

F. D. R.'s "Dream House" Nears Completion

Here is a front view of the "dream cottage" designed by President Roosevelt, and nearing completion on his Hyde Park estate. Workmen are busy putting finishing touches to the building, which will be furnished without radio or telephone. The President and Mrs. Roosevelt will use the secluded cottage to relax from the exacting duties of the White House. (Central Press)

3 Attorneys Will Decide 8th Nominee

Deane and Burgin Agree on Referee Method of Which Shall Run for Congress; Attorneys Refuse To Enlarge on Formal Announcement Made

Raleigh, Oct. 22.—(AP)—A committee of three men, Charles Rose, of Fayetteville; James Merriman, of Asheville, and Gardner Hudson, of Winston-Salem, will meet here Monday to make a final decision as to whether C. B. Deane, of Rockingham, or W. O. Burgin, of Lexington, will be the eighth district Democratic candidate.

The three agreed to serve as "referees and arbitrators" on invitation of the candidates, said a formal joint statement issued by counsel for Deane, Burgin and the State Board of Elections. The referees are lawyers.

Some settlement of the four-month-old dispute must be reached at once of a Democrat is to be on the congressional ballot in the eighth district November 8.

The announcement was made in a brief statement and the attorneys decline to enlarge on it. Ask whether the determination by the referees, which it was set forth would be "accepted as a final decision by the candidates" would have to go to Judge W. C. Harris, in Wake Superior Court, for the final adjudication.

Brought forth replies that nothing would be given except the statement. The matter is in the hands of Judge Harris under an opinion of the Supreme Court, which first carried the case into court when a State Board of Elections inquiry resulted in elimination of the lead he first received credit for in the July 2 run-off primary. Various legal steps followed, the Supreme Court this week for a second time remanding the case to Judge Harris.

Ex-Red on Stand

Clyde Morrow, of Detroit, Mich., Ford plant worker who says he's a former Communist, is shown before the Dies Committee in Washington. He said the sit-down strikes of 1937 were inspired by Communist leaders, and showed pictures to the Congressional group, investigating Un-American activities in this country, in support of his charges. (Central Press)

Roosevelt To Spend Huge Sum To Train Industries For War

New Elaboration on Wage-Hour Provisions About Ready; Law Effective Next Monday; Veterans Hospital To Remain at Fayetteville

Washington, Oct. 22.—(AP)—Military men predicted today President Roosevelt's projected new defense measures would include an increase in expenditures to educate industry in the manufacture of munitions.

The first \$2,000,000 provided by Congress for that purpose has not been expended, but some officials favor speeding up the program, which is designed to gear industry more closely into the preparedness machine.

A recommendation that the present \$10,000,000 five-year program be doubled or tripled has been considered in the re-study of national defense needs undertaken at Mr. Roosevelt's behest. Other developments:

Wage-Hour Explanations The wage-hour administration rushed work on last-minute explanations for how industry should comply with the most far-reaching attempts to put a floor under wages and a ceiling over hours since the days of the NRA. Administrator Elmer Andrews said he hoped to announce by night fall the kind of records employers should keep to show conformity with the new law, which becomes effective at 12:01 a. m. Monday.

His aides, meanwhile, were preparing a general interpretation of the act. This will be released for publication tomorrow morning. Boys between the ages of 14 and 16 years apparently may be employed as newspaper boys within the provision of the wage-hour act.

Regulations issued by Miss Katherine Lenroot, chief of the children's bureau, specified that children of those years were barred from employment in mining, manufacturing, the operation of motor vehicles and messenger service. Children younger than 14 may not legally be given work in any industry covered by the act.

Vets' Hospital Remains A spokesman for Brigadier General Frank Hines, Veterans Administration head, said the administration's decision to locate the North Carolina veterans hospital at Fayetteville is final and it stands.

The President approved the order months ago—July 7—and that's all there is to it," the spokesman said. He said that Hines had received "several wires" concerning a reported effort by a Raleigh, N. C., American Legion post to have the 300-bed hospital built somewhere other than at Fayetteville.

Elmira, N. Y., Oct. 22.—(AP)—Governor Herbert Lehman, a source close to the executive said today, "will endorse the principal aims of the New Deal" in an early re-election campaign speech. The address, expected to express "broad sympathy" for the objectives of the national administration, the source said, "already was being drafted as the governor headed toward Albany on the final lap of his first up-state tour."

Leaving Elmira with an appeal for a fourth term in the capital on a record of "ability and experience," the governor smiled and repeated his familiar "no comment" on a statement by New York City Mayor LaGuardia, in which the mayor made it clear that he would not support Lehman unless he was firmly for the New Deal.

TWO CANDIDATES CONFER WITH FDR AT HYDE PARK Hyde Park, Oct. 22.—(AP)—In his efforts to formulate a winning campaign for the Democratic ticket in his home state of New York, President Roosevelt called in for conferences today two more candidates for re-election, Senator Robert Wagner and State Comptroller Morris Tremain.

This statement was taken to mean the former president would not return to Chicago, where he will lecture at the University of Chicago, until after Christmas at least. His immediate plans remained indefinite, however. Accompanying him were his wife and secretarial staff.

Benes Flies To London For A Rest London, Oct. 22.—(AP)—Former President Benes of Czechoslovakia, flying for the first time, arrived today in the country which gained European peace at the expense of the republic of which he was co-founder. He landed at the airport at noon, sick and tired, and motored immediately to a country retreat, where one of his intimates said he would rest for several months.

Washington, Oct. 22.—(AP)—The Civil Service Commission announced today it would receive applications until November 10 for postmaster appointments at the following places, the salary for each office being given: North Carolina: Ayden, \$2,100; Bailey, \$1,400; Mountain, \$1,100, and Robersonville, \$2,100.

Ask Applications On 4 Post Offices In North Carolina

Washington, Oct. 22.—(AP)—The season's first snow and sleet storm struck with disconcerting suddenness in north Wisconsin, and upper Michigan today, cutting power and communications lines and impeding highway traffic. Two to six inches of slush and snow covered the ground.

Southern Wisconsin continued to enjoy mild weather, still awaiting the first damaging frost. The Weather Bureau forecast much colder weather, with rain tonight. Continued freezing temperatures

Milwaukee, Wis., Oct. 22.—(AP)—The season's first snow and sleet storm struck with disconcerting suddenness in north Wisconsin, and upper Michigan today, cutting power and communications lines and impeding highway traffic. Two to six inches of slush and snow covered the ground.

Southern Wisconsin continued to enjoy mild weather, still awaiting the first damaging frost. The Weather Bureau forecast much colder weather, with rain tonight. Continued freezing temperatures

Suing Father

Pictured above, is Leonard Marler, of Toronto, son of Sir Herbert Marler, Canadian Minister to the United States. Young Marler named his father and Dr. George Stevenson, as defendants in a \$500,000 damage suit, alleging they had him committed to an asylum to keep him from marrying an American girl.

Jas. Godwin Convicted Of Murder

Man Let Out of Prison by Davidson Jailer's Daughter To Pay With Life

Greensboro, Oct. 22.—(AP)—James Godwin, High Point youth charged with the murder of Donald Moss, High Point textile worker, on the night of October 3, was found guilty of first degree murder in Guilford Superior Court this morning. The jury took the case late yesterday, and after being unable to reach a verdict last night, came into court at 9:25 o'clock this morning with the verdict.

Sentence was not passed immediately by Presiding Judge Hubert Olivs. The case went to the jury at 4:25 p. m. yesterday. The jury retired last night without having reached a verdict.

The State alleged Godwin, an escaped prisoner, shot down the mill worker at High Point as the latter sat in a parked automobile. The shooting occurred a few hours after Godwin and Bill Wilson escaped from the Davidson county jail at Lexington with the aid of the jailer's daughter.

Wilson at the beginning of the trial agreed to plead guilty to a charge of accessory before the fact and accept a mandatory life sentence.

STANTONSBURG MAN IS KILLED BY CAR

Wilson, Oct. 22.—(AP)—William T. Smith, 28, of Stantonburg, was instantly killed early today when he was struck by an automobile at Fountain. A man docketed as Ivey Gallo-way was held under \$1,000 bond as driver of the car pending an investigation.

WEATHER FOR NORTH CAROLINA Partly cloudy and somewhat warmer tonight; Sunday cloudy, scattered showers in north central portion; warmer near the coast.

WEEKLY WEATHER South Atlantic States: Generally fair except showers along the Atlantic coast Monday and another shower period the latter part of the week; cooler first of week; warmer in middle, cooler at close of week.

SNOW and SLEET!

Fall Of Hankow Is Imminent As Chinese Resistance Fails

Defenders of Wartime Capital in Retreat from Japs' Military Goal; Mass Bombing of City Planned To Wipe Out Last Chinese Opposition

Shanghai, Oct. 22.—(AP)—Japanese commanders declared today that the fall of Hankow was imminent, and said Chinese were in retreat at that wartime capital which has been the military goal of the Japanese invasion. Mass bombing of the Hankow area to shatter the last Chinese resistance was foreshadowed in a memorandum delivered to envoys of foreign powers at Shanghai, warning foreign shipping to proceed up the Yangtze river at least ten miles above Hankow by midnight tonight.

The United States gunboats Guam and Luzon are among foreign vessels stationed at Hankow.

Hankow sources said Chinese officials and their families were ordered to evacuate Hankow as the Japanese drove steadily toward the Chinese provisional capital. The exodus of civilians already was taxing transportation facilities to capacity.

At Canton, reports were preceded by a mop-up detachment which cleared Canton's downtown streets of Chinese stragglers. The main force of the Japanese invasion entered Canton.

Sporadic rifle fire was heard in the downtown section before the main expeditionary force made its triumphant entry. Immediately upon arrival, the Japanese commander drove to a gate of Canton's international settlement and conferred with British authorities.

Hearing Set for Next Thursday on Goldsboro Radio

Washington, Oct. 22.—(AP)—The Federal Communications Commission said it would hear arguments October 27 on the application of the Eastern Carolina Broadcasting Company to operate a radio station at Goldsboro, N. C., on 1370 kilocycles, with 100 watts power, unlimited time.

A commission examiner recommended on August 8 that the application be granted. Since that date E. W. Pratt, attorney for Radio Station WMFD in Wilmington, N. C., filed an exception to the recommendation. The applicant then asked for and was granted a hearing before the commission.

Germany Seek Trade Pact With America And Britain

Berlin, Oct. 22.—(AP)—Authoritative economic ministry sources proposed today that three experts representing the United States, Great Britain and Germany get together soon and try to devise a triangular agreement to supplant or supplement the Anglo-American trade treaty.

Such unofficial experts, conferring with the approval of their governments, would, in the opinion of these quarters, lose nothing if they failed, but had everything to gain for their respective countries and world trade, if they succeeded.

One of their tasks, it was suggested, would be to restore confidence among business leaders of the three countries

12 Hungarian Terrorists Killed By Czech Troops

Prague, Oct. 22.—(AP)—The general staff reported today the killing of 12 Hungarian terrorists and one Czech gendarme during fighting near Berehovo, in southern Slovakia. It declared Czechoslovak troops captured a number of other alleged Hungarian terrorists, seized their arms and ammunition, and surrounded eight persons who made up the remainder of a band operating near Berehovo.

In a communique it also reported that terrorists firing from ambush had wounded two Czech gendarmes in the district of Svalava. Gendarme officials were ordered in pursuit of the attackers, one of whom was wounded, fatally and three of whom were captured.

Politicians Eye Meeting Of Grange

Raleigh, Oct. 22.—Politicians of all sorts, but particularly politicians depending principally on rural votes, are already gluing at least one ear to the ground in order to hear distinctly what members of the North Carolina Grange think and say about politics and crop control, in particular.

The Grangers will get together over in Oxford for a three-day session, October 26-28, and not the least feature of the convale will be action on a legislative program.

With a crop control referendum in cotton set for December 10, and a tobacco referendum to be conducted nearby, if not quite simultaneously, the boys who love the "dear people" want to know how the real farm folks feel on these subjects in order to make their plans in accordance.

Last year the National Grange wasn't a bit enthusiastic about the congressional ideas of crop control and it did not favor to any marked extent the measures finally passed—and passed largely through the influence of the Farm Bureau Federation, a

involved. Another would be to have Germany buy and supply those things which now are a stumbling block to conclusion of the Anglo-American treaty.

Germany could buy American cotton, wheat and tobacco, but as she has no foreign exchange with which to pay for them, she could supply Great Britain with needed chemicals, electric goods and machinery. Britain, instead of paying Germany for these, would pay cash to the United States for Germany's purchases of American raw materials.

German authorities frankly admit the proposed triangular arrangement would not be possible except under some form of regimented economy.

Hull's Big Advantage. In short, Hull deals with international human nature, which is more or less calculable in the light of experience. Wallace is up against the elements—worldwide at that, not to mention sunspots; there are authorities who say they have a lot to do with our good and bad crop seasons.

Hull then, if his judgment is sound enough can guess almost 100 percent correctly. Wallace's reasoning can be nullified by a coking nice growing year, an epidemic of droughts or a rampage of boll weevils or a pest of locusts. Pure

Hungarian patrols, which were reported to have tried to mine a bridge near Shihy were said to have been dispersed on the approach of Czech soldiers.

CZECH TROOPS READY BUT HUNGARY NOT TO ATTACK Uzhorod, Czechoslovakia, Oct. 22.—(AP)—Hundreds of thousands of Czechoslovak troops were ready for action on the Hungarian border today, but the general feeling among them was that Hungary would not resort to military action to enforce her military demands.

One authoritative source estimated 750,000 Czech soldiers probably were concentrated along the frontier from Komarno deep into Ruthenia.

Wallace One Of The Ablest Cabinet Men

By CHARLES P. STEWART Central Press Columnist

Washington, Oct. 22.—Next to Secretary of State Hull, Secretary of Agriculture Wallace generally is recognized as the ablest member of President Roosevelt's cabinet. Senator LaFollette repeatedly has been quoted as having told the President that he had the "loudest" Cabinet in American history. I don't know whether or not LaFollette really ever said this. If he did, however, he did Hull at least an injustice by neglecting to except

him. The Cabinet premier is an outstandingly good statesman and every one who has followed his record knows it. Wallace has not been as successful in solving the country's farm problem as Hull has been at steering American foreign policies. Still, maybe he had a harder puzzle to wrestle with.

Foreign affairs are difficult and complicated, but they present situations which foresight can reckon with somewhat. No art of divination can predict weather, insects, dust storms and all the eccentricities of our rural population. Wallace does understand, as well as is humanly possible, what's the matter with our agriculture. He evidently isn't sure just what to do about it, but he's experimenting as capably as can be expected of any power short of omniscience.

Hull's Big Advantage. In short, Hull deals with international human nature, which is more or less calculable in the light of experience. Wallace is up against the elements—worldwide at that, not to mention sunspots; there are authorities who say they have a lot to do with our good and bad crop seasons.

Hull then, if his judgment is sound enough can guess almost 100 percent correctly. Wallace's reasoning can be nullified by a coking nice growing year, an epidemic of droughts or a rampage of boll weevils or a pest of locusts. Pure

Paris, Oct. 22.—(AP)—The cabinet virtually decided today on the appointment of a special high commissioner for armament to speed up France's re-armament program, and also decreed measures to force workers in national defense factories to put in extra hours.

Leon Archambaud, president of the Chamber of Deputies, sub-committee on national defense, was said to be the likely choice to direct the speed-up, judged necessary after the recent international crisis.

Ministers, on leaving the cabinet meeting, said the position would be equivalent to that of a cabinet minister. It also was stated Premier Daladier proposed to issue a large national defense loan in the form of bonds of 70 francs (\$1.66) nominal value, which would be redeemable for 100 francs (\$2.66) in 50 years. Otherwise they would carry no interest.

Aircrafts In Van Of Stocks

New York, Oct. 22.—(AP)—Aircrafts pointed the way to a brisk but selective upswing in today's stock market, and leaders at the best scored gains running to three or more points, as bulge tempted profit-takers, however, and top marks were reduced in many cases near the close. Numerous new recovery peaks were touched in the first hour's advance. The ticker tape got behind for a while, and transfers approximated 1,800,000 shares.
