Raleigh, July 26.-Infantile paraly sis is now regarded as being definitely on the wane in North Carolina, despite the fact that the total number cases reported in July will probably exceed the number in June, according to Dr. Carl V. Raleigh, July 26-As much as he is disliked in some circles here, it is agreed today that Dr. Ralph W. McDonald, of Winston-Salm, is "dumb like a fox" and that he s going to get a major portion of the credit for plan adopted by the State School Commission under which the school teachers will get their 20 per cent salary increases for the first seven months any way and probably for all eight. For while the plan adopted was really suggested and urged by Governor J. C. B. Ehringhaus, it is in substance the plan which Dr. McDonald suggested to

J. A. C. Avenol, secretary general of the League, asked the nations re-presented to reply before noon to his invitation, which read:

"As it does not appear from the information received that the four arbitrators (the Italo-Ethiopian conciliation commission) reached before July 25 any agreement or understanding provided for by resolutions, the president notifies the colleagues that the extraordinary session provided in the resolution will take place.

"In a letter received July 25, the Ethiopian government requested a meeting on that date. The president suggests the colleagues should meet July 31 or August 1, and the members are requested to state before midday tomorrow which they preferred."

The League today made public the Ethiopian communication, which pointed out that on July 9 the African empire asked Avenol to call to the Council's attention the urgent necessity of intervention following the disagreement of the conciliation com.

GAINING THE WEST

May Swing Their Farmer and Laborite Support to Roosevelt

By LESLIE EICHEL Central Press Staff Writer

New York, July 26.-The La Foiettes again are on the ascendency throughout a large part of the interior of the United States. That is interesting for two reasons. 1. They may reduce Senator Huey

Long of Louisiana to impotency. 2. They may prevent the formation of a third party and swing progressive sentiment in favor of President Roosevelt's re-election. KINGFISH

The Kingfish has lost much of the progressive support he once had, for several reasons

His dictatorship in Louisiana has assumed proportions of a terroristic regime; and his share-the-wealth program, as well as his promises for a wider democracy have evaporated in Louisiana, where Long has absolute power. Progressives recall that Hit.
