Official Organ Praises Mussolini's Course in Ethiopian Crisis; Cabinet and Others of Fascist Hierarchy Await Bidding of Their Dictator

London, Aug. 21.—(AP)—A British bid for American cooperation for solution of the Italo-Ethiopian crisis may be the next move from Downing Street, it was indicated today as the political drama was intensified by preparing for the emergency meeting of the cabinet tomorrow.

Any Anglo-American action would be an addition to League of Nations measures.

Grave-faced statesmen, one after the other, visited the foreign office before noon. First was the leader of His Majesty's opposition party, John Lansbury. Then came Lloyd George, followed by Ramsay MacDonald. The king at Balmoral kept in touch through his official listening post, Sir Clyde Wigram, private secretary to His Majesty.

The State Department this morning has an up-to-the minute British view from Ray Atherton, American charge d'affaires, who forwarded a full report to Washington after another conference last night. Britain has yet made no formal move to enlist American cooperation but it is believed a way is being prepared for this, following the cabinet session tomorrow.

Tries To Make Himself Dictator But Fails and Is Imprisoned

Guayaquil, Ecuador, Aug. 21.—(AP)—Jose M. Velasco Ibarra, stripped of his office of president, was a military prisoner today.

His attempt to become dictator was frustrated when army leaders repudiated him in favor of the Constitution.

Seizure of the president was accomplished without bloodshed.

Imprisoned with Velasco Ibarra were three aides, who were accused of being parties to the coup which Velasco Ibarra intended to bring about at dawn today.

Threatened with a beating by mob leaders who blocked two foreclosure sales in northwest Missouri, Federal Judge Merrill E. Otis defied the threats and spoke at a homecoming gathering in Hopkins, Mo. Armed department of justice agents circulated through the crowd, however. Judge Otis referred jokingly to the threats in his speech. He had decreed the foreclosures.

PLAN FOR FIRM STAND

Strong Position To Be Taken At Geneva When League Considers Sanctions; Full Cabinet To Act Soon

London, Aug. 21 (AP)—Seven leaders of the British cabinet today tentatively approved a policy demanding financial and economic action against Italy if that country attacks Ethiopia.

The ministers had been called into a special informal session by Prime Minister Stanley Baldwin. They conferred two hours.

The decision, although tentative, calls for a strong British stand at Geneva in the forthcoming League of Nations session for financial and economic sanctions.

This idea will be taken up by the full cabinet tomorrow in an emergency meeting.

Throughout the day there were indications Great Britain might seek American cooperation outside Geneva for solution of the Italo-Ethiopian crisis.

Train Bearing Wife and Children Reach Los Angeles from East Around Noon

OKLAHOMA TRIBUTE GIVEN WILEY POST

Body Arrives In Giant Airplane, Ending Longest Funeral Flight in History; Large Crowd at Municipal Airport As Death Plane Arrives

Los Angeles, Cal., Aug. 21.—(AP)—The Rogers family will be together again here today—with a vast sad difference.

Mrs. Will Rogers and the children, Will, Jr., Mary and Jim, were hurrying by train from the East, due to arrive about noon.

They were speeding to a funeral in stead of a happy reunion after gay aerial adventures.

The body of the famous comedian, who kidded the great and the near great, and made them like it, awaited them in a simple bronze casket in Forest Lawn cemetery.

Thousands of others waited also to pay final tribute to the actor philosopher who crashed to his death with Wiley Post in Alaskan wilds.

Tomorrow a guard of honor composed of two score army fliers will attend the casket as the doors of the chapel are opened to the public.

LOBBY PROBES GO DIFFERING COURSE

Black and O'Connor Both Publicity Hounds and Very Jealous

By CHARLES P. STEWART

Washington, Aug. 21.—How childish lawmakers sometimes can be was illuminatingly and amusingly demonstrated by the recent desperate fight between the Senate and the House of Representatives for possession of Howard C. Hopson, the public utilities magnate, especially of Associated Gas and Electric fame.

The row started over the clause, in the utilities bill, to abolish holding companies—the "death sentence" clause, as it was called.

The holding companies naturally opposed it furiously. The clause's advocates accused the companies, lobby of various unethical practices. The companies' spokesmen counter-charged that the administration, which favored the "death sentence," also was lobbying, and that its lobby was unethical too.

TWO INVESTIGATIONS

Into these charges and counter-charges of unethical lobbying two congressional investigations were begun simultaneously—one by a special committee of the upper chamber, under the chairmanship of Senator Hugo L. Black of Alabama; one by the rules committee of the House of

President's Committee Urges Control of Japanese Cotton Goods Imports by Friendly Agreement; Urges Further Study of Regional Wage Scales

Washington, Aug. 21.—(AP)—Discontinuation of the cotton processing taxes was opposed today by the special cabinet committee which has been studying the ills of the cotton textile industry.

The committee suggested control of imports of Japanese cotton goods, preferably by means of a voluntary and friendly agreement with Japan. It also recommended establishment of a continuing committee to study the problem of regional wage differentials in the textile industry.

MEASURE PRESSED IN HOUSE IN FACE OF EUROPEAN ROW

Roosevelt Is In Favor of Seven-Point Resolution Hastily Jammed Through Senate

MANDATORY BAN ON ARMS IS PROVIDED

Munitions Makers Would Be Licensed and U. S. Ships Transporting Arms Would Be Denied Protection; Hopes for Adjournment This Week Dimmed

Washington, Aug. 21.—(AP)—A seven-point resolution designed to safeguard American neutrality in event of a foreign war was adopted today by the Senate.

Attempts were already under way to assure House action.

President Roosevelt was reported in favor of the move, coming as it does at a time when the Italo-Ethiopian situation is causing grave questions for European governments in particular.

Spurred into action by omnibus war signs abroad and a filibuster by munitions committee members, the Senate speedily endorsed the foreign relations committee compromise resolution.

Representing a compromise between a more drastic program advocated by the Senate special munitions investigating committee, headed by Senator Nye, Republican, North Dakota, and the State Department attitude, the resolution provides:

A mandatory embargo on exports of arms, munitions and implements of war to all belligerents in a foreign conflict.

A system of licensing munitions manufacture and export as a permanent policy of this government, along the lines of the Geneva arms treaty of 1925, ratified earlier in the session by the Senate.

A ban against American ships carrying arms or munitions under embargo to any belligerent port or to any neutral port for the re-shipment

HIGH PRICES FAIL TO GET PROSPERITY

Neither Prosperity Nor Security Today Except for Privileged Few

By LESLIE EICHEL
New York, Aug. 21.—This part of our era may be known as the Period of the Failure of High Prices.

Hitherto, high prices have been synonymous with "prosperity." Today we have the return of high prices—in the stock market, for commodities, for nearly everything except land, and land, once it is foreclosed into fewer hands, may follow. And, today, except for the privileged few, there is neither prosperity nor security.

The many still are bruised and walking in darkness.

If President Roosevelt faces larger and larger oppositionist votes at the polls, it will not be because he desires an amendment to the Constitution or because he taxes wealth or even the man of intermediate
