COMPACT BILL WILL BE PUSHED RAPIDLY BY TOBACCO STATES

Kentucky and Tennessee Delegations in Congress Anxious for Measure To Pass
STRONG SENTIMENT FOR IN THAT AREA

Kentucky Legislature Is Now In Extra Session But Tobacco Not on Its Program; May Be Included if Compact Bill Is Passed into Law Speedily

Washington, April 10 (AP)—Leaders of the Kentucky and Tennessee congressional delegations said there was strong sentiment for immediate action by their states to provide for tobacco acreage restrictions compacts with other states.

As the tobacco compact bill, passed Wednesday by the House, neared consideration in the Senate, Senator Kenneth D. McKellar, Democrat, Tennessee, said he would make sure Tennessee could enter into compacts for restriction of acreage for all types of tobacco.

Favor Quick Action
Representative Fred N. Vinson, Democrat, Kentucky, said members of the Kentucky delegation were in favor of speedy action permitting their states to enter into the agreement.

The Kentucky legislature is in special session now, but the subject of tobacco acreage restriction was not believed to have been included in the call by Governor A. G. Chandler. It was said unofficially a supplemental call might be issued if Chandler desires to see Kentucky avail itself of the tobacco compact measure when and if it passed by the Senate and signed by President Roosevelt.

ROOSEVELT GIVEN A WELCOME HOME

President Returns From Three Weeks Fishing in Southern Waters

Washington, April 10 (AP)—President Roosevelt reached the capital at 1:55 p. m. today after a 20-day fishing trip in the South.

The President, appearing in excellent health and humor, was met at the station by Mrs. Roosevelt and Vice-President Garner and five members of the cabinet; Secretary Hull, Morgenthau, Wallace and Dern and Attorney General Cummings.

The chief executive left the capital March 22 after three times delaying his departure because of flood conditions. On his return journey he surveyed storm-stricken areas in Georgia.

G.O.P. Head Tariff Body Backs Plans

O'Brien Favors New Deal's Reciprocal Trade Treaty For Tariff Changes

Washington, April 10.—(AP)—The Republican party was urged today by Robert Lincoln O'Brien, Republican chairman of the tariff commission, to adopt a plank in its 1936 platform endorsing and accepting the New Deal's method of revising tariffs by reciprocal trade treaties.

O'Brien, Massachusetts Republican appointed to the commission chairmanship by former President Hoover, submitted to Republican leaders in Congress and party leaders a proposed plank repudiating the old "log-rolling" methods of tariff-making, and promising maintenance of the reciprocal tariff program.

He said he would attend the Republican National Convention in Cleveland in an effort to win approval of his proposal.

"I am a Republican appointed to the commission by a Republican President, and I think I have a right to be heard," O'Brien said. "I am going to the convention in the hope of being allowed to speak before the platform committee. I am going to do everything I can to push this plan."

\$5,000 for Peace

Lloyd Lewis, 18-year-old Plattsburgh, Mo., farm boy won the contest in which 200,000 were entered for the \$5,000 prize offered by Eddie Cantor, film comedian, for an essay on peace. Lewis wrote, "Peace is an expensive luxury. The first advantage on the road to peace is to recognize its cost. Peace is an easy word to praise but a costly one to live with."

A Mere Million?

When Mrs. Thomas Yawkey, wife of the Boston baseball magnate, checked out of a Charlotte, N. C., hotel, she forgot jewelry valued at a million dollars. A housekeeper found the gems in a knitting bag. (Central Press)

FARMS INUNDATED IN FOUR STATES AS RIVERS RISE HIGH

Thousands of Acres Covered by Muddy Water, Leaving Thousands Made Homeless

LEVEES GUARDED ON MISSISSIPPI RIVER

Army Engineers Express Confidence, However, Deaths from Storms or Floods Reported, but Forecast Is for More Rain

Memphis, Tenn., April 10.—(AP)—Flood-gorged rivers in four southern states poured muddy waters over thousands of acres of low-lying farm lands today, and left hundreds of families waiting for the slow recession to return to their homes and work.

The streams lapped at the doors of three cities, but the damage was confined principally to the water-blanketed bottom lands of Georgia, Alabama, Tennessee and east Arkansas.

No new deaths were charged to the flood waters today as the affected areas waited hopefully for cessation in rain. Showers and unsettled conditions were predicted for most of the area again today.

Levees Watched.
There was a ceaseless vigil along the levees of the rising Mississippi, although army engineers expressed confidence the defenses were adequate and there was no danger of a major flood from the waters now in sight.

Thousands near the big river above Memphis were temporarily homeless today as farms unprotected by levees were inundated. Five hundred families found refuge at Ridgely, Tenn., and others were reported driven from homes along the Ohio in Kentucky and Illinois.

MAY DROP TAX ON FOREIGN DIVIDEND

Earnings Owned Abroad Too Small; Bill Delayed on Reaching Floor

Washington, April 10.—(AP)—A House Ways and Means sub-committee, seeking to put a \$799,000,000 revenue program into bill form, talked today of discarding any effort to tax dividends paid foreigners by foreign corporations operating in this country.

Chairman Samuel B. Hill, Democrat, Washington, said the sub-committee also proposed to "put some circumscription" around a plan to give relief to debt-laden corporations, as so as to assure no special treatment would be provided for those firms with earned surpluses sufficient to cover standing debts.

He said there was a doubt among committeemen as to whether the program should embrace the dividends of foreign corporations to foreign stockholders, because less than \$200,000 is involved in the levy.

BILL WOULD BE DELAYED IN REACHING THE HOUSE
Washington, April 10.—(AP)—Rolling up their sleeves, four members of a House tax sub-committee confronted today the long and complex task of putting the new \$799,000,000 tax

CALLES AND THREE OF AIDES ARRESTED, EXILED BY MEXICO

Placed on Big Plane and Flown to United States To Get Them Out of the Country

CALLES ACCUSED OF VERA CRUZ WRECK

Charges Brought by Left Wing in Chamber of Deputies; Calles Long Was President and Known as "Iron Man" of Republic South of Rio Grande

Mexico City, April 10.—(AP)—General Plutarco Elias Calles, for eleven years the "strong man" of Mexico, was arrested today in a surprise coupe by the government.

With him were arrested three of his principal advisors.

All four were placed aboard an airplane carrying them to forced exile in the United States.

Three Others Exiled.
Federal troops and secret police agents went to the homes of the four men shortly after midnight to make the arrests.

In addition to Calles they arrested: Luis Morones, former minister of labor.

Luis Leon, former minister of the interior and agriculture.

Rafael Ortega, former governor of Guanajuato.

Calles and his three former aides were held under guard throughout the remainder of the night.

Then they were taken to the central airport and placed aboard a trimotored airplane which took off for Brownsville, Texas.

Accused of Wreck.
The arrests followed the publication of charges by the left wing of the Chamber of Deputies that Calles was responsible for the bombing of the Vera Cruz train last Monday, in which 12 persons were killed.

The leftists also claimed that he was fomenting anti-government agitation in an attempt to provoke intervention of the United States in Mexico.

Gainesville Folk Rebuilding After Roosevelt Visit

Gainesville, Ga., April 10.—(AP)—Wind-battered Gainesville went about its rehabilitation work today, cheered by an encouraging word from President Roosevelt, who visited here briefly last night on his way to Washington after a vacation cruise.

The President's special train stopped for half an hour on its way from Warm Springs, Ga., to Washington.

After he had conferred with relief leaders, the chief executive spoke briefly to hundreds of storm victims gathered at the station.

He told his listeners he was "proud of the spirit you have shown" and assured them of continued sympathy and assistance of the national government.

High Water Blocks Out N. C. Roads

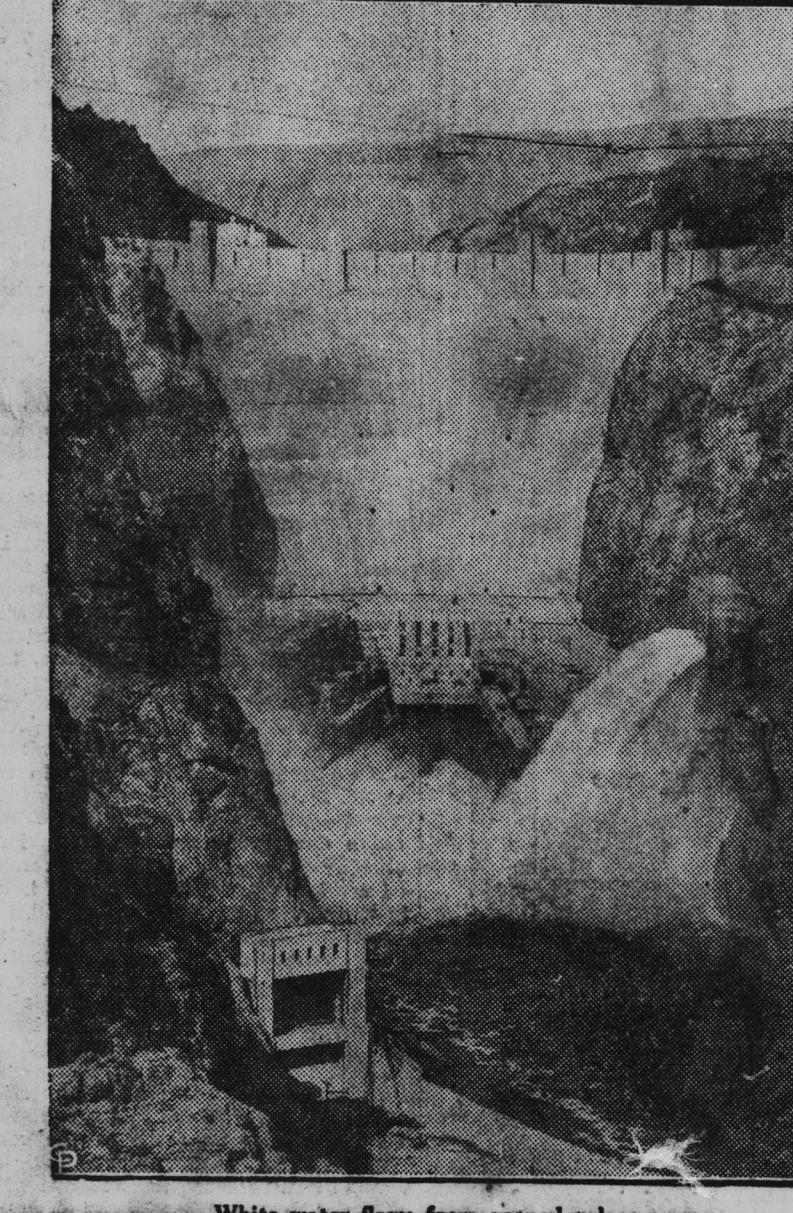

Raleigh, April 10.—(AP)—Four Eastern North Carolina highways remained closed today due to high water or washouts, with one expected to be reopened during the day as muddy flood waters in the four major streams swept on toward the ocean.

At the same time the highway commission announced all but five bituminous surfaced highways had been opened to all traffic by removal of the ordinance barring trucks weighing more than five tons from the 3,700 miles of such roads.

Route 28 near Elizabethtown, Route 109 near Mount Gilead and Route 95 near Rocky Mount were closed due to high water and U. S. route 74 between Lambertson and Whiteville was closed due to a washout, but it was hoped to have it opened late in the day.

Peace Parley For Ethiopia And Italy Is Set To Begin At Geneva On Next Tuesday

IRRIGATION BEGINS AT BOULDER.

White water flows from opened valves. Marking another step in the completion of gigantic Boulder dam, outlet valves to control the flow of the Colorado river for irrigation purposes are opened for testing, the white water is spraying out a la Niagara Falls. Incidentally, the water falls only seven feet less than the Niagara cataract. This photo is looking upstream and shows the water flowing from the Arizona side. In the background is the huge powerhouse. In the foreground are diversion tunnels to be used only during emergencies.

Babson Points The Way To New Jobs In America

Old and New Industries Must Help and Revival of Foreign Trade, When It Comes, Will Create Jobs; Improved Conditions All Along Are Coming

BY ROGER W. BABSON,
Copyright 1936, Publishers
Financial Bureau, Inc.

Sea Island, Ga., April 10.—The spring improvement in general employment and payrolls is under way. As the severity of winter weather slides further into the background, everybody tends to feel better about the outlook for jobs. The grim fact that there are some 11,000,000 people out of jobs remains, however, as a constant reminder of our gravest problem. I intend no criticism of President Roosevelt when I recall that in 1933 he declared it to be his primary task to get the unemployed back into jobs. The Republicans may make campaign material of his failure, but the President is not primarily responsible.

The President thought, as lots of other observers did at the time, that these people were only temporarily unemployed because of the depression. He believed that all that was necessary was to get industry rolling along the high-road to recovery. We have had considerable recovery, yet we have not made equivalent inroads upon the unemployment totals that existed when Mr. Roosevelt took office. Private industry today would be only too glad to put everybody who is now out of a job back on the payroll. But the truth is that their old jobs no longer exist for many of these 11,000,000 people.

Machine vs. Manpower
A combination of reasons accounts for this strange paradox of a nation

CONGRESS TO STAY UNTIL EARLY JUNE

Will Barely Get Away In Time for Parties' National Conventions

By CHARLES P. STEWART
Washington, April 10.—Congress almost certainly will not get away from Washington as soon as its leaders recently were predicting, and as its entire membership and the administration were hoping.

For awhile the middle of April was spoken of as the deadline; then May 1; then mid-May; now early in June.

Considering that the Republicans' Cleveland convention starts June 9, "early in June" is fairly late in the season for Congress' adjournment. It is politically very awkward to have Capitol Hill's lawmakers still in session with a national convention or two in eruption simultaneously.

TIGHT SQUEAK
True, the Democrats are not particularly

NEW SANCTIONS ON ITALY THREATENED IF PEACE REJECTED

Reports at League Headquarters Are Mussolini Plans Puppet Emperor In Ethiopia

DUCE IS ASKED TO SEND PEACE ENVOYS

League Agent To Referee Conferences and Committee of 13 Is Held in Readiness To Convene and Lend Its Assistance if and When Called Upon

Geneva, April 10 (AP)—New negotiations for peace between Italy and Ethiopia may start in Geneva next Tuesday under the threat that if they fail new sanctions may be decreed against Italy.

The "Committee of 13," which adjourned today to meet next Thursday, requested that Dr. Augusto Vasconcellos, of Portugal, president of the League sanctions committee, convoke that body "when he considers it useful in the interest of peace."

Unconfirmed reports circulated among the delegates said that Premier Mussolini intends to enthronate a puppet emper of Ethiopia at Dessye when and if his soldiers subjugate the last strongholds of Emperor Haile Selassie's forces.

Committee Wrangling
The section of the "Committee of 13," composed of every member of the League Council except Italy, was marked by wrangling between Anthony Eden, British foreign secretary, and Herve Etienne-Flandin, French foreign minister.

It was finally agreed that Mussolini would be requested to have representatives next Tuesday and that Salvador de Madariga, president of the "Committee of 13," should, with both Italians and Ethiopians around him at the conference table, get down to the business of peace talk.

German Envoy to England Dies Of A Heart Disease

London, April 10 (AP)—Leopold von Hoerscht, German ambassador to Great Britain died in London today from heart disease.

The 55-year-old ambassador, who had been busy with Joachim von Ribbentrop in a series of conferences and negotiations with Foreign Secretary Anthony Eden since Germany's occupation of the Rhineland, retired last night apparently in good health.

Embassy attaches said he had "been feeling all right recently," but suffered a heart attack at 9:30 a. m. (4:30 a. m., eastern standard time), and died 15 minutes later.

Russo-Japan Relationship More Tense

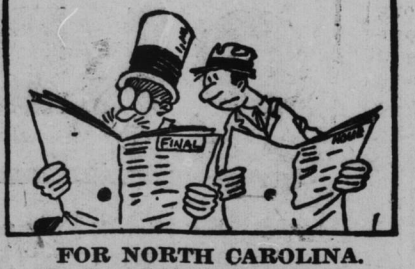

Soviet Embassy In Tokyo Invaded and Jap Attaches Arrested, Moscow Say

Moscow, April 10.—(AP)—Relations between Soviet Russia and Japan have been aggravated further, an official Soviet statement said today, by a "veritable blockade" against the Soviet embassy in Tokyo.

All Japanese employees of the Soviet Embassy have been arrested the statement said, on the grounds that an espionage nest had been uncovered in the embassy.

The statement was published in the newspaper Izvestia, official government organ, which referred to an alleged intrusion into the offices of the Soviet News Agency Tass at Tokyo, yesterday as a step in a plan fostered

OUR WEATHER MAN

FOR NORTH CAROLINA.
Cloudy, possibly showers in east portion tonight and Saturday, and in west portion tonight; slightly warmer in central portion.
