Aurorea, Ill., Sept. 29.—(AP)—Secretary Wallace told a farm belt audience today that "free, competitive enterprise," advocated by Governor Alf M. Landon was "cut-throat competition," and a "system of agricul-ture operating for the most part according to the law of tooth and fang. His address to the Chicago Pure Milk Association, a cooperative dairy producers' group, was the first of five political speeches scheduled for this

week in the corn belt. Wallace said the Republicans had proposed "a combination of the Smoot Hawley tariff act and the Federal Farm Board," as an agricultural program, and that recent speeches by Landon had set forth "the governor's negative philosophy of farm policy.' Expanding his speech to include administration relief measures, Wallace

Secretary Morgenthau told a press conference late yesterday that the monetary understanding by Great Britain, France and the United States included "no definite agreement" on the dollar-pound ratio.

This question had aroused speculation since the accord was anounced last Friday night because the dollar and the pound are important measuring rods for other currencies and the relationship between them thus
