors, manufacturers and packers and other handlers of farm products.

Warren pointed out that 22 large corporations reported making more than 45 percent of the gross sales of all processors of food products in 1931, and that 102 corporations reported more than 60 percent of the sales.

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILL.

Raleigh, July 24.—The salary schedule committee of the State School Commission and of the State Board of Education is in session here today continuing its efforts to work out a salary schedule for teachers that will preserve the sliding scale of increases for experience and training and still give every teacher a 20 per cent increase over what he or she got last year.

Indications this afternoon were that the committee was still making very slow progress in its efforts to stretch some \$16,500,000 available out of the entire appropriation of \$20,031,000 for teachers salaries, when a minimum of \$16,750,000 is needed if every teach-

While central China turned to the gruesome business of counting its dead, which were piling up by the tens of thousands along the banks of rivers from which flood waters were receding, the northern province continued to battle the floods of the Yellow river.

The Yellow river, crashing barrier after barrier to swallow immense new areas of farm lands, has already blanketed more than 2,000 square miles of Shantung countryside.

NONE NEED EXPECT COTTON TO DECLINE

Alabama Senator Says Buyers Should Expect Prices Are Now at Their Lowest; Options on Cotton Government Is Holding May Replace 1936 Quotas

Washington, July 24.—(AP)—Forecasting possibility of a 7,500,000-bale cotton crop in 1936, Senator Bankhead, Democrat, Alabama said today there was no justification for cotton textile buyers longer staying out of the market in an expectation of a break in prices.

"No one need expect cheaper cotton, nor cheaper cotton goods this season," he said. "But, on the contrary, textile buyers should recognize that the price is now probably at its lowest point."

The prediction of a small crop next year was based on a plan to support the Bankhead production allotment program by giving growers, in lieu of baling quotas, option on cotton now held by the government under the price peg loans.

More Youth Groups Are Disbanded

Political Catholicism In Germany Receives Further Blow From Hitler

Karlsruhe, Germany, July 24.—(AP)—The so-called "political Catholicism" received a further blow today with dissolution of the Catholic youth organization Deutsche Jugendkraft in the province of Baden, and confiscation of its property.

Catholic circles said they believed the action against this youth society foreshadowed an end to the entire Catholic youth movement.

The minister of the interior had restricted carefully the work of confessional youth organizations, but had refrained from orders of dissolution and confiscation.

The scope of activity of all non-Nazi youth organizations was restricted even further by bans against their engaging in any indoor sports, the restriction of their organization work to "purely religious, cultural and charity tasks."
