

CROSBY TO REPLACE THE INJURED INSCOE

Team Begins Drills Today for Friday's Game Here With Warrenton High

Facing the obstacle of replacing his stellar back, Claiborne Inscoe, Coach H. H. Crosby led his Henderson high school football squad back to the training ground this afternoon, after having lost to Rockboro Friday, 14-6, and at the same time lost Inscoe for the season with a broken collar bone.

In an effort to uncover a man with ball carrying ability, the mentor plans to work Dick Calloway, Billy Peace and possibly Billy Alston and Scoggins in the backfield to run with Turner and Ayscue. Coghill will likely be shifted to guard and Mitchell will play center some of the time. In addition to these changes, the team will work to perfect its passing attack, a department the locals have been lacking in during the season.

They meet Warrenton here Friday afternoon.

Duke Soccer Team Meet Tuesday With The High Pointers

Durham, Nov. 4.—Soccer will make its debut as an intercollegiate sport at Duke university tomorrow when the first official Blue Devil team meets High Point college on the Duke soccer field.

Long a popular sport in major eastern and northern institutions, Duke entered the field last year with an unofficial team and they split even for the season.

Their petition to the athletic council was recognized at a recent meeting and the sport listed on Duke's calendar—giving the institution eleven intercollegiate sports teams—a record number for any institution in the southern conference.

Soccer is primarily a kicking game, the participants not being allowed to use their hands in the drive toward the goal although they are allowed to butt the ball with their heads. It is both an interesting and thrilling sport.

REVIEWS WORK OF THE CAROLINAS, INC

Meeting at Pinehurst Lays Plans for Popularizing Two States Over The Nation

Pinehurst, Nov. 4.—Definite accomplishments as a result of activities of

Moon Theatre

TODAY and TOMORROW

"BEHIND THE GREEN LIGHT"
Added: Tom Howard Comedy
Admission 11 and 16c

The Carolinas, Inc., during the 18 months of its existence, were recounted here today at the first annual meeting of the organization by J. E. L. Wade, of Wilmington, president and Coleman W. Roberts, Charlotte, executive vice-president of the organization.

National attention has been focused on North and South Carolina during this period by a series of news items and feature stories. Considerable advertising has been secured through the circulation of a million stamps depicting various historic and scenic points in the Carolinas. Small test advertisements in a national magazine and a metropolitan newspaper revealed great interest in the advantages of these two great states.

The effort that is credited with the establishment of Morrow Mountain State Park near Albemarle and an increased interest that resulted in speeding development of other state parks in the Carolinas, was inaugurated at a meeting of The Carolinas, Inc., in February at Charlotte.

The recent Carolinas Scenic and Historic Tour, jointly sponsored by The Carolinas, Inc., and the Carolina Motor Club has done more than any other single accomplishment towards making the nation more Carolina conscious.

Next Liquor Law Tests Not Likely Until Primaries

(Continued from Page One.)

board members indicted and tried in Superior court for violation of the State prohibition enforcement laws then appeal from the findings of the Superior court to the Supreme Court. Then, after due and deliberate consideration, the Supreme Court can hand down an opinion on the constitutionality of the county liquor laws. And in the meantime, the other 83 counties must remain technically "dry" and get along on bootleg liquor.

At least, this is the way most people here now interpret the opinion of the Supreme Court, with Associate Justice Heriot Clarkson vigorously dissenting and holding that the county liquor laws are in fact unconstitutional on at least four counties. As a result, it will probably be another six months—in all probability even longer—before another case can be carried to the Supreme Court and a decision obtained as to whether the two county liquor laws, under which 17 counties are now operating more than 50 liquor stores. Most observers here are inclined to agree that no opinion on the constitutionality of the county liquor laws is likely until after the Democratic primary in June now seven months away. Some observers think that the proximity of the primary and election may have some slight bearing on the present opinion and the decision of the Supreme Court that it could not pass on the constitutionality of the county liquor control laws at the present time. For if the present time. For if the present laws had been held constitutional, it is generally agreed that the question of liquor and State or county liquor stores would have become a much larger issue in the present gubernatorial campaign than now seems likely.

To Reduce Extra Session Clamor That the present opinion will greatly reduce the agitation for a special session of the General Assembly something not at all desired by most of the Democratic leaders, especially on the eve of a primary—is now being conceded. If the Supreme Court had held the county liquor control laws constitutional, there would at once have been a very strong demand from the 50 or so counties which now would like to have legal liquor and county or state liquor stores, for a special session to enact either a state wide liquor law or additional county liquor laws, it is agreed. But since the Supreme Court refused to pass upon the constitutionality of the present county liquor laws in effect in 17 counties, and left the door open for a new attack on their constitutionality, the demand for a special session is not expected to be very great. For the legislature, if called back, would still not know what kind of a liquor control law it could pass that would be constitutional.

As a result, it is now expected that the State will continue to rock along with 17 legally wet counties in which liquor will continue to be legally sold in county liquor stores until Franklin county becomes the eighteenth, while the other 82 counties continue to be illegally wet under the "North Carolina Plan," the name given the widespread bootleg system in effect in most of the dry counties.

Compulsory Education of State Prisoners Favored

Daily Dispatch Bureau, In the Sir Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, Nov. 4.—One of the most urgent needs of the North Carolina prison system is compulsory education for illiterate prisoners, according to Oscar T. Pitts, acting director of the prison division of the State Highway and Public Works Commission. He is convinced that morale would be greatly improved and the prisoners would become better fitted to return to society if they could be given instruction in the fundamentals of learning while they are in prison. He is hoping that some plan can be worked out in the near future by which some systematic instruction may be given to at least the more illiterate prisoners in the State prison system.

"Most of the larger states have compulsory prison school systems and find that these schools help greatly in raising morale and in fitting the prisoners to return to society," Pitts said. "But most of these states

also have almost unlimited funds with which to do this work. Our trouble here in North Carolina is that our funds are limited and so far we have not been able to set up an educational system within the prison because of lack of funds.

"Some of the other state prison systems which likewise have limited funds for prison expansion have worked out plans in which they use their better educated prisoners as teachers, and are finding this plan quite satisfactory. As a result, we are going to try to work out a plan under which we can use our better educated prisoners as instructors.

"We are convinced, however, that there should be a responsible head of this prison school work who should be an employe of the State Prison division and be under the general control of the prison administration. We do not think it advisable to have any more relief teachers or any outsiders attempting to carry on any educational work, since it is necessary for those in this work to have

an understanding of prison conditions and the psychology of the prisoners."

Hurricane Moving On South Florida

(Continued from Page One.)

with hurricane flags displayed from Miami north to Stuart. The 9:30 a. m. warning also included the low-lying Lake Okeechobee, where many lives have been lost in past storms. In 1928 a hurricane caused the lake to overflow its banks, and over 2,000 persons were drowned.

Flue-Cured Crop Will Be Reduced for Coming Year

(Continued from Page One.)

report said, the outlook for the cigarette type tobacco is for favorable prices.

PRESENT UPWARD TREND TO CONTINUE IN NEXT YEAR

Washington, Nov. 4 (AP)—The Agriculture Department predicted today that the present "upward trend" in farm income will continue in 1936. "The demand for farm products in 1936," the department said in its out-

look report, "is likely to be greater than in 1935. Consumer buying power in the United States is likely to be increased in 1936; buying power of consumers in many foreign countries also is likely to be increased." The report was prepared by the Bureau of Agricultural Economics after a week of conferences by field representatives from all parts of the country. It discussed prospects for more than 50 farm products.

Beware Coughs from common colds That Hang On

No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you can't afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)
