Rt. Rev. George C. Stewart of Chicago, Protestant Episcopal bishop, born at Saginaw, Mich., 59 years ago.

Dr. Henry Pratt Fairchild of New York University, noted social scientist, born at Dundee, Ill., 58 years ago.

James P. Warburg of New York, banker and author, born in Germany, 42 years ago.

TODAY'S HOROSCOPE
Today's degree indicates a schemer, one full of initiative in business affairs. Should the character be developed on its better side, a strong business man and a good citizen results; but if there be bad aspects to fortune or liberty, and laxity in early training, prison may prove the end. Great caution is needed in the daily conduct of business.

What Do You Know About North Carolina?

By FRED H. MAY

- When were Superior Courts provided for each county?
- What meeting held in Chatham county in 1828 was the beginning of North Carolina's greatest industrial development?
- How many Federal soldiers died at the Salisbury Military prison?
- What was Governor Johnston's comment on the legislature of 1744?
- When was North Carolina land offered at a rate of 500 acres for 1000 pounds of sugar?
- How long was William Hill Secretary of State of North Carolina?

ANSWERS.

- In 1806 a system of courts was established that provided for dividing the State into districts, and for holding Superior Courts twice each year in each county.
- The first meeting in the State to consider building a railroad. This meeting was held at the home of William Albright on August 1, that year.
- The official list gives the names of 2,504 Federal soldiers who died in the prison during the war. Most of these deaths occurred during the fall of 1864 and spring of 1865.
- Governor Johnston was trying to force the passage of certain rent laws. Upon the refusal of the assembly to carry out his wishes he addressed to it a message which included this sentence: "I say Gentlemen this is such a conduct such an attempt as I am not sufficient master of words to bestow the proper Epithets upon it."
- In 1864 in an effort to secure finances for an expedition to bring settlers to the Cape Fear section an offer of 500 acres of land was made to all persons who would contribute 1000 pounds of sugar.
- Hill, who moved to Raleigh from Caswell county in 1806 was elected Secretary of State by the legislature in 1811. Each legislature thereafter, regardless of politics, reelected him until his death in 1837. He served the State in that office 46 years and was affectionately known as, "Old Sec."

You're Telling Me...

Senator Minton of Indiana wants newspapers to print only the truth. Sounds like a direct attack on the fishing editor.

A Northwestern university professor says people think with the muscles as well as the brain. The editor is going out to buy a set of dumb-bells.

A dispatch from Jugoslavia says that brides sold as low as \$3.60 at a recent Gypsy festival. The man at the desk wants to know how much a radio costs over there.

An Eskimo dog drifted 500 miles on an ice floe. Is it hot enough for you? New taxes are levied on bachelors in Italy. That's one place where two can live cheaper than one.

Warm weather recommendation:

Read political speeches. Most of them leave us cold.

The most positive evidence of a good and successful marriage, says a Philadelphia rector, is considerable disagreement. We wish to add, if the eardrums can stand it.

Stocks Sleep All Day Long

New York, Aug. 18.—(AP) Stocks went to sleep in today's market, after the motors had led an early rallying attempt, and many leavers slumbered in moderately lower territory at the close. It was the most somnolent session in more than two months, with transfers for the day only around 450,000 shares. The ticker tape frequently was motionless as the majority of traders dozed in the board rooms.

Three Negro Convicts Flee Prison Camp

ber, 1937. The convicts escaped from a road gang that was working in a sandpit about half mile from New Hope. They were sheltered under a canvas because of a driving rain, an arrangement that artly hid them from the guards, who fired fruitlessly upon them as they fled. Sheriff E. Winslow, said today he was confident his armed posse had the convicts bottled up in a dense wood.

sources, and the proper handling of their fruits, is a major problem of government. Naturally, no solution would be acceptable to either country which did not leave its government entirely master of its own house.

"To put it bluntly, a group of American interests is here gradually putting itself into a position where unless caution is exercised, they may in time be able to determine the economic fate of a large area, both in Canada and the United States." Mackenzie King, prime minister of Canada, suggested that the rest of the world observe the friendship be-

tween Canada and the United States as he met with President Roosevelt at the dedication of the new bridge. "The peoples of this continent, whether concerned with steel and stone or with invisible realities of the mind and spirit," said the prime minister, "have, for the most part, been bridge builders worthy of the name. In politics as in road building, it is a great thing, Mr. President, to know how to build bridges."

quite practical, too. Adopted, they work satisfactorily. They have thus far on a state-wide scale in Wisconsin, anyway.

The complaint of Rooseveltian progressive measures is that they are all right as to their objectives, but that they fizzle in application. LaFollette-ism seems to be applicable as well as theoretical.

In short, the LaFollette, while Republicans or Progressives, are Democrats. They fit the political philosophy of

Senator Joseph C. O'Mahoney's so-called anti-monopoly investigations appears to be starting off on similar lines.

Senator O'Mahoney's committee is after facts—not trying to convict anybody of anything.

It recognizes that there is a disease, which it is endeavoring to diagnose and then prescribe for.

But This—?

I am not so enthusiastic for Martin Dies' investigation of anti-American tendencies.

Dies is anti-Nazi, anti-Fascist and anti-Communist.

So are a plenty of folk. But that does not imply they are much afraid of Nazis, Fascists or Communists—at least not locally.

German-Americans in this country date back largely to the Germans who swarmed in here because, in the 1840's, they hated the native German intolerance. Italians came long before fascism was invented. Russians? They were chased out of the Muscovite empire because they loathed it.

These immigrants (generally of second generation) are the loyalest kind of Americans, because of their original backgrounds.
