\$2,000,000 MORE FOR STATE ROADS

Governor Allots Funds From Huge Surplus to Aid County Routes

Raleigh, Aug. 2-Governor Hoey, in the most important financial move since he took office, allotted an additional \$2,000,000 today for the maintenance of the state's secondary road

Announcement of the appropriation came simultaneously with a report of the budget bureau that North Carolina ended the 1935-37 biennium with a general fund surplus of \$5,231,300, the largest in its history.

To Use Road Fund

The \$2,000,000, however, will be paid from the highway fund surplus, which on June 30 totaled \$9,213,382 including federal aid money.

The allotment, together with the \$5,-800,000 made available by the general assembly for secondary road work during the current fiscal year, will result in more money being spent on county or farm roads during 1937-38 than in any previous 12-month period.

The entire \$2,000,000 the governor said, will be spent "to aid in placing county roads in condition in advance of the winter season." Keeps Promise

"I promised when I took office I was going to do my utmost to bring the farmers out of the mud and to improve rural school bus routes," he

The general fund surplus at the close of the biennium was \$2,000,000 more than that estimated by the general assembly in drawing up a bal-anced budget, and \$4,519,256 more than the surplus at the close of the 1933-35 biennium.

The highway surplus, including federal aid, was \$2,914,773 less than the 1933-35 surplus of \$12,128,155, also insurplus of state funds was \$6,218,490. The overflowing general fund coffers, the governor said, assured no diversion of highway money during the current fiscal year. He added, however, that highway money might have to be diverted for other uses in 1938-

In the past, diversion of \$1,000,000 a year has been mandatory. The general assembly, however, passed a law that no highway money should be put to other uses unless the general fund was exhausted.
