Hits Gas Fear

Pictured holding a poison gas bomb of the type used in warfare, Col. Gibson, of the United States Chemical Warfare Service, declared that poison gas is not the fearsome weapon the general public believes it to be. He pointed out that only 2 per cent. of those who were gassed with mustard gas in the World War died. He doesn't believe aerial gassing of cities would be effective. (Central Press)

Mrs. Hood Stints On \$1,000 Month

New York, Oct. 6.—(AP)—Mrs. Dorothy Browning Hood, of Dunn, N. C., adopted daughter of the late Edward W. (Daddy) Browning, asked surrogate's court today for a maintenance allowance of \$1,000 a month for the next year from her share of the estate.

The matter is to be heard before Surrogate James DeLachan'y on October 14. Mrs. Hood, who has received a total of \$55,000 by court order from the estate in the past four years, explained she was in "actual need" of the award, pending a court of appeals determination of lower court rulings on general settlement of the Browning estate.

Spain Fears Czech Fate; To Fight On

Munich Parley Talked Dismemberment of War-Ridden Nation, Official Asserts

Barcelona, Spain, Oct. 6.—(AP)—Julio Alvarez del Vayo, Spanish government foreign minister, declared today that government Spain was determined to avoid the fate of Czechoslovakia and to fight until the country is "free from foreign invasion."

In an address prepared for international broadcast, the foreign minister asserted:

"The terrible and monstrous experience of what has taken place in Europe within the last few days has increased the Spanish people's resolution not to permit Spain to be sacrificed to the policy of capitulation."

"This policy of capitulation," he said, "menaces the existence of small nations and places European democracies in ever-increasing danger of disappearing."

(Spanish government spokesmen in Paris said a plan to divide Spain into two nations, one a democracy and the other a dictatorship, had been broached to the government and rejected.)

(The plan, which they indicated was brought up by "certain powers at the four-power Munich accord, which decided on partition of Czechoslovakia, was said to have been a part of international discussions aimed at ending the Spanish civil war as part of a general European settlement. Italy and Great Britain are negotiating in an effort to put into effect the Anglo-Italian friendship pact of April 16, which hinges on settlement of the Spanish question, presumably involving withdrawal of Italians fighting with Spanish insurgents. Government Spain is evacuating foreign fighters in its armies.)

Democrats To Battle For Farm Region

Washington, Oct. 6.—(AP)—Informal persons forecast today that the Democrats would make an extraordinarily intensive fight this fall to retain their political strength in the Midwest farm belt.

This was the significance read into James A. Farley's cautious press conference statement yesterday that the Democrats traditionally have been stronger in industrial states because of their labor policies.

Thus, the Democratic national chair man replied to a question as to whether the Democrats were losing ground in the farm states. It was believed that as a result of the conditions his statement implied, there would be a determined Democratic effort to hold all congressional and gubernatorial offices which the party now controls in the section.

Other developments:

Foreign Agents Register.
A flood of last-minute registrations of agents of foreign governments poured into the State Department as the deadline—midnight tonight—approached for complying with the law passed at the last congressional session. Under the law, foreign agents must register with the State Department.

The penalty for non-compliance is a fine of \$1,000 or imprisonment for

Jailer Jails Daughter For Freeing Prisoners

Jailer T. C. Kimel, custodian of the Davidson county jail at Lexington, N. C., locked his 22-year-old daughter, Lulu Belle, in a cell after she confessed she released two prisoners, James Godwin (left) and Bill Wilson, because she did not want to see Godwin "go to the gas chamber" for first degree burglary. Lulu Belle is shown behind the jail bars.

Chamberlain Given Big Vote Of Confidence Over Policy

Davidson Jail Breakers Both Taken At Hickory

Hickory, Oct. 6.—(AP)—James Godwin and Bill Wilkinson, who escaped from the Davidson county jail at Lexington last Monday, with the aid of the jailer's daughter, were re-arrested here today. Godwin, 19-year-old youth facing capital charges of murder and first degree burglary, was slightly wounded by a load of bird shot fired at him as he came running out of a barn with a pistol in his hand, of officers said.

Wilson gave himself up voluntarily a few minutes before a large posse of officers converged upon the barn where Godwin was trapped.

Wilson, 21, and Godwin were charged with murder in a warrant issued by High Point police after the fatal shooting of Donald Moss in that city by occupants of a taxicab shortly after the men had escaped.

After receiving treatment for a dozen No. 8 shotgun wounds at a hospital here, Godwin was transferred to the Hickory jail. Desk Sergeant R. W. Gettner, of the Hickory police said arrangements were being made to move him to High Point and to send Wilson back to Lexington.

Wilson approached Earl Yoder, by whom he was once employed, early today and arranged to surrender, the desk sergeant said. They walked into the police station about 8:50 a. m. and Wilson was immediately locked up.

The name of the officer who opened fire when Godwin ran from the barn was not revealed immediately. Godwin did no shooting, it was said.

69 Prct. Gain In Jobs Over No. Carolina

Raleigh, Oct. 6.—(AP)—The State Employment Service reported today that placements during the last two weeks of September aggregated 5,451, with 69 percent being in private employment, for a gain over the preceding two weeks of upwards of 300 persons.

Kinston led in placements, with 623, Charlotte had 474 and Raleigh had 408. At Charlotte the placements exceeded the registrants seeking jobs.

There were 10,311 registrations during the period, and 150,835 persons wanting jobs or changes in occupations were listed by the service September 30.

The service said 945,000 unemployment compensation checks for more than 200,000 persons have been paid in the State in nine months, but payments now average from \$15,000 to \$30,000 a day, as compared with a peak some months ago of \$60,000 to \$90,000 daily.

Highway and other construction under way at Greenville, Goldsboro, Dunn, Williamston, Washington and in Hyde county has helped relieve unemployment, the service said.

Approves "Peace of Munich" by 313 to 150 Vote; Also Wins on Adjournment

London, Oct. 6.—(AP)—The House of Commons today voted confidence in Prime Minister Chamberlain and approved his bargain at Munich to keep Europe out of war. The final vote was 366 to 144.

London, Oct. 6.—(AP)—Prime Minister Chamberlain's followers today defeated a Labor motion expressing disapproval of his foreign policy as expressed in the "peace of Munich." The vote was 369 to 150.

Earlier, Chamberlain won, by 313 votes to 150, the first House of Commons vote in the closing hours of debate on the four-power "peace of Munich." The House approved his motion for adjournment (this afternoon until November 1).

Harold Macmillan, a Conservative, joined the opposition, declaring he was afraid Commons was being treated "more and more as a kind of Reichstag (German diet), just meeting to hear orations and register decrees."

The vote on the question of confidence revolved about Chamberlain's part in the decision to cede parts of Czechoslovakia to Germany.

Winston Churchill, Conservative opponent of Chamberlain's foreign policy, also opposed adjournment. He compared the move for adjournment with the "situation in other countries where impatience with the parliamentary machine has swept it away, and led to one-man rule."

Wildwood, N. J., Oct. 6.—(AP)—A board walk sideshow operator whose circus lion escaped, killed a man and terrorized this city for nearly three hours before a policeman's bullet killed it, was released under \$5,000 bail today on a charge of manslaughter.

Joseph Dobish, 51, the lion's owner, was arraigned before Recorder L. Byrne in connection with the death last night of Thomas Salto, 37, of Philadelphia, a Japanese auction room employee, whose mangled body was found under the ocean front board walk.

Police said they had not yet learned how the beast, one of two owned by Dobish, had escaped from its cage. The 300-pound killer, known as "Tuffy," was one of two lions strapped to a motorcycle side car while the driver roared around a steep wall ed bawled the "wall of death."

Since then Tuffy had been inactive. Sometime last night in a manner as yet undetermined, the animal escaped.

Area Purely Czech Asked From Board

Immediate Occupation or Pledge of Plebiscite Demanded of International Commission Serving Under Munich Accord; Old Statistics Used

Geneva, Oct. 6.—(AP)—The Czech delegation to the League of Nations announced today that the German member of the International Settlement Commission at Berlin had drawn up new demands for the cession of territory beyond that contemplated by the second accord of Munich.

A communique issued by the delegation said that the Germans were demanding that industrial and communications centers with a total Czech population of 815,000 either be occupied immediately by German troops or made subject to plebiscite. (In Berlin yesterday the International Commission, bowing to German demands, decided to hand over to Germany a fifth ceded zone, to be occupied by October 10, which took in half as much territory as all the first four zones of occupation.)

(The Munich accord left delimitation of this fifth zone to the international commission, leaving to it to decide what were areas of "predominantly German population.")

The Czech communique said that included in the territory which Germany demands for immediate occupation are cities and towns in which

Daladier To Build France In Sixty Days

Paris, Oct. 6.—(AP)—Premier Daladier sought a program today in which he could rebuild France completely in the six weeks of dictatorial power Parliament granted him.

His task was to put the nation's economic and financial life on a sound basis for the struggle to regain France's lost position as a leading European power. No one in France is minding words about the seriousness of the situation caused by basic economic defects, internal political dissension and diplomatic mistakes.

Only two questions were being asked: What is to be done? Is Daladier the man to do it?

The time limit imposed by Parliament yesterday, when it empowered the premier to rule by decree until November 15, is recognized as a serious handicap in itself. It is a handicap, however, which Daladier allowed to be forced on him by Socialists rather than take the chance of shifting his majority from left to right.

Crop Control Condemned By U. S. Jurist

Greenville, S. C., Oct. 6.—(AP)—Judge H. H. Watkins, of Anderson, presiding at the current term of Federal court here, today again inferentially condemned the government's crop reduction program as he passed sentence on a defendant who admitted operating an illicit distillery, but asked for mercy because "I couldn't make a living after the government cut my cotton crop down."

The defendant, T. R. Garland, a share cropper on a farm near Newberry, told the court that in the current crop control program he had been forbidden to raise any cotton. His story was corroborated by the Newberry officer who arrested him.

"It's unbelievable," Judge Watkins said, "but there are many unbelievable things happening in this country today."

He turned to the open court: "Gentlemen," he said, "I ask you to consider this case. The government has forbidden this man to raise a crop to feed his family. I cannot find it in my heart to send this man to the penitentiary. I sentence you to one year's probation," the judge concluded.

Terminal At Wilmington Is Being Pushed

Daily Dispatch Bureau, In The Sir Walter Hotel.
Raleigh, Oct. 6.—Wilmington's bid for PWA funds for construction of port terminals is not a local but a statewide project, State Senator Emmett H. Bellamy said today after calling at the office of Governor Clyde R. Hoey to express appreciation of the Council of State's recent endorsement of the plan.

"North Carolina will never be a great State until its three principal industrial products—textiles, furniture and tobacco—are exported through its own port," he said. "We feel that in seeking adequate facilities for handling these products through Wilmington we are working not solely for the benefit of our city, but for the State as a whole."

"It is something of a fulfillment of

Row In 8th Is Growing More Bitter

No Signs of Compromise as Court Battle Is Renewed by Burgin's Counsel

Daily Dispatch Bureau, In The Sir Walter Hotel.
Raleigh, Oct. 6.—Peace in Europe hasn't meant peace in the eighth congressional district, where the embittered forces of C. B. Deane, and W. O. Burgin become daily more and more embittered and uncompromising.

The campaign has developed, however, to the point where it seems more a bitter tussle between Burgin and the State Board of Elections than one in which the Richmond Deane has any part. In all the mud that's

Wholesale Frauds Laid Upon Workers Seeking Benefits

Raleigh, Oct. 6.—(AP)—The Wilmington jail was filled yesterday and today by fertilizer plant workers and dock hands who had violated the unemployment compensation law, the Unemployment Compensation Commission here announced.

Forty-eight warrants were drawn and mostly served on claimants for unemployment benefits who allegedly made false statements as to their earnings in order to draw benefits, it said. The cases were continued until October 12, but defendants were brought into court and fingerprinted.

A court order released them pending trial.
