Babson Notes Another New High For 1938 In Trade Activities

BY DAVID L. BABSON.

Babson Park, Mass., Sept. 9.-Business activity again surged forward this week to another new high for 1938. The gain of 0.6 of a point was the seventh consecutive weekly increase and the eleventh advance in the past twelve weeks. As a result the Composite Index has now worked back to 24.2 per cent below Normalover 10 full points above the "recession" low of 34.8 per cent registered in mid-June. Hence, almost one-third of the huge losses inflicted in the September - June downward plunge have been written off.

In the last week or so, retail sales have not been as brisk as in earlier weeks. However, goods are attractively priced and purchasing power is growing weekly.
