### FARM HORSES.

Mrs. Charles A. Baker.  
Farm horses! Farm horses!  
Black and brown and white;  
Sorrel and bay and dappled—  
They're a handsome sight!  
In the sprinting going  
Up and down the field,  
Making smooth and nervous  
Soil for harvest yield.

Farm horses! Farm horses!  
In the summer heat  
Flowing corn and mowing  
Down the hay and wheat,  
Straining nerve and sinew  
At some stubborn hill—  
Patient and submissive  
To their owner's will.

Farm horses! Farm horses!  
On a frosty morn  
In the autumn, drawing  
Wagon loads of corn—  
Hauling logs in winter—  
Doing all they can.  
Farm horses, farm horses,  
Faithful friends of man!

### Forum Invitations Sent To N. C. Women

Invitations are being received by 177 executives of the North Carolina Federation of Women's Clubs and other North Carolina women's organizations to attend the 1938 Forum on Current Problems, to be held under auspices of the New York Herald Tribune at Waldorf-Astoria in New York City and on October 27 at the New York World's Fair.

Among other state associations expected to be represented are the North Carolina Daughters of the American Revolution; the North Carolina Children of the American Revolution; the North Carolina Junior Federation of Women's Clubs; the North Carolina Council of Jewish Juniors; and the North Carolina Congress of Parents and Teachers. This state's delegates, along with other leaders of women's clubs throughout the country and representatives of universities, schools and colleges, will comprise the principal part of the forum audience. This year's meeting, eighth in an annual series, will be divided into five sessions, all

under the general theme, "America Facing Tomorrow's World," but each dealing with a special phase of modern life. Among the women who will take part in the program are Mrs. Franklin D. Roosevelt; Mrs. Helen Willis Moody; Miss Josephine Roche, former Assistant Secretary of State; Miss Esther Everett Lape, member-in-charge of the American Foundation; Mrs. Sidney Borg, chairman of the World's Fair advisory committee on Welfare and Housing; Dorothy Thompson, leading woman journalist, and national executives of the principal women's organization.

Election of officers will take place at the November meeting.

After disposing of business of a routine nature, the class arranged for fall clothes for its orphan. It was voted to give a love offering to Miss Josephine Dameron for the furtherance of her work in Korea, and a donation was given to the church at Kitty Hawk.

For the devotional exercises, Mrs. Ellis read the Scripture lesson, using the thirteenth chapter of First Corinthians, after which the Lord's prayer was repeated in concert.

### Trucks Show Increase Here

Daily Dispatch Bureau, In the Sir Walter Hotel, Raleigh, Oct. 6.—Registration of trucks in North Carolina increased 52 per cent between 1933 and 1937, according to complete figures on truck registration recently released in Motor Facts and Figures, a publication of the National Highway Users Conference.

In 1933 there were registered in the state 49,660 trucks. Thereafter each successive year through 1937 showed a progressive increase, the figures for the years being 61,374, 64,657, 69,738 and 575,453 respectively for 1934, 1935, 1936 and 1937.

Figures for 1938 are, of course, not yet complete though nearly so, but indications at the Motor Vehicle division are that truck registration will again increase—though perhaps not in the same ratio as from 1936 to 1937.

In the five states of the South-

eastern group—Virginia, North Carolina, South Carolina, Georgia and Florida—this state ranks second, below Georgia's 78,206 registrations, but ahead of Florida's 70,308, Virginia's 69,005 and South Carolina's 69,738.

Facts and Figures also point out that of North Carolina's total population (which it gives as 3,244,000) all but 189,038 are reached and served directly or indirectly by truck transportation.

On the other hand, there are 1,329 communities of North Carolina's 3,285—or 40.4 per cent of the total—which are entirely dependent on truck transportation and which are not reached by any other kind.

Some idea of the tremendous development of motor truck industry can be gained from Facts and Figures statistics showing that the 1904, the first year for which there are any figures, only 410 trucks were licensed and registered in the entire United States.
