Map of Hurricane's Course and View of Keys Where 260 Were Reported Killed

Arrows on the map show path of hurricane. Death toll approaching 260 was reported after a tropical hurricane swept northwestward along the west coast of Florida across the Florida keys. Many of the victims were veterans in a camp on Upper Maticaumbe key, shown on the map. Similar reports of death and destruction came from Rock Harbor and Tavernier. The picture is an excellent view looking from the mainland out across the keys toward Key West, with the railroad, mentioned in dispatches as badly damaged, shown clearly. A relief train sent down the keys on the railroad shown was marooned with bridges down on either side. The liner Dixie went aground on French reef.

Rainfalls of three to five inches were reported, Denson said.

"Don't Kid Yourself," Babson Says, and Cites Levies, Some of Them Invisible, Exact From Rich and Poor Alike; Tax Bill Soon Will Be Doubled

BY ROGER W. BABSON, Copyright 1935, Publishers Financial Bureau, Inc. Babson Park, Mass., Sept. 6.—The passage of the National Security Act is the most revolutionary step which this administration has taken. Beside it, legislation such as the Guffey coal act, the public utilities act, and the banking act of 1935 is picaresque. I feel, however, that those who have pinned their faith on it may be greatly disappointed. Its immediate result will be to encourage the sale of labor-saving machinery, to increase the

The French premier further indicated the whole council might be called on as a committee to consider the dispute rather than to assign the task to a body of three or five men. It was learned the conferees had encountered difficulties in determining what scope a sub-committee could have. ITALIAN PAPER DEMANDING ENGLAND EVACUATE AFRICA

New Session Still Needed On Pensions

Also To Enact State-wide Liquor Control Legislation, Many Citizens Say

Raleigh, Sept. 6.—A special session of the General Assembly is needed just as much as ever in order to pass enabling State laws to cooperate with the Federal government on old age pensions and unemployment insurance and to pass some type of State-wide liquor legislation, according to many here. They maintain that the failure of Congress to pass the deficiency appropriations bill, containing the \$75,000,000 for old age pensions, has in no way removed the necessity for North Carolina to pass a State old-age pension law and point out that this appropriation will be passed as soon as Congress meets in January. The result will be that those

Washington, Sept. 6.—(AP)—Praise and criticism and insistence that even more was necessary to complete recovery met the assertion by President Roosevelt today that a "breathing spell" for industry has been reached by the New Deal. Troops Called for Run-Off Primary in Kentucky Tonight

Frankfort, Ky., Sept. 6.—(AP)—On the eve of Kentucky's Democratic gubernatorial primary election, Governor Ruby Laffoon ordered National Guard troops today to proceed to Harlan county immediately. The reason, he said, was "that the lives, constitutional right and property of Harlan county citizens may be protected." The order came after Thomas S. Rhea, supported by Laffoon for the nomination in tomorrow's run-off primary, charged that County Attorney Elmer Middleton, of Harlan county, was assassinated Wednesday because he had evidence of irregularities in the first primary at Harlan August 3.
