Proceedings In Ipswich Assizes Lasts Only 17 Minutes, including Her Testimony

IMPROPER CONDUCT OF HUSBAND NAMED

Co-Respondent Not Named At Any Time In Proceedings; Costs of Case Assessed Against Defendant Husband; Mrs. Simpson Questioned by Attorney

Ipswich, England, Oct. 27 .- (AP)-Mrs. Walns Simpson, fascinating Baltimore-born friend of King Edward VIII of England, wen a divorce from her husband, Ernest Aldrich Simpson, at historic Ipswich assizes today.

Justice Sir John Anthony Hawke announced a decree nisi after hearing a few minutes of formal testimony. Costs of the case were charged to the defendant Simpson, who did not contest the divorce.

The decree will be made absolute within six months.

The whole hearing lasted just 17 minutes. Mrs. Simpson was on the stand for 14 minutes. She was questioned carefully by her attorney, Norman Birkett, to bring

cut the facts of the most celebrated divorce case in the United Kingdom since the stirring days of Henry VIII.

She produced three letters, which she handed to the judge. Her evidence alleged that her hus-

band, a subject of the king, was guilty of misconduct at the hotel De Paris at Bray, near Maidenhead, Berkshire, at the end of July.

A bellboy, a waiter and a clerk identified the hotel register to show

the alleged misconduct.

Mrs. Simpson was completely at ease on the witness stand. At 2:40 p. m., a little more than an hour after she had reached the assizes, her automobile roared away from the court precincts.

She had left the court room even before Mr. Justice Hawke handed down his decision. The co-respondent was not named

at any time.

Bureau of Air Commerce Reports on Tragedy at Pittsburgh Sept. 5, Killing Ten

Washington, Oct. 27 (AP)-The Bureau of Air Commerce said today the crash of a big sight-seeing plane at Pittsburgh September 5, in which ten persons were killed, probably was due to failure of the ship's fuel sup-

ply.

The flow of gasoline, the bureau said probably was cut off "due to the fuel selector valve being accidentally pushed to the "off" position," There was only one survivor of the accident, Linda McDonald, 17-yearold Miami high school graduate, and the bureau said she "probably owed her life to the fact that her seat belt was fastened securely."

"This suggests a failure of either the fuel supply or ignition."
