

School Opens Thursday September 8th

*Drive Carefully
and Save a Life!*

Mr. Motorist:---

Hundreds of children in Henderson and Vance County will begin school Thursday, and for the next eight months the streets and highways will be full of these sturdy little youngsters trudging their way to places of learning, seeking knowledge that will fit them to be better citizens.

Won't you exercise greater care in driving during that period? Those children are not as intelligent as you. They often disregard traffic rights of automobiles. They are irresponsible and carefree.

In this great throng of youngsters, there may not be a future president or governor, but each is a future "good citizen", so give him a chance to prove his worth.
