Says Cattle Will Replace King Cotton

Tuskegee, Ala., Sept. 10.—(AP)—A richer South, with cattle dethroning King Cotton, was pictured today by Dr. George W. Carver, agricultural research expert of Tuskegee Institute. Dr. Carver, who gained fame with his exhaustive discoveries of the various uses of peanuts and peanut oils, outlined three major points to support his prediction that the South in a few years will turn—not altogether voluntarily—toward cattle raising, with cotton growing relegated to a secondary position after its leadership of more than a century.

Markets Of East Unable To Sell Off

Blocked Sales At Higher Prices Reported from Several Tobacco Towns

Raleigh, Sept. 10.—(AP)—Blocked sales are becoming common on the North Carolina tobacco markets. Reports from Lumberton said that market sold 10,000 pounds yesterday and still had 200,000 pounds left over. The price average was estimated at \$24. Kinston estimated 1,300,000 pounds sold there yesterday with 1,000,000 pounds still on the warehouse floors. The price average was estimated at slightly over \$20. Robersonville also reported blocked sales. Fairmont sold approximately 1,100,000 pounds at an unofficial average of \$24, and Whiteville sold 1,000,000 pounds at about the same price.

Business People Respond To Boost City's Market

A great majority of the business interests in the city proper have cooperated by taking space in this precedent-breaking annual issue of the Henderson Daily Dispatch, published in the interest of boosting the Henderson tobacco and cotton markets and trade in general here. With such a magnificent response on the part of the business community, the Dispatch organization has put hundreds of hours into the production of the paper, and offers it in the belief that it contains much valuable information about the city and the county and their institutions. So, give the merchants and other concerns represented a big hand by looking through the entire issue. You will find much to interest you on every one of the 62 pages of this issue. There is real news in the advertisements, and no one will do justice to himself or herself, or to the advertisers, without reading the paid space. The message of these firms is told in clear and concise form and in a very interesting way. You can spend a pleasant evening in going through this big issue, and you may be sure it will take an entire evening to do that. The advertisers deserve your perusal of the paper. They have done their part and done it magnificently.

Funeral Pyre of Veteran Victims of Hurricane

Federal troops fire the last salute and the flag-draped pine box coffins containing the bodies of 46 war veteran victims of the Florida hurricane go up in flames at Snake Creek where they died in an FERA camp. Cremation was deemed necessary despite the request of the President that the veterans be given soldiers' burials in national cemeteries. (Central Press)

BULLET OF ASSASSIN IS FATAL

Dies Shortly After 5 O'Clock This Morning From Wounds Inflicted Sunday Night

FAMILY AT BEDSIDE WHEN DEATH COMES

Body Will Lie In State in \$5,000,000 State Capitol Built When He Was Governor; His Power Asserted To The End; 'Dictator' Rose From Humble Home

Baton Rouge, La., Sept. 10.—(AP)—Senator Huey P. Long, the farm youth who wanted to make "every man a king," and gained unprecedented power in Louisiana, died today the victim of an assassin. He was 42 years old.

The self-styled "kingfish," political "dictator" of Louisiana, and possible presidential candidate next year, died at 4:06 a. m., central standard time. His family and close political associates were at his bedside.

His death left his powerful political machine, which controlled practically every office in the State, without a directing head. There is no "dictator" to take his place. While his leaders held conferences to decide what steps to take, the senator's death gave courage to his opponents, whose split into several factions had aided Long's ascent to power.

Capital Is Saddened

There was sadness here, the seat of the Long government. Friends and enemies alike expressed regret at his death, the sole topic of conversation is every Baton Rouge household. Many intimate with the senator showed marks of tears.

Fourteen members of the 121st Field Artillery, Louisiana National Guard, from New Orleans, were ordered here as a guard of honor. Later a company of infantry here was given a like assignment. The 14th artillery men had been held in their New Orleans barracks as a precautionary measure after Long was wounded.

The senator was shot by Dr. C. A. Weiss, Jr., Baton Rouge eye specialist as Long was walking along a corridor after leaving the House of Representatives Sunday night during a special session. Dr. Weiss, an opponent of Long's politics, immediately was filled with bullets by Long's bodyguards.

Wanted To Live. "I want to live," Long was quoted (Continued on Page Six.)

Friend, Foe Of Long Sad About Death

Public Men of Nation Join in Chorus of Regret Over His Assassination

Washington, Sept. 10 (AP)—Both friends and opponents of Senator Huey P. Long today expressed regret at his passing and joined in denouncing the assassination. His death removes one of the largest question marks from the 1936 presidential race. Official Washington expected he would be an independent candidate. Calls for law and order in governmental affairs were widespread. "It is seriously disturbing to learn of a resort to unlawful violence as a political weapon anywhere in America," said Secretary Morgenthau. "Detestable," was the word used by (Continued on Page Three.)

Ethiopia Expects War With Italy In The Next 15 Days

Addis Ababa, Sept. 10 (AP)—Emperor Haile Selassie today refused the Italian legation permission to erect bomb-proof shelters. While the League of Nations is struggling at Geneva for peace, predictions were being made here today, even in official quarters, that Italy would begin war within two weeks, when the present rainy season ends. One minister who would not permit himself to be quoted said he expected war in 15 days.

Profound pessimism exists among the foreign diplomats. Provincial governors today ordered all foreigners in the interior of Ethiopia, including Americans, to come to the capital province for safety. More Ethiopian troops and munitions were dispatched to the northern frontier when Emperor Haile Selassie became alarmed by reported movements of Italian troops along the border.

CONGRESS GROUPS TO START PROBES

Munitions, Lobbying, Patent Monopolies, Elections Face Inquiries

By CHARLES P. STEWART
Washington, Sept. 10.—Congressional investigating committees will be getting into action long before congress itself reconvenes in January. Four of them especially will attract attention:

1. Senator Gerald P. Nye's munitions quiz.
2. Senator Hugo L. Black's anti-lobbying probe.
3. Representative William I. Stovick's into patent monopolies.
4. Representative William J. Granfield's election inquiry.

That is to say, Nye, Black, Stovick and Granfield are chairmen of the respective committees—the first and second named by the senate, the third and fourth by the house of representatives. The Nye and Black committees already are well advertised, but they will be getting still more advertising shortly. Nye and some of his associates are dissatisfied to keep Uncle Sam out of overseas warfare. They want a more stringent neutrality law—more so, in certain respects, than suits President Roosevelt. Besides, if American oil interests did lend themselves to a plot to involve the U. S. willy-nilly, (Continued on Page Three.)

State WPA Office Gives Quick 'OK' To Projects

Midnight Tonight Is Deadline for All Such Work Proposals for North Carolina; Total May Reach As High as \$75,000,000 in Endorsements to Washington

Daily Dispatch Bureau, in the Sir Walter Hotel, BY J. C. BASKERVILLE.
Raleigh, Sept. 10.—Midnight tonight is the deadline for all Works Progress Administration projects for North Carolina, and those projects which have not gotten under the wire by that time will just be too late, State WPA Administrator George W. Coan pointed out today. But he is well pleased at steady flow of projects which have been coming in from the district offices for the past two or three weeks. Approximately \$3,000,000 worth of additional projects were approved yesterday, bringing the total of the projects approved so far and sent on to the WPA in Washington to between \$63,500,000 and \$64,000,000. With another big batch of projects on hand this morning awaiting approval, it would not be surprising if several million dollars worth of additional projects are not approved by midnight tonight. For the past several days projects have been coming in so fast that the engineering department has not been able to keep up with them. But it is expected that all will be gone over and approved or rejected by Sept. 12, which is the deadline in Washington for the receipt of all WPA projects from the states. It is estimated that at least \$75,000,000 worth of projects have already been received, if not more, and that by Sept. 12, the state office will have approved at least \$75,000,000 worth of projects. Because of the rush of work and the large number of projects received, the entire engineering division, including all of the clerks and stenographers, have been working until midnight every night, also on Sunday. The strain of all this overtime work became so severe on some of the stenographers and clerks that some of them almost collapsed. As a result, Administrator Coan gave orders yesterday that every employe should stop work at 5 p. m., despite the rush and the same order is expected to prevail today unless the rush of applications is so great as to demand over-time work tonight.

WEATHER FOR NORTH CAROLINA.

Rain and slightly cooler tonight Wednesday mostly cloudy.
