THE MYSTERIES OF ETERNITY FAR SURPASS THE WONDERS OF THIS LIFE. And there shall be no more curse; but the throne of God and of the Lamb shall be in it; and his servants shall serve him: And they shall see his face: and his name shall be in their foreheads.—Rev. 22:3, 4.

TODAY IN HISTORY

- 1636—Massachusetts' Bay Colony Legislature voted 400 pounds sterling toward a "schoole or college"—nearly one-half colony's annual tax income. Unnamed school later became Harvard. 1646—John Elliot, "Apostle to the Indians," preached his first sermon near Boston to the Indians—by next summer was preaching to them in their own language. 1853—Theodore "Week on the Concord and Merrimack Rivers," his first book, which he had published four years previously at his own expense, returned him by his bookseller—70; copies returned as impossible to sell out of the 1,000. 1886—Statue of Liberty in New York Harbor, dedicated by President Cleveland. 1908—Historic interview with the German Kaiser published in London. 1918—Austria-Hungary sends note that it is ready for an armistice and accepts independence of Czechoslovakia. 1919—U. S. Senate repasses Prohibition Enforcement Bill over Wilson's veto. 1924—Dawes Reparation Plan in operation.

TODAY'S BIRTHDAYS

- Dr. Gilbert H. Grosvenor, president of the National Geographic Society, Washington, born in Turkey, 63 years ago. Howard Hanson, director of the Eastman School of Music, Rochester, N. Y., composer and conductor, born at Wahoo, Neb., 42 years ago. Dr. Rosalie S. Morton of Winter Park, Fla., a noted surgeon, born at Lynchburg, Va., 62 years ago. Rt. Rev. James E. Kearney, Catholic bishop of Rochester, N. Y., born at Red Oak, Iowa, 54 years ago. John Boles, actor, born at Greenville, Tex., 38 years ago. Prof. Michael I. Rostovtzeff of Yale, professor of ancient history, born in Russia, 68 years ago. Richard Folsom-Cleveland, only son of the late President, born at Princeton, N. J., 41 years ago.

TODAY'S HOROSCOPE

Today's impulses are toward reforms, and in the stronger natures, violent and rash. Idols will be ruthlessly upset, and often those things destroyed which the native has not the power to rebuild on a better foundation. Guard against this, since it may result in blighted hopes. Cleveland's Y. M. C. A. chief says that men who work off their grouches at the "Y" are better husbands. Boys, he's asking for it.

What Do You Know About North Carolina?

By FRED H. MAY

- 1. What county in Texas was named for a North Carolinian? 2. When and where was the first Baptist Church established in the State? 3. What problem confronted our first public school system in 1840? 4. What did Governor Burrington write London officials about North Carolina people in 1731? 5. Why did the government make a strong campaign in 1864 to seize stills? 6. When was the office of sheriff first created in North Carolina?

ANSWERS.

- 1. Burleson county, Texas, was named for Edward Burleson, a North Carolinian, who served as vice-president of the Republic of Texas under President Sam Houston. 2. On Chowan river at a place called Perquimans in 1712. There are records of some individual Baptists in the State as early as 1695. 3. The shortage of teachers. The literary board in making its report in 1838 proposing the system of public school discussed the problem of teachers. The State would need 1250 teachers, one teacher for each of the 1250 districts into which it was proposed to divide the State. 4. "The Inhabitants of North Carolina, are not Industrious but subtle and crafty to admiration, always behaved insolently to their Governors, some they have imprisoned, drove others out of the Country." 5. The Confederacy needed the copper for making rifle caps. Turpentine stills were paid for, but whisky stills and worms were confiscated. 6. The office was created in 1738 to take the place of Provost Marshal. The first sheriffs were appointed by the governor, who selected one of the three men recommended by the justices of the peace of each county.

ANSWERS TO TEN QUESTIONS

- 1. Sacramento River. 2. A yard contains 36 inches; a meter, 39.37 inches. 3. "Halfmoon." 4. Ichneumon. 5. Decagon. 6. New York Yankees. 7. Lenses. 8. Jack rabbit. 9. Richard E. Byrd. 10. Central Africa.

Attorney Lamar Hardy. This was an alias of Captain Pfeiffer, describing in vague terms "ways we do business in Europe," and instructing Rummrich not to deal with any other firm. Mrs. Bush, a handsome brunette, named as the two officials who tried to persuade her to entertain in Washington in behalf of the third Reich, Lieutenant - Commander Udo von Bonin and Lieutenant Commander Hermann Menzel, attached to the espionage section of the defense office of the Reich war ministry. Both are under indictment.

thereafter Japan asked her "to reconsider."

PARIS DENIES FURNISHING WAR SUPPLIES TO CHINESE

Paris, Oct. 28.—(AP)—A Japanese protest to France against alleged shipments of arms to China through French Indo-China today brought a reiterated denial that such a traffic existed. The Foreign Office expressed "surprise" that Japan again should protest. When Tokyo made similar accusations earlier this year, the spokesman said, it was unable to "substantiate" them.

Bailey Seeks U. S. Handouts In This State

(Continued from Page One.)

"Let the business if you have the facilities to handle it," he told Mayor Thomas E. Cooper, City Commissioner J. E. L. Wade and State Senator Obe Emmett Bellamy, who composed a Wilmington delegation that came here to enlist the support of the senator and Governor Clyde R. Hoey. The governor also promised the Wilmingtonians he will do what he can to help. The New Hanover trio pointed out that the port project is really a realization of the Cameron Morrison dream of a State port—a dream which was shattered some decade ago when voters of the State defeated a proposed State port issue.

Rails, Utilities Stock Leaders

New York, Oct. 28.—(AP)—The stock market, after an early roughing by profit-takers, regained its balance today under the leadership of selected rails and utilities. While the comeback was exceptionally quiet, initial losses running to two or more points among steels, motors and aircrafts were reduced in many instances near the fourth hour. Railroad bonds were supported on the faint hope that President's fact-finding committee, which is to report its findings on the carrier wage controversy after noon tomorrow, would recommend at least part of the cut asked by the road.

12 Large Utilities To Spend \$2 Billion In Next Two Years

er. He succeeds Roswell Magill as under secretary. Magill resigned recently. Hanes is 46 years old and his family home is at Winston-Salem, N. C. The promotion will raise his salary from \$9,000 to \$10,000 per year. Edward A. O'Neal, of the American Farm Bureau Federation, said he thought Secretary Wallace's proposal for a two-price farm program would represent an "excursion into an untried field." The Wallace plan envisions purchase of surplus commodities by the government and their sale to needy persons at low prices. O'Neal called at the White House today with a group of southern agricultural officials to discuss the cotton problem.

Babson Thinks Business Ready For New Advance; All Industries Gaining

(Continued from Page One.)

duces greater demand for goods, provides more jobs, and speeds up the wheels of all industry. It is being done now. For instance, steel companies in holding down prices, are giving recovery added impetus in many lines. 2. The new armament program outlined ten days ago will mean, of course, a new high figure for American expenditures on defense. Readers may get some idea of what this sum to be spent on armaments means when I tell them that the armament industry next year may reach a third of the size of the building industry—one of our five biggest businesses.

market break stopped it. In addition, Christmas trade this season will be the best since 1930.

Unemployment Must Be Ended

This review of the business situation is not poppy-cock. I call the business terms as I see them. My job is to give you facts. Therefore, while I am optimistic today, I say: We will have lasting personal, industrial, and international prosperity only as we give greater attention to Jesus' gospel. I especially have in mind one major problem—unemployment. I shall give my opinion on this issue, in view of my European observations, in a later article.

Railroads Come Through Again

The railroads have weathered another crisis. Carloadings are back to within 15 per cent of where they were a year ago. Operating expenses have been slashed drastically. The carriers now have a better net income than they had last October. After almost a complete absence of buying of steel and other materials, the railroads will soon add their orders to returning prosperity. Furthermore, there will be no general railroad strike this fall. 7. The farm situation is not so bad as current prices for wheat, cotton and corn indicate. A farm dollar today will buy what it took \$1.10 to purchase a year ago. So while dollar income is off 12 per cent, real buying power is off only six or seven per cent. Moreover, in the big milk and poultry businesses, prices are fairly good and feed costs are favorable.

Cotton Moves Very Slightly

New York, Oct. 28.—(AP)— Cotton futures opened unchanged to two points decline, with lower Liverpool cables partly offset by trade and local buying. Late in the first hour the list was net unchanged to two points lower. December eased from 8.48 to 8.46. December was 8.48 at midday, when the market was unchanged to two points net lower.

LaGuardia Is Presidential Possibility

(Continued from Page One.)

York to live down—a glorified prize fight manager. It's a shame that his religion should count against him, but it would, undoubtedly. And so on down the line—there's something the matter with each of the most of them. Mayor LaGuardia likewise has his drawbacks.

For one thing, he isn't a Democrat. He has served in Congress as a Republican and a Socialist. He has served New York's majority as a Fusionist and an American Laborite.

Yet, what of it? He's a New Dealer. He should gobble all New Deal Democratic votes; all advanced liberal Republican votes; all Farmer-Labor votes; all Progressive Party votes; all American Labor votes; all maverick votes (like those of Senator George W. Norris' followers).

He's a New Yorker, which is something of a handicap out in the western sticks. Still, he was brought up in Arizona; he's a westerner himself, and a semi-southerner.

He's a bit close to his Italian ancestry. That can't be helped. He has a brilliant American war record, anyway.

He admits that his name ("Fiorello," or, in Italian, "Little Flower") is slightly ridiculous—and it is, considering how hard-boiled he is. Even that isn't his own fault, though. How could his mother, christening him, have foreseen that his name would weigh with him presidentially later?

Curiously enough, the mayor is accused of having Jewish blood. Again, what of it? Outstanding in Congress. I claim credit for having recognized Fiorello H. LaGuardia as a conspicuous member of Congress when he was only one of the rank-and-file of representatives.

Like 'em or not—LaGuardia has ideas. And ideals. It isn't pure politics with him.
