BEACH DELPHINIM.

With what surprise
The pale curled seedling surged
Up through the soil to find
A world of salt-fringed wind.
A world of sand and sea
Hold by no closer thing
Than the guardian sky.
And yet how soon
The flower knew
Some alchemy of sky-and-sea.
To bloom in never such ecstasy
Of blue!
How soon the dune grass taught
The friendliness
Of sea-spurred wind:
How soon delphinium learend to
dance
With the challenging air.
Marion Bronwell.

Politics Seen in Teacher Pay Hike

per cent be paid for the first seven months and that they then be paid as much as was left or could be obtained for the eight months.

But all the members of the State Board of Education except the governor, come up for nomination in the Democratic primary in June, 1936, and for election in November. The final month of school will be over only a short time before the primary.

There are some 23,000 school teachers and at least 500,000 parents, mostly mothers, in parent-teacher associations, who are for everything the teachers are for and who are likely to cast their votes the same way the teachers do. In addition, there is the North Carolina Education Association to which most of the 23,000 teachers belong and conceded to be one of the most powerful political organizations in North Carolina. It is only necessary to put this mosaic together to understand why the State Board of Education decided to guarantee to the teachers the full 20 per cent increase for all eight months, despite the fact that the General Assembly failed to appropriate enough money to pay this increase all the way through in addition to experience and training increments.

It is now generally conceded that at least \$230,000 will have to be appropriated by the Council and State from the emergency and contingency fund to make up this difference, and that in so doing it will be assuming the prerogatives of the General Assembly intended. It is also agreed that the board of education has done what the late Attorney General Brummitt pleaded with it to do two years ago and what it then refused to do. But 23,000 or more votes next spring and fall are not to be sneezed at.
