Federal Special Security Board Asked for \$292,950 for Its Share for Next Quarter, States and Counties Pushing Total to \$621,000

Raleigh, June 8 (AP)—Mrs. W. T. Bost, state welfare commissioner, said today she estimated needy aged would receive grants averaging \$12 a month in North Carolina after July 1, with needy children getting an average of \$6 a month under the social security program.

The commissioner said she was asking the Federal Social Security Board to allot \$292,950 as its share of the cost for the two programs during the quarter starting July 1, with State and county funds to push the total grants to \$621,000.

Mrs. Bost said she estimated 9,000 persons over 65 years of age would be eligible for benefits July 1, and another 6,000 during the quarter, with an average load of 12,000. This would mean grants of \$432,000, she said.

She figured an average load of 10,500 needy children, with \$189,000 needed for grants, and a total of 12,500 on the lists by the end of the quarter.

GERMANS LAUNCH CRUISER AT KIEL

Admiral Tells Men "You Be First To Attack if War Does Come"

Kiel, Germany, June 8 (AP)—Germany launched the second of three cruisers on her naval building program today with this admonition from the Baltic naval commander, Vice Admiral Conrad Albrecht: "If war should be forced on us, be you the first in attack!"

The 10,000-ton warship, mounting eight eight-inch guns, was christened Bluecher as she slid down the ways at this naval station. Thus she was named both in honor of the nineteenth century Prussian military hero and General Prince Derhard von Bluecher, and for two warships of the same name. One of these, an armored cruiser, was sunk in wartime.

Both Admiral Erich Raeder, the Reich navy chief and Vice-Admiral Albrecht were present.

Albrecht also told the new men of war: "Fight like your predecessors in the spirit of Bluecher, and may God give you victory."

INSURGENT SHELLS POUR INTO MADRID

Besieging Troops Fight Futilely to Take New Ground; Inhabitants Ousted from Beds To Seek Safety; New Arrests Made on French Border

London, June 8.—(AP)—Great Britain attempted by a three-point proposal today to induce Germany and Italy back into the non-intervention committee and avoid chaos that might result from a new incident in the Spanish civil war. Great Britain proposed:

1. Extension of safety zones for neutral shipping in warships in the neutrality fleet patrolling Spain.
 2. Assurances from both sides of the Spanish conflict to abstain from provocation such as the recent Spanish government aerial bombardment of the German pocket battleship Deutschland.
 3. An arrangement, in the event the first two methods failed to bring Italo-German agreement, to bring the matter up for consultation by all four powers engaged in the patrol, Britain, France, Germany and Italy, to consider necessary action.
- The prospects for an agreement were not viewed optimistically in European chancelleries, but the situation was not regarded as hopeless.

TOUGH ON CHISELERS

Revenue Department Has Money and System To Go To Bottom of Possible Evasions of the Sales Levy

BY J. C. BASKERVILL, Staff Correspondent.

New Bern, June 8.—The sales tax must be paid by the purchaser, as the law requires, and in no case absorbed by the merchants, and the merchants must transmit the tax collected each month amount to three per cent of their gross sales, for it will be just too bad for the merchant who tries to "chisel," Commissioner of Revenue A. J. Maxwell, who is in charge of the enforcement of the sales tax and all other State revenue laws, today told the hundreds of merchants from every section of the State attending the annual convention of the North Carolina Merchants Association.

For while most of the merchants of the State have been and still are cooperating with the Department of Revenue, and are observing both the spirit and letter of the sales tax law, there are some who are still trying to "chisel" and get by without paying the tax to the State or the amount which they should pay, Maxwell said. These are the merchants the department is going after harder than ever—and it is going to be rough going for them, Mr. Maxwell said.

"The merchant who collects his tax when he sells his merchandise, who keeps an accurate record of his sales

Los Angeles, Cal., June 8.—(AP)—The body of Jean Harlow, clad in white, her favorite color, lay in a bronze coffin today as a close associate recalled the blonde film star voiced a premonition of death when she was stricken ill May 29.

The strange fear of the actress, who amassed an estimated \$1,000,000 in seven years of screen success, was described by Violet Denoyer, friend and make-up attendant for Miss Harlow.

"Jean looked at me strangely one morning—the same day she was taken ill," said Miss Denoyer.

"You know, Violet," she told me, "I have a feeling I'm going away from here and never come back."

Ever since Christmas the 26-year-old actress had worn a huge star sapphire ring on the third finger of her right hand. It was a gift from William Powell.

The body of the star was held at a mortuary for her mother and immediate relatives to look upon her a last time before a funeral service tomorrow.

Farm Chief Would Base Proposal on Index of Basic Commodity Prices; Two Extra Court Judges Idea is Being Given Consideration Now

Washington, June 8.—(AP)—A group of five senators proposed today "to help take the private profit out of war" by giving the government a practical monopoly in the manufacture of war weapons and munitions.

Senator Bone, Democrat, Washington, headed the group, which included also Clark, of Missouri, and Pope, of Idaho, Democrats, and Nye and Frazier, of North Dakota, Republicans.

They said their proposed legislation would be supplementary to other methods, such as high profits taxes designed to make war a profitless enterprise in this country.

While Bone disclosed the quintette's munitions nationalization plan, a variety of committee hearings went forward on Capitol Hill.

The House Interstate Commerce Committee undertook a study of an administration-approved bill to extend Securities Commission regulation over bond and stockholders protective committees involved in corporate reorganizations.

Katherine Lenroot, children's bureau director, said she would introduce legislation to require child labor law enforcement in interstate commerce.

Earhart Is Pressing On Over Africa

Dakar, British Senegal, June 8 (AP)—Amelia Earhart flew here today from St. Louis, capital of Senegal, for an easier take-off on the next leg of her flight around the world.

Aviators here said Miss Earhart's time of 13 hours, 22 minutes for the 1,900 miles from Natal, Brazil, to St. Louis, Senegal, where she landed yesterday, was apparently a record for the eastward flight.

Miss Earhart flew through rain most of the way across the ocean. Visibility was bad and her wireless worked poorly.

The slim American flier, after her arrival here from the Senegalese capital, laid up her plane for repairs. She said it would be tomorrow or Thursday before she could hop off across Africa.

She planned to follow the British Route to Khartoum in the Anglo-Egyptian Sudan to avoid flying across the Sahara.

WORK RESUMES IN LUMBERTON PLANT

Deputy Sheriffs on Guard as Employees Return; Statements Vary

Lumberton, June 8.—(AP)—The Mansfield cotton mills, in East Lumberton, where a strike of weave room operatives was called yesterday, resumed operation this morning under the protection of deputy sheriffs and amid conflicting statements from the management and labor leaders.

Mill officials said loyal employees of the weave room returned to work under the protection of ten deputies and started the plant's machinery running at full blast. Chester Manning, chairman of the Lumberton unit of the textile workers organization committee, C. I. O. affiliate, asserted the management had brought in outside workers to replace regular employees and a force of 36 armed guards was protecting the plant.

Manning said only seven of the mill's 100 employees remained at work when the walk-out took place yesterday. The official announcement from the mill was only 23 employees, all in the weave room, had gone on strike
