Murder Convictions of Two Beaufort Negroes Among First Arguments; Attorney General Seawell Opposes Appeals; Stacy Leads Judges to Seats

Raleigh, Aug. 31.—(AP)— North Carolina's seven-meimber Supreme Court sat for its first hearing today. A moment later W. B. Rodman, of Washington, made the first appearof Selby's counsel to file briefs as required by the court rules.

Sam Blount, of Washington, then argued the case of William (Pete) Bell and Sam Rodman, Jr., Beaufort county Negroes, convicted of the murder of Heber Roberson. Blount and his associate in the case, LeRoy Scott, contended their clients were at most guilty only of a killing during a gambling argument.

Attorney General A. A. F. Seawell appeared for the State, contending there was ample evidence Roberson was murdered after an argument with Bell and Rodman over some furniture The court, as is customary, took the case under advisement, with an opinion to be rendered later. It then proceeded to hear arguments in other cases from the first judicial district,

Promptly at 10 o'clock, with only the usual opening ceremonies, Chief Justice W. P. Stacy walked to his seat. Behind him came Associate Justices Clarkson, Connor, Schenck Devin, Barnhill and Winborne.

Justices Barnhill and Winborne are new members of the court appointed by Governor Hoey under a 1936 constitutional amendment and a 1937

Raleigh, Aug. 31.—(AP)— North Carolina's revenue receipts during August dropped \$995,096.22 under the same month last year, but sales tax income went up and the decrease was due to a change in the law, said Revenue Commissioner A. J. Maxwell

General James A. Farley undoubtedly really means what he says when he pooh-poohs Republican National Chairman John D. M. And I think a majority of the Democratic leaders honestly agree with

I suspect that many a Republican strategist also inclines to agree with Farley more than with Hamilton. In fact, I asked one of them, with an important job in the G. O. P. organization, and he answered, "Off the record, I believe that Roosevelt has

Government reports said Franco's men had been driven from their moun tain position, about 20 miles south of Zaragoza. The fall of Belchite, these advices said, was imminent.

While the insurgent communique gave no details of the fracture of the government line, it was believed to have referred to the front north of Zaragoza and not the Belchite sector. Government sources themselves admitted the counter-thrust had forced "our troops to return to their bases after the arrival of reinforcements."

Returning from a visit to the Federal penitentiary at Atlanta, the Tennessee State Prison at Nashville and the Virginia Penitentiary at Richmond Robert Grady Johnson, who tomorrow will officially begin his duties as director of the penal division, said that it costs approximately \$1,000 per proposed worker to set up any industry; a fact which he said makes him very dubious of the prospects of estab-lishing anything new at State's Pri-
