Admiral Harry E. Yarnell greets America with a smile as he arrives in San Francisco from the turbulent Orient where, as commander of the U.S. Asiatic fleet, he won world respect by firm stand against Japan's ultimatums. He returned home, after six years, to retire, passing 64-year age limit in October.

## Abandon Idea here is no doubt that more people there is no doubt the people

College Station, Raleigh, Aug. 22.

—Previously announced plans for making vetch and Austrian winter pea seed available to Eastern North Carolina farmers as grants-of-aid under the agricultural conservation program have definitely been abandoned, it was stated today by E. Y. Floyd, AAA executive officer of State college. Rejection of excessive bids on the legume seed by Pacific

Northwest producers was the reason given for dropping the program.

Floyd said that farmers in 31 counties had already made applications for more than 150,000 pounds of seed and that there were indications that 200,000 pounds or more of the seed would have been taken in the State under the grant of aid program. However, the prices asked by seed dealers were far above anticipations, due, Floyd said, to a shortage of seed in the producing states of the Pacific Northwest.

To replace the grant-of-aid program on winter legumes, the AAA leader has called on county Triple-A committeemen and farm agents Exum. however, was still planning to work out a buying plan for loentertainment program. Two cally-grown crimson clover, vetch lances and two banquets at the and Austrian pea seed between Hotel Charlotte, convention site, and farmers and local seed dealers. It already arranged, the dances to take is possible, Floyd said, for farmers to make an assignment of their soillights. At a banquet Saturday eve- building payments to seed dealers for the ourcnase of winter legume peaker, who has not been an- material, or farmers can get a loan nounced yet, will be heard by the from the Farm Security Administration for the purpose chasing legume seed.

"At any rate, we will not be able thus assured, there is wonder what political moves will develop. The grant-of-aid plan this year, which is regretted, but we hope that growquite a rarge ploc of votes at the ers will avail themselves of the openvention, aren't worrying much portunities which exist to buy local seed", Floyd said.

# Capital Gossip

By HENRY AVERILL

Raleigh, Aug. 22.—North Carolina's Supreme Court justices will next week hear their first oral arguments of the 1939 fall term, with cases appealed from the first, twentieth and twenty-first districts on the calendar, which has not yet been

Among criminal appeals is that of Charlie Fain, Negro convicted in Cherokee for first degree burglary and rape in connection with a midnight attack on a nurse at the Murphey hospital.

Recently-appointed Assistant Attorney General George B. Patton is writing the State's brief, and he is likely to make his first argument in the case.

The court had only two cases left undecided from the spring term, one of them a test of the constitutionality of the 1937 act forbidding retailers to cut prices of nationally-advertised goods below figures set by the manufacturers.

In a test case, Superior Court Judge Henry L. Stevens, Jr., held the act "clearly unconstitutional"; but it is evidently giving the high court justices considerable concern.

Possible war in Europe is the general subject of conversation in most of the State offices nowadays; but unless Hitler, Mussolini and company start something in the next week or two they're going to find it hard to compete with the coming football season, with particular emphasis on the Duke-Carolina game, as usual.

Add State officials on vacation-Lloyd Griffin, secretary of the School Commission; Ronald Hocutt. director of the Highway Safety Livision; and Dudley Babley, chairman of the Rural Electrification Authority.

A poll being conducted by Washington's Pathfinder magazine indicates that Vice President John N. Garner is the choice of almost half the North Carolina Democrats polled on the subject.

The straw vote is being taken on the theory that President Roosevelt will not run for a third term, which may account for the Garner lead. The Pathfinder finds that Secre tary of State Cordell Hull is

## Farm Tours Being Ended

College Station, Raleigh, Aug. 22. -All county farm and home tours in the Tennessee Valley area of Western North Carolina, except the two-day tour in Watauga, will be completed this week, it was announced today by R. W. Shoffner, farm management specialist of the State College Extension Service. The Watauga county tour will be held Monday and Tuesday, August 28

The Mactison county tour was held today, with W. B. Collins, assistant to Shoffner, aiding the county agents with the event. On Thursday tours will be held in Henderson and Yancey courities. F. R. Farmham, Extension dairy specialist, and Shoff-ner, will assist with the Henderson tour ,and Collins will participate in the Yancey motorcade.

Jackson county will hold its tour on Friday, with R. W. Graeber, Extension forester, and Shoffner attending, and on Saturday the scene will shift to Swain county, with Shoffner also participating there.

The only tour this week in Eastern Carolina will be Hyde county's annual event on Friday, when H. W.

Shoffner said that the "see and learn" tours throughout the State are proving exceptionally popular The Scotch export more than this year, and that demonstrations
