Roosevelt To Ask For Huge Sums In Next Congress

LARGE FUNDS FOR PUBLIC WORKS ARE REPORTED IN MIND

Ickes, Sidetracked in Latest Roosevelt Order, Refuses To Affirm Or Deny Story

PRESENT 4 BILLIONS ON TEMPORARY JOBS

Most of It Allotted for That Purpose Under Direction of Harry Hopkins; Public Housing Would Share Heavily in New Funds If Given by Congress

Washington, Sept. 14.—(AP)—A possibility that President Roosevelt will ask the next Congress to appropriate more millions for permanent public works was discussed in informed circles today.

Neither a confirmation nor a denial that had been assured the President would follow such a course could be obtained from secretary Ickes, the public works administrator.

But other officials, striving to read between the lines of the presidential order setting aside the bulk of the remaining work relief fund for temporary work under Harry L. Hopkins' jurisdiction, thought it highly probable that Congress would be asked for more money to salvage some permanent PWA projects.

It was pointed out that since the \$4,000,000,000 works program was announced last winter, many communities had been asked to develop PWA projects, which now have little apparent chance to qualify for any of the \$4,000,000,000.

One type of public works mentioned particularly as likely to be included in any new appropriation was public housing. The original work relief allotment for this purpose was cut \$100,000,000, by the President yesterday, this amount being made available instead of other PWA projects which can be started by December 15.

Little and Emery Finish All Square In Golf Matches

The country Club, Cleveland, Ohio, Sept. 14 (AP)—Staging a comeback after losing the first three holes to his rival's sub-par start, Champion W. Lawson Little, Jr., finished all square with Walter Emery, 23-year-old Oklahoman, in the first half of their 36-hole match for the American amateur golf crown today. The slim challenger thrilled a gallery of upwards of 4,000 fans by jolting the clouting Californian a terrific jolt at the outset, then fighting desperately to meet Little's rally.

CCC Will Be Retained On Forest Jobs

Roosevelt Will Make Corps Permanent, He Tells Group At Lake Placid, N. Y.

Lake Placid, N. Y., Sept. 14.—(AP)—President Roosevelt in an outdoor talk here today, observing establishment of the State Conservation Department, announced determination to maintain the Civilian Conservation Corps for preservation of the forest lands of the nation.

The President, immediately after his arrival here, witnessed a parade and a demonstration of the work of the CCC boys, preceding the ceremonies, dedicating the \$1,000,000 White Face Mountain memorial highway.

Yesterday at his Hyde Park home, Mr. Roosevelt said he planned to establish the CCC permanently on a basis of a reduced enrollment of 300-

McGrady Brings Roosevelt's Approval of Plan After Conferring at Hyde Park Home

TRY TO STAVE OFF INDUSTRIAL STRIFE

Soft Coal Business Is Only Bad Spot in Country, and That Ought To Be Overcome, Negotiators in Washington Are Told; New Scale Would Date Back

Washington, Sept. 14.—(AP)—Through Edward F. McGrady, assistant secretary of labor, President Roosevelt today tried to stop the threatened soft coal strike by giving his approval to the United Mine Workers' proposal for a 15-day extension of present wages and hours, with any agreement to be retroactive.

McGrady strode into the Appalachian joint wage conference and out of strike speeches by union leaders. The conference was at a standstill on negotiations toward a new contract to succeed the agreement expiring Sunday night.

"Surely to God we're not going to allow this industrial warfare to take place because of a retroactive clause," McGrady roared.

He told the conference that he had spent most of yesterday with Mr. Roosevelt at Hyde Park, N. Y., going over the industrial situation.

"The only bad spot in the country, he said, is the soft coal industry and we believe this spot ought to be overcome."

After McGrady left, Philip Murray, union vice-president, offered a motion that a 15-day extension with a retroactive clause be approved.

Hence, if a new agreement negotiated within the next 15 days contains wage increases, the miners would be paid at the new rate for the period of the extension.

The conference recessed for a few minutes after Murray's motion was offered to allow the operators time to consider it.

New York, Sept. 14.—The death of Senator Huey P. Long is being looked upon by political observers as a blow to the Republicans. The opinion is that Senator Long, with his following, might have been a serious defection from the Democrats in an independent move. The loss of conservative Democrats would not be felt so keenly by President Roosevelt.

As a matter of fact, any independent party movement cannot get far in the United States unless led by a spectacular figure—and such figures are few and far between. Even the spectacular figures cannot hope to win. They serve merely as a nega-

ENGLISH SOLDIERS ARRIVE IN EGYPT

Dispatch Says Transport Lands Tanks and 2,000 Troops at Alexandria; Sanctions Against Italy May Be Invoked by League If Ethiopia Is Invaded

(By the Associated Press.) Benito Mussolini's cabinet flatly refused today to take any compromise settlement of the tense Italo-Ethiopian dispute.

Meeting under Il Duce, who holds most of the cabinet portfolios themselves, the ministers went so far as to examine "in what cases Italy's continued membership in the League of Nations would be rendered impossible."

At Geneva, Soviet Russia, the Little Entente, the Balkan Entente and other states joined France and Great Britain in pledging allegiance to the League covenant.

Great Britain made representations to Italy concerning alleged anti-British propaganda broadcast by the radio station at Bagh.

A Paris dispatch, attributed to the Cairo correspondent of the Havas News Agency, said a British transport had landed tanks and 2,000 troops at Alexandria, Egypt.

Mussolini told his cabinet that Italian forces in Libya were being strengthened and that Italy now is able to meet any menace from any direction.

He also declared that Italy's colonial conflicts would not breach her friendship with France.

Today's action of the nations of the

Death of Actress Seeming Suicide, Prints Indicate

Chester, Pa., Sept. 14 (AP)—Chas. Dunlap, forensic expert of the Chester police department, announced today that two fingerprints are on the revolver found near the body of Evelyn Hoey, New York musical comedy singer, and both are those of the dead girl.

His announcement supports the expressed belief of William E. Parke, Chester county district attorney, that the girl, found dead in the rural home of Henry H. Rogers, Jr., took her own life.

Dunlap said one print was made by the ring finger, and the other by the middle finger, both of the right hand.

Chester, where Dunlap is employed, is an adjoining Delaware county. The scene of the shooting is in Chester county.
