30 PRCT. INCREASE IN HOG PRODUCTION IS GOAL FOR 1936

Balanced Farming Is AAA Purpose in New Corn-Hog Contracts Just made Public

PRICES HIGHER AS RESULT OF SLASH

Community and County Control Committee Planned for Making Appraisals; Contracting Farmer Given 100 Percent of Hog Base Under Agreement

Washington, Dec. 2 (AP)—Emphasizing that "balanced" farming is its aim, AAA officials made public today details of the 1935-1937 contracts offered farmers for corn-hog control. The contracts, effective as of yesterday, are designed to increase hog production by 30 percent in 1936. A shortage of hogs has led to higher prices, with protests from consumers.

Leading features of the features of the contract:

1. Community and county control committees will make appraisals and determine a farmer's "base" production of hogs, and his base corn acreage.

2. The contracting farmer will be permitted to raise 100 percent of the hog base.

3. He will be required to keep his corn acreage ten to 30 percent under his base.

4. A producer will receive \$1.25 benefit payments for each hog in his base for 1936.

5. Corn benefits will be at the rate of 25 cents a bushel for 1936.

6. Producers must grow at least 25 percent of the base corn acreage to qualify for payments. The 1936 payments are to be made in two installments, the first about August 1, and the second about December 31.

A provision allowing local administrative costs will be deducted from each producer's adjustment payments.

Federal Judge Seems In Line for Place on G.O.P. National Ticket

Daily Dispatch Bureau, in the Str. Walter Hotel, BY J. C. BASKERVILLE.

Raleigh, Dec. 2.—Federal Judge Jesse M. Meekins will be in Raleigh tomorrow and the presidential gossip will not down.

The judge will get the Republican State Convention's endorsement for the presidency, but the post most sought for him by his friends will be the vice presidency. He is regarded an ideal candidate for either wing of his party.

If the Republicans nominate Senator Borah, there would be two dry runs and it is possible that the Republicans will catch the nation in mood to return to prohibition. Both men have made national reputation as campaigners and for the dry cause. There are signs that there is a national

PROTESTANT SYNOD DEPRIVED OF EVERY RIGHT IN GERMANY

All Authoritative and Administrative Powers Shorn By Order of Nazi Government

FOLLOWS PLACING OF A CENSORSHIP

Warning Given Last Week That Confessional Synod Would Be Dissolved if Cooperation With Church Committee Were Not Forthcoming Immediately

Berlin, Dec. 2.—(AP)—Hans Kerll, head of the National department of church affairs, dealt a blow to the Protestant confessional synod today by depriving it of all authoritative and administrative rights.

Kerll's act of a censorship on the confessional synod, preventing pastors from sending communications which have not been approved by him.

Bishop Martin Niemöller, announcing he had been informed of the censorship, said the church was being placed in "absolute subjugation by the state."

Kerll had warned November 28 that he would dissolve the confessional synod today if it did not cooperate with his church committee. The confessional group asked for eight days in which to answer Kerll's ultimatum.

Although today's decree did not mention specifically the Protestant confessional synod, the right of church taxation, collection of funds and convocation of synods was forbidden to the opposition group.

Britain's Course In Event Italy Makes Good Her Threat of Reprisals Pondered

CONSIDER ATTITUDE OF UNITED STATES

Whether This Country Will Join In Blockade of Oil Shipments Causes Concern Among British; Much Uneasiness Evident in Europe As To Situation

(By The Associated Press.)

The British cabinet debated today the problem of tightening the iron ring of sanctions imposed on Italy for initiating the war of occupation in Ethiopia.

Talk of peace in East Africa, the purpose for which sanctions were imposed, languished as Britain's attention turned to an oil embargo to freeze that nation into submission to the will of her sister states in the League of Nations.

Two-fold program was before the British, leader in the sanctions drive:

1. Should an embargo on oil shipments to Italy be imposed at Geneva? Commentators little doubted the cabinet would approve the move and transmit its decision to the League.

2. If the embargo goes into effect and Italy makes good her threat of her reprisals, what course shall Britain pursue?

Italy has already warned that oil sanctions would be regarded as an "unfriendly act."

Extreme uneasiness was evident in some British quarters over the situation.

A question tangent to the problem of an oil embargo presented itself to the British cabinet. It was, would the

Sanctions Pinch Hard Upon Italy

Rome, Dec. 2.—(AP)—Italian business leaders said today that trade was slackening and that problems of labor and business credit were developing as the result of League of Nations sanctions.

They said that the imports and exports, which normally total about one billion lire (about \$30,000,000) monthly, were being cut to a point that estimates as to the probable damages were possible.

They suggested that if this trade were only halved the reduction would be equivalent to the wages paid monthly to nearly one million men.

Small firms, manufacturing for export are dependent upon foreign material, said these leaders, may soon be confronted with a critical situation, unless they can use their facilities for other types of work.
