Hoffman Hurls Lie At State's Witness At Trial Of Bruno

Charge Against Millard Whited May Be Basis of Perjury Action **Against Witness**

SAYS RECORD WILL BEAR OUT CHARGES

Whited Had Twice Testified He Saw Hauptmann Near Lindbergh Estate Few Days Before Baby Was Kidnaped; Was Only Jersey Witness in New York

Trenton, N. J., Feb. 24 (AP)—Governor Harold G. Hoffman today accused Millord Whited, Sourland mountain lumberjack, and one of the State's chief witnesses against Bruno Richard Hauptmann, of lying, a charge which might be the basis of perjury action against him. The governor, who questioned Whit-

ed at length Saturday, said the "printed and written record shows that he Whited was one of the two witnesses who placed Hauptmann near the Lindbergh estate at Hopewell about

the time of the kidnaping March 1,

The Sourland logger was the only witness New Jersey called at Haupt-mann's extradition hearing in New York to place Hauptmann near the scene of the crime. Whited swore he saw Hauptmann prowling about the Lindbergh grounds on two occasions ate in February, 1932.

He repeated this testimony at the Flemington trial. Prosecution officials, the governor said, seemed to be making "a studied effort" to "surpress important information in the Hauptmann case."

Prosecutor Anthony M. Hauck, Jr., of Hunterdon county, replied at once to this criticism by accusing the governor himself of withholding some of the facts. Whited's testimony, he said, "shows there has been nothing sup

"The governor," he said, "has taken part of the story to show he (Whited) lied. Why doesn't he be fair about it it and show the full record, as well as the full statement Whited gave Saturday, instead of making public a

Pou's Entry Livens Race For Auditor

Campaign for Minor faced roads and 28,000 miles of dirt Office May Rival Gubernatorial Battle in State

Daily Dispatch Bureau, In The Sir Walter Hotel, By J. C. BASKERVILL Raleigh, Feb. 24.—With the an

nouncement today by George Ross Pou that he is a candidate for the Democratic nomination for State auditor in the June primary, the belief in many circles here is that the campaign for that office for which there are now four candidates, may rank next to the gubernatorial campaign in general interest. The four candiham, who has held the post for 16 years and is expected to seek renomination; Willard L. Dowell, executive secretary of the North Carolina Merchants' Association; Charles W. Miller, of Asheville, 25-year-old directory publisher there, and Pou.

Two of these four candidates have been colorful characters in North Carolina politics for ten years or more although this is the first time either has ever run for a State office. These two are Dowell and Pou. Both are regarded as being experienced and canny in political matters, with unusually broad contacts and acquaintances extending into every section of the State. Pou was superintendent of the State Prison for 12 years, from 1921 to 1933, until it was merged with the highway department, and for a year after the merger was executive director of the prison division until he resigned to run for the seat in Congress left vacant by the death of his father, the late Congressman Edward W. Pou, of Smithfield. And while Pou was defeated for Congress by Harold L. Cooley, of Nashville, this

Vast Extent of Ravages Of Snows, Rains and Severe Cold Beyond Comprehension

FINANCING REPAIRS WILL BE DIFFICULT

Will Take Time To Restore Roads to Normal and Work Cannot Even Begin Until Dry Weather, Chairman Waynick Says; Outlines Phases of Problem

Daily Dispatch Bureau,
In The Sir Walter Hotel,
By J. C. BASKERVILL.
Raleigh, Feb. 24.—The bigness of
the job now facing the highway department in trying to repair the thousands of miles of roads damaged by the snows, rains and sub-freezing temperatures this winter, or the tremendous cost of this work, is not yet realized by the public at large, Chairman Capus M. Waynick, of the State Highway and Public Works Commission, said today. There are still 23,000 miles of roads in the State which have never even had a topsoil or sand clay surface put on them, while there are 22,000 miles of roads with nothing more than topsoil, sand clay or surface treated surfaces, Waynick point-

"It has required a period of 16 years and the expenditure of \$300,000,000 for us to build only 8,000 miles of concrete and asphalt pavement in North Carolina. so I do not see how we can possibly be expected to put the 22,-000 miles of soil or bituminous surroads back into condition in a few weeks time. But we are going to do the best we can and do it as quickly as we can with the money available," Waynick said. "But we cannot make a move until the roads dry up enough for us to start work, since it is impossible to scrape or repair a muddy road. We have just got to have some patience and wait on the weather."

It has been suggested that the highway department put down gravel on advocate of states' rights and a piothe dirt roads. But it would cost at neer in the movement that led to proleast \$500 a mile to put down only a hibition repeal, died suddenly at his light sprinkling of gravel, the engi- apartment here early today. Party's Treasurer Paid Well by Firms Having RFC Loans

Washington, Feb. 24 (AP)— Senator Couzens, Republican, Michigan, told the Senate today that Walter J. Cummings, treastirer of the Democratic National committee, received salaries of \$90,000 a year as an official of firms borrowing from the Recon-

struction Finance Corporation.

He made this statement in opposing a bill supported by Chairman Jesse Jones, of the RFC, to exempt bank stocks held by

corporation from State taxation. Couzens said Cummings received \$75,000 a year as a chairman of the board of the Continental Illinois Bank of Chicago, to which the RFC has lent \$50,000,000, and \$15,000 a year from the Chicago, Milwaukee, St. Paul and Pacific railroad, another borrower. "If these banks can pay these salaries," he continued, "they can

Offering of \$1,500,000 March 15 Will Be Readily Gobbled Up

Present Market Kiting Believed Largely That; Consumption May Catch Up With Demand, and Then New Drop

By LESLIE EICHEL Central Press Staff Writer New York, Feb. 24.—The United States Treasury is expected to make a \$1,500,000,000 offering on March 16, an offering which will be satisfactory to financial New York. It will be grabbed up. In spite of all the shouting from financial interests, the government's securities still rank first. There is a reason—the federal government's taxing powers are enormous, and it has taxed merely one-third as

much as England, for example. Not that financial New York desires any more taxes! No, but the power to tax the income of 127,000,000 private bond, even of the staunchest corporation, can compete. Then, again, there are funds that

can find haven only in such "legal" securities as "government." There is a disagreement in financial circles as to what kind of securities will be to their liking. Bitter anti-

Denies He Struck Victim With Club

Lillington, Feb. 24 (AP)—Oris M. Pollard, former Angier police-man charged with murder in the death of F. G. Collins, well-to-do farmer, denied emphatically in Harnett Superior Court today allegations he had hit the farmer. with a blackjack after arresting his last Christmas eve.

Pollard was on the witness stand more than two hours this morning, and this afternoon C. F. Deans, former chief of Angier po-lice, who is under indictment with Pollard, was expected to testify in his own behalf.

The officer testified as to the details leading up to the arrest and jailing of Collins on a charge of being drunk, and admitted striking the farmer with his hands but asserted he did not take his blackjack from his pocket.

Agricultural Supply Bill Is In Excess of Current Year, With Re-Appropriations

SHELTER BELT OF TREES IS DENIED

Appropriation for That Cause Is Turned Down; Farm Credit Administration Gets \$4,000,000, Same As This Year; Would Eliminate Diseased Cattle

Washington, Feb. 24.—(AP) - A \$161,163,147 agriculture department appropriation bill for the 1937 fiscal year was laid before the House today as the new \$500,000,000 soil conservation farm program headed for conference on House and Senate differences. Although from the viewpoint of actual new money appropriated, the supply bill was \$28,528,857 under budget estimates, there were reappropriations of unexpended balances totalling \$18,000,000. The measure was, at the same time, \$21,635,563 above current appropriations, not counting re-

appropriations. In addition, the bill allowed \$4,000. 000 for the Farm Credit Administration-the same as this year.

Following the policy laid down in the War Department supply measure, the appropriations committee refused to allow the \$1,000,000 requested in the budget for the shelter belt tree plant ing program down the great plains

The principal provision for using unspent balances which otherwise would revert to the Treasury, was \$17,500,000 for the elimination of diseased cattle work-the amount requested in the budget.

Chiefly accounting for the measure's total increase over this year's fund was inclusion of the soil conservation service for the first time as a partment. The committee cut the \$27, 500,000 budget estimate to \$22,469,265. It is under this law that the substitute AAA program is being set up

Status Of Farmer Is Improving

Washington, Feb. 24.—(AP)—De clarations that the farmer's financial status as shown "vast improvement," and that the nation is threatened with "billions of dollars" loss by soil erosion, were placed before Congress to-

day by government agencies. Governor W. I. Myers, of the Farm Credit Administration, which holds about 40 percent of the farm mortgage debt of the country, said there had been such a "vast improvement" in the farm status that need for government credit is decreasing. His testimony was given in hearings on the annual agricultural department appropriations bill, made
