SITDOWN STRIKERS REFUSE TO LEAVE

Labor Department Conciliator and Governor Murphy Visit Corporation's Offices; Negotiations Launched in California To End Sea Strike

Strikes and shutdowns in the automobile industry spread in five more plants today shortly after Governor Frank Murphy, of Michigan, in a statement, said prospects looked good for opening direct negotiations for settling the General Motors controversy.

The labor trouble drew nearer the Ford Motor Company, when a "sit-down" strike began in two departments of the Briggs Body plant at Detroit. The plant employs 2,500 and supplies bodies for the Lincoln division of Ford.

A similar strike developed in one department of the local unit of the Murray Body Company at Detroit.

Possibility of the General Motors strike affecting more than 70,000 workers at the end of the week developed with announcement by Chevrolet that operations would be suspended by Friday night at its plants in Saginaw and Bay City, Mich.

Italo-German Reply Advises Britain Of Other Nations' Aid

Answer To Request To Ban Volunteers for Spanish Rebels Reminds That Other Countries Are Sending Aid to Socialist Armies in Civil War

(By The Associated Press.) Germany and Italy, the Fascist powers of Europe, answered French and British pleas that they stop sending volunteers to Spain, in conciliatory, yet reserved, notes tonight. Both replies were said to agree in principle that volunteers should not go from other countries to fight with the Spanish government or the insurgents. Yet these powers, which have helped the insurgents, pointed to what they contend are the unclarified positions of other nations, presumably Russia and France, whose volunteers

Congress Wondering What Path Roosevelt Will Take

Leaves Representatives Guessing as to What Means He Will Employ To Force Liberal Interpretation of Constitution by the U. S. Supreme Court

Washington, Jan. 7.—(AP)—President Roosevelt had Congress guessing today about his outspokenness toward the courts and plans for wage and hour legislation. Awaiting definite indication how far he would go, party ranks threatened to split into factions as the alternatives became plainer. Both houses were in recess, but that meant only the transfer of the arguments to private quarters.

REPUBLICANS TAKE NEUTRALITY SPOTS

Minority Party Senators Championing Cause Dear to Roosevelt

By CHARLES P. STEWART Central Press Columnist Washington, Jan. 7.—It is a corking good joke on the all-powerful Democrats that they permitted three Republican senators to wangle themselves, as the English say, into the principal spokesmanship for neutrality action in Capitol Hill. Senator Gerald P. Nye, North Dakota Republican, started the munitions investigation—introduced the resolution creating a committee to conduct it. Ordinarily the chairmanship of a special congressional committee goes to that particular committee's sponsor, provided he is of the dominant party. Otherwise, while he is named as a member, one of the majority gets

BASKERVILL Raleigh, Jan. 7.—Vigorous personal opposition to any change in the State's prohibition laws over a State or county liquor control system without a Statewide referendum was expressed by Governor Clyde R. Hoey in his inaugural address today delivered before the members of the North Carolina General Assembly and several thousand North Carolina Democrats assembled in the Municipal Auditorium here to witness his inauguration and hear him outline his program.

Governor Hoey also advocated rather drastic reorganization of the State Highway and Public Works Commission by its expansion to ten members, including the chairman, the members to come from nine administrative districts instead of from the eleven congressional districts. He advocated greater improvement of the county or secondary roads, a further reduction in the cost of automobile license tags and expressed determined opposition to any diversion of highway funds for any purpose whatsoever.

AMERICAN WOMAN IS REVOLT LEADER

Directs Drive for Communist Empire in Northeast China Region

Sianfu, China, Jan. 7 (AP)—Agnes Smedley, an American, is credited with playing an important role in a campaign to establish a communist empire in northeast China openly opposed to Chiang Kai-Shek's government at Nanking. The movement, reported to have attracted support from 200,000 members of Marshal Chang Hsueh-Liang's former Manchurian army, together with Chinese communist forces numbering 50,000, has emerged into open with a burst of propaganda led by Miss Smedley. Reliable sources declared communists in two provinces are in open revolt against the central government as a development of Marshal Chang's military rebellion. Miss Smedley's activity has been confined to radio propaganda.

6-DAY LEGISLATIVE WEEK IS UNLIKELY

While Many Members Favor It, Others Point To Disadvantages

Daily Dispatch Bureau, In the Sir Walter Hotel, By J. C. BASKERVILL Raleigh, Jan. 7.—When Lieutenant Governor W. P. Horton and Speaker Gregg Cherry announced a tentative six-day a week program for legislative sessions, first reactions were almost entirely favorable, but after the first enthusiasm for this efficiency measure had faded a number of legislators began to find various and sundry reasons why the plan would fail to produce the expected "dividends." First expressions were based on the very elementary principle that twice as much can be accomplished by

Tobacco Bill Is Ready To Be Presented

Acresage Control Plan To Go Into Hoppers Soon As Session Well Begun

Daily Dispatch Bureau, In the Sir Walter Hotel, By J. C. BASKERVILL Raleigh, Jan. 7.—The tobacco compact measure drafted in Washington and sent here for introduction in the legislature as soon as that body gets down to business provides for assignment of a State marketing quota by joint action of State commissions, control of North Carolina's quota by a State commission chosen by tobacco producers, and payment to growers whose crops are short of their quota by reason of damage from weather, fire or disease. It is provided that the measure shall become effective upon adoption by North Carolina, South Carolina, Virginia and Georgia, in the case of flue-cured tobacco, and by North Carolina, Virginia, Tennessee and Kentucky in the case of burley. The bill covers 18 pages of legal cap paper and goes into great detail in setting out how quotas shall be determined.

Growers To Control. Control of administration of the bill is kept in the hands of tobacco growers through the method of appointing State commissions. The whole process

is set in motion by the director of the State Agricultural Extension Bureau, who is directed to call a meeting of growers in each county at which three county commissioners are to be chosen. The director then divides the State into from three to seven districts and arranges for meetings of the county commissioners in each district. At these sessions three commis-

Newton Man Is Arrested In Extortion

Newton, Jan. 7 (AP)—Joe Robinson, a resident of Newton, was arrested here today in connection with threats received by C. M. Rowe, North Newton merchant, in a \$2,000 extortion attempt.

Police did not reveal the evidence that led to the youth's detention. Young Robinson was merely "doctored" for investigation. Rowe since last Sunday had received four telephone calls, a letter and a postal card, all advising him to bring \$2,000 to the post office here "if you value your life." Chief of Police Parks Robinson said the youth had been tentatively identified as the one who used a drug store telephone here at the time one of the calls was traced to it, but cafe employees said he was not the one who placed another of the calls over their telephone.
