Columbia, S. C., June 13.—(AP)—Alf M. Landon, unsuccessful Republican nominee in the last presidential election, predicted today President Roosevelt would decline to become a candidate for a third term.

At the same time, in a speech prepared for delivery before the Business and Professional Women's Republican Club of Massachusetts, the former Kansas governor sharply criticized New Deal economics and those who urge the President to run again in 1940.

"We are in the sixth year of extraordinary government spending-to-save policy," Landon asserted, "yet discouragement and chronic unemployment are increasing. This is indeed the Roosevelt depression."

Principal Speculation
Is President Won't
Return Visit of King
and Queen While Still
In Office; Royal Pair
In New Brunswick

Washington, June 13.—(AP)—Now that this admiring capital is catching its breath after the visit of King George and Queen Elizabeth, the tea table topic is, "Will President Roosevelt and the first lady be guests at Buckingham Palace this fall?"

Many Washingtonians argue that the king undoubtedly is given an informal invitation to Mr. Roosevelt before their farewell at Hyde Park Sunday night. Whether he did so, or course, probably will never be known officially unless the President should accept.

The subject wasn't mentioned in a telegram the British sovereign sent Mr. Roosevelt late yesterday, for that wouldn't be according to protocol.

The message, received by the chief executive while returning to Washington from Hyde Park, said the king and queen were "deeply grateful for your hospitality."

"Though this was our first visit to your great country," the message continued, "and though it was necessarily only a brief one, it has given us memories of kindly feeling and good will that we shall always treasure."

The consensus here is that the Roosevelts will not return the visit while the President is in office.

ROYAL PAIR PAY VISIT TO MARITIME PROVINCE AREA

Newcastle, New Brunswick, June 13.—(AP)—King George and Queen Elizabeth made their first visit in the Maritime Provinces today in this little town crowded with farmers and fishermen of northern New Brunswick.

In bright sunshine the king and queen set out from here after being given a roaring welcome on an automobile trip through New Brunswick to the capital city of Fredericton.

Sales Tax
Ruling Due
This Week

Daily Dispatch Bureau,
In the Sir Walter Hotel.

Raleigh, June 13.—Constitutional members of North Carolina's six year old sales tax and of its two-year-old tax on display of goods in hotel rooms probably will be decided by the State's Supreme Court this week as cases involving both questions are among the approximately 35 which the seven justices have heard argued, but in which they have not yet handed down opinions.

Also likely to be settled is the last judicial stand of five men convicted of capital felonies.

In addition, there are, of course, a number of causes of primary importance to the litigants involved, but of lesser interest to the public

Washington, June 13.—The British royalty's visit to the United States has accomplished much toward cementing friendly Anglo-American relations I have my doubts.

Their majesties got a gorgeous official reception, to be sure. Their popular reception was elegant, too—huge crowds, enthusiastic cheers and all that. The trouble was that the whole thing was rather too obviously manufactured: made to order.

Queen Elizabeth simply had to come. It was highly desirable for them to visit Canada. That stood to reason. Britain is in a tight international situation. Canada is British and it stood the crown in hand to see that the Dominion is solid, in the event of a threatened enemy.

So the Canada trip was strictly according to Hoyle.

Well, since the royal couple were coming to Canada, what more natural than for President Roosevelt to invite them to drop in on the United States also?

It almost would have been an affront to Uncle Sam had they refused.

Nevertheless, possibly their stop-over here was a trifle ill-advised.

There was an effort to make the affair resemble a move toward a "rapprochement" between the two

London Turns To Fresh Crisis With Japan In Chinese Areas

Chamberlain Cabinet
Considers Steps To
Take if Japs Blockade
British and French
Concessions at Tientsin; Seek Peace

London, June 13.—(AP)—The British government turned from immediate consideration of European problems today to try for solution of a difficult situation arising from a series of British-Japanese incidents in the Far East.

The cabinet's foreign affairs committee met to decide what action should be taken if Japan were to blockade British and French concessions in Tientsin, one of the main points of British-Japanese tension.

There was no intimation as to what decision was reached, but official circles said British authorities at Tientsin were making every effort to avert a blockade. Britain already has made it clear she would consider such action illegal.

Reports from China said Japanese authorities have threatened a blockade as a result of Britain's refusal to hand over four Chinese accused by the Japanese of terrorism. British authorities demanded proof of the men's guilt first.

The British government was said also to be taking a "serious view" of the fatal bayonetting of R. M. Tinker, British businessman who died June 7 after a scuffle with a Japanese naval landing party in Tientsin, across the river from Shanghai. The foreign office said the British ambassador to Japan, Sir Robert Craigie, had been instructed to make a formal protest in Tokyo, backing up the protest made by British authorities in Shanghai.

Social Act
Is To Remain,
Powell Says

Myrtle Beach, S. C., June 13.—(AP)—"It would be almost suicidal for any senator or congressman to seek to repeal the social security act outright," Charles G. Powell, chairman of the North Carolina Unemployment Compensation Commission, asserted here today. Powell told the Laundry Owners Association of North Carolina, South Carolina, Georgia and Florida, in annual convention here, that two main portions of the act were held constitutional by the Supreme Court "even before President Roosevelt appointed a single member of the court."

The 48 states, District of Columbia, Alaska and Hawaii by the end of 1933 had given \$391,000,000 in old age assistance to 1,800,000 persons, Powell said, and also had distributed \$104,000,000 to 650,000 dependent children and 43,000 blind persons. Unemployment compensation aggregating \$404,000,000 had been paid in 31 units.

"The social security law," Powell predicted, "will be changed by its friends, and the changes will be toward strengthening rather than weakening it. It is something that will undoubtedly be with you as long as you live."
