Will Go on Motor Tour of That City and Take Train for Washington; President Misses One More Afternoon of Fishing as Result of Storm

Aboard the U. S. Houston, Enroute to the United States, Oct. 21.—(AP)—President Roosevelt today closely watched weather reports of a hurricane trailing the Houston out of the Caribbean Sea as this ship sped along the eastern fringe of the Bahamas Islands.

Previous plans to stop today off Crooked Island were cancelled to await the latest reports of the tropical disturbance, reported to the President last night by the Jacksonville Weather Bureau.

The effects of the gale were felt yesterday and last night as the Houston and Portland encountered rough seas, high winds and severe squalls traveling through the Winward passage between Cuba and Haiti.

The President had hoped for one more afternoon of fishing in these waters, one of his favorite fishing spots.

Despite the storm warnings, the

Daily Dispatch Bureau, in the Sir Walter Hotel, BY J. C. BASKERVILLE

Raleigh, Oct. 21.—The drivers of automobiles in North Carolina should begin to study the new driver's license law and to realize that after November 1 they are going to have to drive much more carefully than they are now in order to keep their licenses, Captain Charles D. Farmer, of the State Highway Patrol, said today. Contrary to popular belief, there are many offenses for which licenses may be suspended at once, prior to conviction, while there is a large number of violations in which the revocation of licenses is mandatory after conviction, Captain Far-

Embargo or Boycott Would Shut Off Imports Industry Needs Badly

### WOULD BE CRIPPLING

Mussolini Sorter Believed So Far To Be Bluffing, But Japs in Eastern Asia Do Not

By CHARLES P. STEWART

Washington, Oct. 21.—Uncle Sam's new neutrality policy has had this much effect anyway—

American business decidedly doesn't want a big overseas war—not if American trade with the belligerents is to be shut off while the conflict rages.

If trade with them is shut off, the country's exporters not only will be prevented from making war-time money out of them; they will be prevented from making what they are making now, on a peace-time basis.

Nor can importers afford to supply their various foreign sources of supply dried up. The United States may be able to find substitutes but the

### Sanctions Upon Italy Seen As Outlawry For All Wars

### UNLESS HE REPENTS, APPLICATION BEGINS

France Reported Camouflaging Railroad From Her Somaliland Possession Into Ethiopian Interior, Fearing Air Attacks; Tyrol Makes Appeal.

Geneva, Oct. 21.—(AP)—The new system of sanctions against Italy, devised swiftly to cut short the warfare in Ethiopia, was interpreted by League statesmen today as a world law for outlawry of war—all transgressors take notice.

The general view heard on all sides was that Premier Mussolini was the first victim of the commandments against war, but that the move went farther than that—the law laid down and the punishment provided striking all aggressors.

Mussolini was given time to reflect.

### Woman's Body Picked Up On Lonely Road

Louisville, Ky., Oct. 21.—(AP)—The broken body of a pretty woman identified as Mrs. Evelyn Sliwinsky, 20-year-old wife of a Louisville tailor, lay in a morgue here today while city and county police, apparently without a substantial clue, sought her slayer.

Found in a pool of blood in the middle of a highway near the city early yesterday, the body remained unidentified for approximately 18 hours.

Nearby was a man's brown velvet hat and a purse, embroidered on a handkerchief found in the purse was the name "Evelyn."

Coroner John M. Keaney judged that the attractively clad woman had been severely beaten, placed on the highway and run over by an automobile.

Questioned by police shortly after the body had been identified, the husband, Paul Sliwinsky, said he knew nothing about the affair. Officers said they were convinced he was not involved.

### Roosevelt Home-Coming Is Most Momentous Yet

Two Major Policies Press for Solution, Namely, How Far Neutrality Can Be Pushed and How Anything Can Be Saved of the New Deal; FDR Must Act

By LESLIE EICHEL

New York, Oct. 21.—President Roosevelt is on his way home. It is the most momentous home-coming he has yet had.

He has to decide on two major policies:

- 1. How far he can push neutrality. 2. How he can save anything of the New Deal.

The administration is believed to be nervous over both.

Business—and even labor—may try to evade neutrality without profits.

The New Deal was scrapped, not by its opponents or the Supreme Court, but by the administration itself, in order to gain the support of business—

—but New Deal spending to keep the

masses satisfied did not stop. Thus, the question now arises: Shall the administration begin all over again, or muddle through?

### NEUTRALITY

The United States is the largest creditor nation. It is not isolated from Europe, or any other region, in the business world. It is bound by a million ties.

When, therefore, the President issues neutrality decrees in a large way (the present ones are minor), will the business world go along?

It will not deliberately defy—as on New Deal measures—but unconsciously it will find means to evade

Concrete Program for Relieving Situation in Mediterranean May Soon Emerge

### ETHIOPIA REPORTED DESIROUS OF PEACE

Italian Army Circles Pass Out Rumors and Claim Their Forces Are Driving Northward Into Ethiopia From Italian Somaliland on the South

London, Oct. 21 (AP)—Authoritative quarters dropped hints today that a new plan for peace in the Italo-Ethiopian conflict had begun to crystallize at Rome, Paris and London, as the result of easing of tension in these capitals over the week-end.

These quarters emphasized, however, that the move was in the very earliest stage, and it would be erroneous to say that anything definite had yet developed or any great optimism prevailed.

Informed circles, which showed the greatest reluctance to discuss the developments, said it was not impossible that some concrete gestures for relieving the situation in the Mediterranean might be taken shortly to be followed by definite peace talks.

They said that Europe might not

The parkway is proposed to connect the Great Smoky Mountains and Shenandoah National Parks, and is being constructed with PWA funds.
