2nd German Plane Is On Way To U.S.

New York, Sept. 11 .- (AP) - The thorough-going Germans, with one trans-Atlantic flight record for an east-west crossing stowet away, sought a secont mark today with flying boats of the German International Air Line Lufhansa.

The ten-ton flying boat Zephyr land ed at Port Washington, N. Y., last night, completing the first non-stop flight between the Azores and the United States. Its time was 21 hours, seven minutes, for the 2,390-mile trip. Its sister ship, the Aeolus, was catapulted from a base ship off the Azores a few hours later for a second trip between the two points, this one with a scheduled stop at Bermuda. The Aeolus is scheduled to fly from Bermuda to Port Washington tomor-

The Zephyr's accomplishment and the Aeolus' project are new in aviation history.

The importance of the flight in the aviation world is that air transport men now have added new folios to the operation of mail and passenger Europe on regular schedules.

OIL FIRMS GIVE UP FILLING STATIONS

Unable To Pay Excessive Taxes and Simply Cease **Operations**

Daily Dispatch Bureau, In The Sir Watter Hotel, By J. C. BASKERVILL Raleigh, Sept. 11 .- The reason many

of the large gasoline and oil companies are ceasing to operate many of their filling stations as companyoperated stations and are leasing them to individuals without any restrictions whatever, is because they simply cannot afford to pay the heavy chain filling station tax on these stations, Robert Grady Johnson, secretary of the North Carolina Petroleum Industries Committee, said today. So the only alternative the oil stations up entirely, or to lease them to individual operators, Johnson said. "The average persons does not realize how much it costs to operate a filling station," Johnson said. "Since most of the sites for the stations are leased, even by the companies, they pay an average of one cent a gallon for the rental of these sites. This, if the rent on a particular site is \$100 a month, the station must sell a minimum of 100,000 gallons of gasoline a month merely to pay its rent If in addition it must pay be a heavy tax, this takes an additional amount and the gallonage sold per month must be heavily increased before any profit can be earned. "I know of gasoline companies

Final Attack on Northern Resort City of San Sebastian Is Reported Imminent After Negotiations For Surrender Are Broken Off By Rebel Bands

(By The Associated Press). The rebel junta, which claims it is the "real" national government of Spain, today announced 2,000 government troops had been slaughtered in an abortive attack on the island of Mallorca.

At the same time, Fascist rebels and Socialist government sources reported a new and violent engagement at the besieged rebel city of Oviedo, in the northern part of the country. Who actually won was hidden in highly conflicting claims.

There was a similar conflict of claims concerning success or failure of the rebels' southwestern drive on Madrid and on other battle fronts. The rebels at Burgos, seat of the junta, declared a final attack on the northern resort city of San Sebastian is imminent, and said an unofficial truce there involving negotaitions for the city's surrender had been broken because the defenders wanted safe conduct for militiamen whom they de-

Deliberate Fire Found On Crusier

Brooklyn, N. Y., Sept. 11 (AP)—A small fire, "undoubtedly deliberate" was discovered aboard the U. S. S. Indianapolis on August 25 while it was undergoing routine overhauling in the Brooklyn navy yard, Captain C. A. Dunn, manager of the yard, said today.

Captain Dunn said in a statement that the fire was due to a short circuit in some of the auxiliary cables, and that damage was confined to the cables. He said two nails were found in one circuit in the fire room of the 10,000-ton naval cruiser, on which President Roosevelt took a trip in 1933, and another nail was found in another circuit which was dead.

"This action was undoubtedly deliverate," he said. "The navy yard which he was put to death last April has no one under suspicion at the
