Court Won't Free Trio On Spy Charges

New York, Nov. 9.—(AP)—Federal Judge John Knov refused today to dir rect a verdict acquitting two men and a woman charged with spying in this country for the German government. Defense counsel moved for the directed verdict during the trial of Johanna Hofmann, hair dresses on the liner Europa; Otton Voss, former airplane mechanic; and Erich Glaser, former United States Army private in the air

The judge answered sharply the defense counsel's contention that Miss Hofmann could not be held accountable for actions in Germany nor on German boats, where she is subject to German law, and that the government could not act against conspiracies by German agents in Germany.

"I can't understand the theory that the Bremen and Europa here laden down with spies and we could not act because the government sent them," the court ruled.

whatever in putting together certain passages and reaching the almost axiomatic conclusion that this opposition will developp unless there is such a phenomenal advance on all ousiness fronts that the State can confidently look forward to vastly bigger tax revenues during the next bien-nium This is a consummation devouty hoped for, but entirely unexpected.

The governor said, for instance, that North Carolina must live within its budget—which indicates he will favor no appropriations unless there is ex-pectation of revenues from which to ay them.

He pointed out that school teachers, after all, are getting a much larger share of money appropriated for school purposes than is the case gen-ically throughout the country. He cit-ed the fact that more than \$24,000,000 innually is now appropriated for school purposes, of which no less than 82 per cent is paid as salary to North Carolina's teachers.
