

STRIKERS ARE ORDERED FROM G-M PLANTS

Geysers Open In Cairo As Waters Rise Up In City

"SAND BOILS" ARE OPENED INTO HEART OF BESEIGED CITY

Emergency Squads Rush to Danger Points To Plug Holes Speedily With Sand Bags

DEFENDERS PREPARE TO LEAVE THE CITY

Boats Are Available To Carry Them Away If Mighty Floods Crash Through Levees; All Along Lower Mississippi Waves Stir New Fears

(By The Associated Press)
Dread "sand boils" bursting up in the heart of beleaguered Cairo, Ill., forwarned of deeply undermined barriers guarding the flood-seized city today.

Emergency squads rushed to the danger spots, dumping hundreds of sandbags on the miniature geysers, boiling through the thin strata of protective surface over the city's foundation of sand.

The eruptions, Major R. D. Burdick, U. S. Army Engineers, explained, sprang from the terrific pressure of the Ohio river waters, slowly eating their way beneath the man's guarded levees and seeping under the city to make it in time a virtual "floating island."

In the mounting emergency, 40 extra coast guard boats arrived to evacuate the city's army of 6,000 defenders if the river breaks through. All along the lower Mississippi below Cairo the pounding assault of waves stirred fresh apprehension among army engineers and the 120,000 pick and shovel workers toiling day and night to save the cotton kingdom from the \$500,000,000 scourge that has already blighted the Ohio river valley in the north.

The fight along the Arkansas side of the Mississippi became hourly more desperate today.

Lewis Goes Into Flint Strike Area

Washington, Feb. 2 (AP)—John L. Lewis, whose movement for industrial organization of labor has met a crucial test in the General Motors strike, decided today on a personal trip into the strike zone. His office said he would leave here at 4:40 p. m. for Detroit, having decided to go after studying reports of rioting yesterday in the strike front at Flint, Mich.

Already at Flint was James Dewey.

McKee Child Labor Bill Is Given Chance

Defeat of Federal Amendment Held To Clear Way for State Measure

Daily Dispatch Bureau, in the Sir Walter Hotel, By HENRY AVERILL.
Raleigh, Feb. 2.—The Federal child labor amendment is dead as an issue in this session of the North Carolina legislature. The House disposed of it yesterday, voting 58 to 47 to lay upon the table a resolution ratifying the amendment. It would require a two-thirds majority to take the resolution from the table and no one sees the remotest possibility of such action. Even the clincher of reconsideration and tabling the motion to reconsider was put on with the aid of a very dub-

House's Committee Orders Substitute For Liquor Bills

Sub-Group Told To Bring in Measure Tomorrow To Displace Referendum and Liquor Manufacture Bills; Big New Commission In Raleigh Is Opposed

Raleigh, Feb. 2 (AP)—The House Judiciary Committee No. 1, working on liquor legislation, ordered a subcommittee today to prepare "another bill" and have it ready for study tomorrow.

The sub-group, Representatives Bryant, of Durham; Rouse, of Lenoir; and Gardner, of Cleveland, were told to take the Hutchins measure for a Statewide prohibition referendum and the Hanford bill to provide for State manufacture and sale of liquor to county-election-approved stores, and draft a substitute.

Gardner had proposed favorable re-

port of the Hutchins bill, but Lumpkin of Franklin moved for further study and his motion prevailed.

Representative Sentelle, of Brunswick, said he was opposed to creation of any new big commission in Raleigh to handle liquor matters, saying counties should handle them.

House Judiciary Committee No. 2 favorably reported HB 145 to create a commission to regulate the cleaning, dyeing and pressing business in the State. It also recommended passage of HB 105 by Horton, of Martin, to extend time for tax sales in Martin and others.

Lindberghs Given Welcome By Rome

Rome, Feb. 2.—(AP)—Excited Romans gave the Charles A. Lindberghs a "hide and seek" welcome today at the end of a leisurely flight from Pisa, second stage of the birthday air jaunt that seemingly leads to Egypt.

In high spirits, they pursued the famous couple into a hangar, around the wings and props of planes, and finally into an airport office.

The Lindberghs reached Littorio airport at 4:58 p. m. Colonel and Mrs. Charles A. Lindbergh landed at Littorio airport late today. It was about 10:58 eastern standard time.

PAUSE FOR SIGHT-SEEING A WHILE IN FAMOUS PISA

Pisa, Italy, Feb. 2.—(AP)—The flying Lindberghs paused for sight-seeing in famous Pisa today after a roundabout trip to avoid a "terrific storm" over the Italian Alps.

The manager of the Hotel Vittoria, where Colonel and Mrs. Lindbergh registered under their own names, quoted the American flier as saying they landed at Pisa last night when their gasoline supply ran low during the long detour which they took to avoid the storm in the mountains.

SHERRILL TO GET 'MRS. EVANS' POST

State Unemployment Service Job Is To Go To Concord Editor

Daily Dispatch Bureau, in the Sir Walter Hotel, By J. C. BASKERVILLE.

Raleigh, Feb. 2.—William M. Sherrill of Concord, editor of the Concord Tribune, is expected to accept the appointment which has already been offered to him by Governor Clyde R. Hoey and the Unemployment Compensation Commission as director of the State Unemployment Service, although no official announcement of Sherrill's appointment has been made as yet. But Sherrill is here today conferring with Governor Hoey and Chairman Charles G. Powell of the Unemployment Compensation Commission, and before the day is over Sherrill is expected to have accepted the post. He will succeed Mrs. Mae Thompson Evans who has just resigned to accept a post with the National Democratic Committee as assistant director of the women's division.

Although the appointment of Sherrill as director of the unemployment service is not occasioning much sur-

SEEKING TO HOLD RELIEF BILL DOWN

Administration Leaders In Senate Fighting Off Free Spenders

Washington, Feb. 2.—(AP)—Administration leaders strove in the Senate today to keep the deficiency relief appropriation at \$790,000,000, and get enactment before the flood-pressed WPA spends its last dollar. They were beset from two sides. Advocates of the retrenchment opposed the attempt to restore the \$150,000,000 for resettlement work, which the appropriations committee had clipped off.

While a vote was slated to settle that question, the Democratic command contemplated use of parliament-

New Highway Bill To Oust Present Body

Measure Expected Daily To Mean Their Walking Papers; Waynick Stays

Daily Dispatch Bureau, in the Sir Walter Hotel, By J. C. BASKERVILLE.

Raleigh, Feb. 2.—The bill being drawn by the joint committees on roads as a substitute bill for the one introduced by Senator J. C. Pittman, of Lee county, is rapidly nearing completion and should be introduced almost any day now, according to reports here today. The bill will provide for a sweeping reorganization of the State Highway and Public Works Commission on a district basis and probably call for a commission composed of ten members and a chairman from the State at large. It is generally agreed that this committee substitute will be the "administration bill" and have the full support of Governor Clyde R. Hoey. It is known that the chairman of the roads committees—Representative Con C. Johnston in the House and Senator S. Gilmer Sparger in the Senate—have held several conferences recently with Governor Hoey and that the bill when completed will pretty generally conform with the governor's ideas.

Means "Walking Papers" The opinion in most political circles here is that the bill, if enacted will mean walking papers for most, if not all of the members of the present highway commission, with the exception of Chairman Capus M. Waynick. A

FOR NORTH CAROLINA. Generally fair tonight and Wednesday; slightly colder tonight.

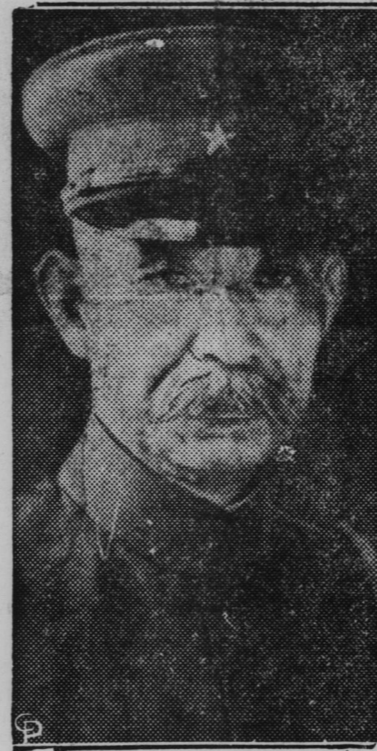

WAITING, HOPEFULLY, FOR SIGHT OF LOST ONES

Friends and relatives held from restricted area

Standing at the edge of the flood line in Louisville, Ky., friends and relatives of lost ones wait anxiously as flood victims are brought from a ravaged district.

"Too Moderate"?

General Hayashi, minister of war in two recent Japanese cabinets, was the second to accept the call of Emperor Hirohito to attempt formation of a new cabinet to replace that of Premier Koki Horata, forced out Jan. 21 by military-Fascist factions. It was believed, however, that General Hayashi would be considered "too moderate" by the military-Fascist group.

River Breaking Through Dykes Near Memphis But Damage Is Not Serious

Levee Workers Confident of Ultimate Victory Along "Main Line" In Flood Area

TIPTONVILLE, TENN., MAY BE ISOLATED

Fire Adds Destruction In Paducah, Ky., and Dyke Workers at Hickman, Ky., Are Encouraged As Winds Die Down and Waters Become Calm Again

Memphis, Tenn., Feb. 2 (AP)—Mississippi flood waters, churned up by a cold wind throughout the night broke through the Bessie Landing Neck dykes for the fourth time today.

Levee workers, confident of ultimate victory along the "main line," yielded additional acres to inundation. A crevasse occurred near two miles above the Gates Landing mud box and threatened much of Lake county. Engineers said Tiptonville, Tenn., might be entirely isolated.

Engineers on the scene said there was still no fear the river would cut a new channel through nearby ree-foot lake, unless there was a break in the levee above the lake.

Fire added its destruction to that of the flood in Paducah, Ky. A grain elevator, hosiery mill and two residences were damaged by flames. Relief workers estimated the damage at \$75,000.

At Hickman, Ky., an army in dungeons, fighting to keep the river's chilly hand from grasping 100 square miles of western Tennessee took on new courage when the winds subsided and the waters calmed.

FLOOD DISTRICTS TO BE REOCCUPIED

City Dwellers Won't Move Permanently from "River-bed" Houses

By CHARLES P. STEWART
Central Press Columnist

Washington, Feb. 2.—Just as fast as the water runs off, flood sufferers alongside the Mississippi and its tributaries will hasten to move back into the erstwhile inundated areas.

Such is the information available at the Washington headquarters of all relief agencies, from their field representatives.

(Continued on Page Three.)

Roosevelt Admits Foods "Duty Free"

Washington, Feb. 2.—(AP)—President Roosevelt proclaimed an "emergency" today to permit the importation, duty free, of foreign donations of food, clothing, medical and other supplies for flood sufferers.

Officials said several foreign countries, particularly Canada, had sent and were sending relief supplies to the flood zones.

The President acted under a provision of the 1930 tariff law.

STATE EXPOSITION BEING CONSIDERED

Conservation Committees Also Hear of State Advertising Proposal

Daily Dispatch Bureau, in the Sir Walter Hotel, By J. C. BASKERVILLE.

Raleigh, Feb. 2.—Two special committees of the State Board of Conservation and Development met here this morning with the Senate and House committees on conservation and development to discuss Governor Hoey's proposal for a nationwide North Carolina exposition, the extensive campaign for advertising North Carolina throughout the country and the proposal that North Carolina participate in the New York World's Fair in New York City in 1939.

The committee from the conservation board which presented the national exposition and State advertising proposals to the legislative committee was composed of J. L. Horne, Jr., Rocky Mount; J. P. Rawley, of High Point; and E. S. Askew of Merry Hill. The committee on the proposal for State participation in the New York World's Fair in 1939 was composed of J. Q. Gilkey of Marion, Sanford Martin, of Winston-Salem, and Mr. Horne.

Senator L. L. Gravelly, of Rocky Mount, is chairman of the Senate Committee on Conservation and Development, and Representative F. Webb Williams, of Elizabeth City, is chairman of the House committee.

Nothing definite was decided as a result of the meeting, but it was evident that the two legislative committees were much interested in the data presented by the committees from the conservation board and especially in the plans for the advertising campaign for the State. The Department of Conservation and Development is expected to ask for an appropriation of between \$200,000 and \$250,000 a year to be used in advertising the State, in seeking new industries to locate here and in a nationwide and even worldwide publicity campaign to

FLINT JUDGE ALSO GIVES INJUNCTION TO STOP PICKETING

Sit-Downers Given 24 Hours in Which To Evacuate Factories at Flint, Michigan

REFUSES MANDATE OF 1936 AS GUIDE

Guardsmen, 1,200 Strong, Patrol Streets of Motors City and Disperse Pickets; Chevrolet Plants Protected by Soldiers' Rings of Steel

Flint, Mich., Feb. 2 (AP)—Circuit Judge Hall V. Gadola granted an injunction this afternoon restraining strikers from occupying two General Motors plants here.

The injunction also restrained the strikers from picketing and ordered the men to evacuate the plants within 24 hours.

After citing numerous Michigan court decisions, mostly regarding the legality of picketing and on property rights, Judge Gadola said:

"This court cannot take the mandate of 1936 as a guide, but must follow the law of the states.

"We, therefore, must grant the relief asked by the plaintiffs."

PICKETS ARE DISPERSED BY NATIONAL GUARDSMEN

Flint, Mich., Feb. 2.—(AP)—National Guardsmen, enforcing order in the strike zone here, seized the United Automobile Workers' sound truck this afternoon, dispersed two score or more pickets, and set up machine guns in the middle of the street in front of Chevrolet plant No. 4.

More than 1,200 National Guardsmen controlled the "trouble spot" of General Motors strikes today with a ring of steel bayonets and guns drawn taut that food-bearers were forbidden to pass the military lines.

Inside the troop patrol, which stretched about an 80-acre area, containing the huge Chevrolet Motor Company plants, were several hundred members of the United Automobile Workers of America, after a series of disorders last night started Flint's third sit-down strike, occupying the "key" motor assembly plant.

"When the men get hungry they can go out and eat," Colonel Joseph Lewis, National Guard commander said. "Nobody is keeping them from going out."

Judge Paul Gadola, who heard four hours of argument yesterday after-

Liberals In House Offer Peace Plan

Restrictions on Americans and Shipments Would Keep U. S. Out of Wars

Washington, Feb. 2.—(AP)—A group of 31 House members proposed today immediate enactment of a cash and carry neutrality plan, with partial nationalization of the munitions industry and legislation to take the profits out of war.

The 31, chiefly liberals of the House liberal bloc, said in a statement that "war or peace at this time is the most important subject before the American people."

Adequate neutrality legislation, they said, should include:

A mandatory embargo on all materials that might be used for war purposes, applicable both to belligerent nations and to factions engaged in civil strife.

A mandatory embargo on loans and credits to all belligerents.

Equal application of embargoes to all parts in conflict.

A cash and carry policy for trading in non-war materials with combatants.

Prohibitions of travel of American citizens in war zones or on vessels of belligerent nations, with American ships forbidden to enter war zones.
