A parley of 116 conferees, meeting as the "National Progressive Conference," concluded last night with an agreement to back the chief executive and appealed for all "progressive-minded" to join the move, and expressions of opposition to the Republican presidential candidacy of Governor Alf M. Landon of Kansas.

Landon Is Challenged About Gift

Portland, Maine, Sept. 12.—(AP)—Maine Republicans gathered in Portland today to greet their presidential nominee, Alf M. Landon, at the wind-up tonight of the party's campaign for the "As-goes-Maine" State election Monday.

The Kansas governor, traveling eastward by special train, faced a challenge from Governor Louis J. Brann, Democratic United States Senate nominee, to instruct the Republican national treasurer to return J. Pierpont Morgan's \$4,000 campaign contribution.

"The situation stands at this," Brann told a cheering rally audience here last night. "They are going out with the money of a racketeer, in the definition of Governor Landon, to try to defeat the governor Maine."

Lake Wawasee, Ind., Sept. 12 (AP)—John Hamilton, chairman of the Republican National Committee, charged in an address prepared for delivery here today that the "high officials" of the Democratic administration had "deliberately juggled figures in order to give a false impression of the true state of government finances."

To his criticism of the administration's fiscal policies, Hamilton, speaking at a meeting sponsored by the Indiana Republican Editorial Association, challenged the "non-political" nature of President Roosevelt's recent tours, and said the latter "may decide it is time to go political after

Early Decision On Legality Of TVA Is Seen In Tennessee

Judge Gore Gives Attorneys For TVA and 19 Utilities Two Weeks To File Briefs

COURT'S ACTION IS GENERAL SURPRISE

Government Had Sought Dismissal of Utilities' Contest on Constitutionality and Pleaded Lack of Jurisdiction of Tennessee Federal Court

Cookeville, Tenn., Sept. 12.—(AP)—Attorneys for the Tennessee Valley Authority and 19 private electric utilities set to work at top speed today to prepare arguments on the disputed constitutionality of the vast government enterprise.

A surprise ruling of Judge John J. Gore in United States District Court here yesterday, gave them less than two weeks in which to submit briefs to the court on the question of whether the huge Federal agency is constitutionally sound.

The judge acted at the conclusion of a hearing on a motion of the TVA to dismiss a suit brought by the 19 power companies. The suit attacked the TVA act as unconstitutional.

Counsel for the Authority claimed that under the act any such suit brought against it must be brought

BRIDGE FIGHT MAY REACH LEGISLATURE

If So East May Lose Its Control To Piedmont and West Sections

EAST UNIT HITHERTO

If Piedmont and West Wrest Control from Them It Will Mean Re-Districting and Heavy Loss of Members

Daily Dispatch Bureau, In The Star-Walter Hotel, By J. C. BASKERVILLE, Raleigh, Sept. 12.—The dog fight between the Albemarle counties in the northeastern part of the State over the location of the proposed bridge across Albemarle Sound and the inability of these counties to agree on any one site, may have a great deal more significance here than the people in these counties and over the State generally now realize. For not only may this inter-county squabble result in the loss of any bridge across the Albemarle Sound but also result in the disintegration of the long time cooperation between the representatives of the eastern counties in the General Assembly, and thus make it possible for the Piedmont and western counties to get control of the coming session. If this control should pass from the eastern counties, it would mean a redistricting of the State in which the eastern counties would lose at least three senators and five or six members of the House which in turn would virtually assure the Piedmont and western counties of continuous control in future sessions of the General Assembly, it is pointed out.

If Tyrrell, Hyde and Dare counties continue to hold to their present contention that they do not want any bridge across the Albemarle Sound at all unless it is built from the Tyrrell county location on the south to a point in Perquimans county on the north, and if Bertie county persists

Chaos In San Sebastian As Rebel Siege Tightens

Regulars and Anarchists Clash But Refuse To Surrender City; Bloody Battles Continue in War-Torn Spain; Optimistic Statements from Madrid

(By The Associated Press) Spanish Fascist armies and zealous militiamen of the united left front government inaugurated the ninth week of civil war today with bloody fighting south-west of Madrid and chaos in the streets of besieged San Sebastian. Government forces, struggling to stem the advance on the capital in the Talvera de la Reina sector, declared their positions were "impregnable" following the strategic defeat of a Fascist advance yesterday.

Refugees from the northern resort

of San Sebastian told of street fighting between Basque nationalists and anarchists, the dissenting defenders, while Fascist big guns dropped shells in the city's outskirts.

The defense high command coldly rejected an insurgent threat to "glow San Sebastian to pieces" unless it surrendered quickly, but the trouble within the city grew out of Basque determination to prevent its destruction, no matter what happens. The anarchists want to burn San Sebastian down rather than let it fall into fascist hands.

In spite of the gallows, Hall had not a word to say about the brutal killing March 28, 1934, of four men and two women during a small robbery. Instead, he brought up the case

FUEHRER DECLARES HE CAN WIN OUT IN WAR WITH SOVIETS

Tells Germans In Speech at Nurnberg Acquisition Would Mean Surplus Prosperity

PROBLEM MUST BE SOLVED, HE SHOUTS

Can Be Done and Must Be Done Because Germany Must Live, Hitler Declares as Hundreds of War Planes Roar Overhead; Makes Plea For Patience

Nurnberg, Germany, Sept. 12 (AP)—Adolf Hitler, with hundreds of war planes roaring overhead, declared today Germany would be overwhelmingly prosperous "if we had the rich agricultural lands and the ore-laden mountains of Soviet Russia."

"Speaking before the labor front after he had told thousands of boys and girls that Germany would triumph over Russia "if the hour ever comes and when there is war," Der Fuehrer shouted:

"If I had the Urals, if we possessed Siberia, if we had the Ukraine, National Socialist Germany would be swimming in surplus prosperity."

In a few words, he painted a picture of the plenty which such acquisition would bring, in contrast with Germany's present difficulty struggle against the raw material shortage.

Describing the Soviet surplus of land and materials, he declared:

"I am not in the fortunate position of the Soviet Jews. Nevertheless, Germany's problem must be solved." "There is no such thing as saying it cannot be done. It can be done, because it must be done."

"Germany must live."

The Reichfuhrer's whole speech was a plea for patience, fortitude and determination in the task which he admitted might take a generation to solve.

German Plane Due At N. Y. Late In Day

New York, Sept. 12.—(AP)—When Captain Hans Werner von Engel sets his ten-ton flying boat down on the water at Port Washington, Long Island, today, he will add an outstanding paragraph to the German chapter on aviation.

His seaplane, the Aeolus, will have covered 2,833 miles since 9:17 p. m., eastern standard time, Thursday, when it was catapulted to the air from a base ship off the Azores.

The time is not important to aviation men. The accomplishment is regarded as vital evidence of what transport planes and crews can do in the way of operating on a schedule through all kinds of Atlantic weather.

The Aeolus flew 2,063 miles yesterday to Bermuda. The remaining distance to New York is 770 miles.

Its sister ship, the Zephyr, reached Port Washington Friday after a direct flight from the Azores.

AUGUST WEATHER BIG HELP TO CROPS

State's Tobacco Yield, With Others, Hiked By Good Conditions

Raleigh, Sept. 12.—(AP)—Good weather in August, the crop reporting service said today, reflected itself in such marked improvement in conditions in North Carolina that the outlook for tobacco, corn and other crop yields increased considerably during the month.

The indicated tobacco yield jumped to 463,812,000 pounds from 450,549,000 estimated on August 1 as condition rose six percent to 72 percent of normal. Last year's yield was 571,435,000 pounds, but the 1928-32 average was only 469,000,000 pounds.

Corn, "which looked hopeless two months ago," is now making extra good yields, the service said. The condition was 82 percent of normal September 1, the same as a year ago, but indicated yield of 44,918,000 bushels is only about 95 percent of last year's crop.
