

Beauty Parlor Beauties Win In Committee

Daily Dispatch Bureau. In the Sir Walter Hotel. By LYNN NISBET

Raleigh, Feb. 2.—The dignified and distinguished, though generally bald, members of Senate Judiciary No. 1 yielded to the influence of some 200 walking demonstrations of beauty parlor effectiveness, and returned an unfavorable report on amendments designed to place more control of the art in the hands of "beauty schools" and less in "beauty parlors."

The amendments bore high sounding title, something about amending such and such law relating to the duties and authority of the board of examiners for practitioners of cosmetic arts. With all the face powder and cold cream off and the marcel

straightened out, the amendments would have given the schools and colleges teaching beauty culture a big advantage in controlling the "art" in the state. There are 18 licensed schools. There are nearly 4,000 licensed operators. Voting odds in the committee weren't quite that heavy; but betting odds were just as safe. The schools didn't have a chance when the good looking young operators flocked in.

The colleges had employed John W. Hinsdale, an inveterate bachelor, to present their case. The operators depended upon W. E. "Buck" Jones, twice a grandfather. Maybe that helped some.

Out of the discussion did come some help for both the schools and the shops. Admission was made that a registration and a "nominal tax" on house-to-house vendors of cosmetics would not be resisted. The yield will not be much, but the harassed finance committee is interested.

Horlick Heiress Will To Involve Millions Is Filed

Racine, Wis., Feb. 2.—(AP)—Judge J. Allen Simpson today admitted to probate the will of Mrs. Maybell Horlick Sidley, ending a court fight involving a share of the Horlick malted milk millions. William Horlick Sidley, of the malted milk millionaires, had attempted to break the will on the grounds his mother had been unduly influenced by W. Perkins Bull, Toronto, Canada, barrister, one of the beneficiaries. Mrs. Sidley died last July in Bull's home.

The judge admitted the document to probate after Sidley had withdrawn his objections and Bull had made a disclaimer of his one-third share of the residuary of the estate.

New Bill On Wages-Hours Given House

(Continued from Page One.)

not apply to "mercantile and service employments."

For these employments the bill provides:

"The maximum hours per week for employees of the State of North Carolina or in mercantile or service employments shall be 48 hours per week, unless such employee receives compensation for his employment in excess of the hours above specified at a rate not less than one and one-half times the regular rate at which he is employed."

On wages for these categories the bill says:

"The minimum wages for employees of mercantile and service employments shall be 25 cents an hour. The minimum wages for employees of the State of North Carolina shall be 25 cents an hour.

Defining the two classes: "Mercantile and service employments" for the purpose of this act shall include persons employed in retail stores and those who are engaged in various service employments, in laundries, dry cleaning plants, pressing shops, hotels, restaurants, garages, filling stations, ice plants, creameries, barber shops, shoe repair shops and similar lines of activity when so determined by regulations of the commissioner and when not in interstate commerce or not in substantial competition with others engaged in interstate commerce, but excluding those employed in domestic service in a private home."

A labor advisory board of three members is provided for, members to be appointed by "the governor of the State of North Carolina with the advice of the commissioner of labor."

"One appointee shall represent employers, one shall represent employees, and one shall be a represen-

Kilgore Is Honored

DR. B. W. KILGORE

Raleigh, Feb. 2.—Dr. E. W. Kilgore, chief of the North Carolina Department of Agriculture's chemistry division, was signally honored this week by the Association of Southern Agricultural Workers in session at New Orleans, La., when he was presented a "token of appreciation for many years of faithful and distinguished service in Southern agriculture."

Six other Southern agricultural leaders were voted "tokens of appreciation," but Dr. Kilgore was the only representative from North Carolina honored. The sessions of the Association were held Feb. 1, 2 and 3.

Glad Hand Given W. A. Hunt in House As He Takes Oath

Raleigh, Feb. 2.—(AP)—The House yesterday extended a real glad hand to Vance's Representative W. A. Hunt who made his first appearance of the session in the hall.

He was introduced to the House by W. E. (Bill) Fenner of Nash and was administered the oath by Speaker Libby Ward immediately afterward.

Mr. Hunt has been ill for a number of months and is walking on crutches as the result of losing most of a foot. He smilingly said he had feared inability to negotiate the long flight of stairs to the House chamber, but added that he made it all right and expects to be able to attend all future sessions.

No Minority Report Seen On Diversion

(Continued from Page One.)

President Roosevelt to create a national park in Halifax county.

The House, refused, 44 to 43, with Representative Abernathy, of Nash, casting the deciding vote as he presided as speaker, to provide that county commissioners may give seized tax-paid liquor to county homes. Clegg, of Moore, sought to insert the provision in a Senate-approved bill to permit giving such whisky to hospitals, or sale of it to ABC stores. The bill in original form was passed and ordered ratified into law.

A joint sub-committee on agriculture suspended hearings on alleged duplication between services of the State College Extension Service and the State Department of Agriculture, and directed that a special committee of technical men report to it next Thursday on the "agreement and disagreement" between the units.

tative of the general public", reads the bill.

General powers of the commissioner "by and with the advice of the labor advisory board" shall include the "power to issue such regulations and orders as are necessary to carry out the provisions of the act. Such orders, without being limited thereto may include such terms and conditions, including the restriction or prohibition of industrial homework or of such other acts or practices, as the commissioner finds necessary to carry out the purposes of the act and to prevent the circumvention of the intent to reduce the hours of labor by reduction in wage rates to avoid the penalizing effect of the overtime compensation provisions."

Violations of the act are punishable by fine of not less than \$10 nor more than \$100, or by imprisonment for not less than ten nor more than ninety days. Each day a violation shall continue is made a separate offense.

There is a clause guaranteeing the right of employees to secure higher wages than the act provides by collective bargaining.

The declared policy of the act is (1) to establish minimum wage and maximum hours consistent with health, efficiency and well being; (2) to safeguard those maximums and minimums, and (3) to increase employment opportunities.

TWO REGISTRATIONS WITH THE REGISTRY

Realty registrations at the Vance Registry office yesterday were two according to the records.

Gus Roth and wife sold Gus Roth and wife as tenants in entirety three lots in the city for \$10 and considerations.

Vance County Board of Education sold F. H. Hicks three acres of land in the county for \$10 and considerations.

WAYNE YOUTH BURNS TO DEATH AT HOME

Goldshore, Feb. 2.—(AP)—Charles Seymour, 17-year-old farm hand, died early today when his small house on the farm of Clarence D. Doss, near here, caught fire. Coroner T. R. Robinson, Sr., who announced no inquest would be held, said Seymour apparently fell asleep with a lighted cigarette in his mouth.

The last two one-round victories of Joe Louis are easily explained. He doesn't want to be invested by the wages and hours administration.
