Roosevelt Speeding Back To The National Capital

Aboard the U. S. S. Lang, at Sea, Aug. 23.—(AP)—Gravely concerned over the European crisis, President Roosevelt abandoned plans today for exploration of the Gulf Stream on a fishing trip, and ordered the cruisers Tuscaloosa and Lang to speed to Sandy Hook,

The Tuscaloosa, carrying the President, is expected to arrive at Sandy Hook Thursday morning. Boarding a special train, the President will arrive in Washington shortly before noon.

Mr. Roosevelt was silent on what step, if any, he planned upon his return to the capital. Reporters recalled his recent

press conference statement that congressional refusal to enact neutrality legislation had tied his hands and prevented American attempts to avert war.

However, the question of whether the United States would take any sort of peace move in an effort to stem the increasingly grave tide of events in Europe may be discussed in Washington tomorrow when the President confers with his advisors on foreign

affairs. Sumner Welles, acting secretary of state, said at his press conference today that Secre-tary Hull and he expected to see the chief executive soon after his return.

German And Polish Soldiers Meet In Brief Border Clash

Poles Say Germans Fired First in Chase After German Deserters Across Line in Poland: British French Stand Heartens Poles.

Warsaw, Aug. 23.— (AP) - The Polish Telegraph Agency reported today a brief frontier clash between Polish and German soldiers at Kluc-zno, facing Breslau, north of Silesia. This report said three German sol-

diers, in full uniform, crossed the frontier in pursuit of German deserters. Entering a windmill 150 yards from the frontier, they were seen by Polish soldiers, who ordered them to halt. Shots were exchanged, with the Germans commencing the shooting, according to the Polish report, which said the Germans escaped and one apparently was wounded.

Peasants Build Defenses.

Other reports from the frontier said that Polish peasants were busily engaged in assisting in the construction of trenches and defense fortifications. In Kepno, in Posnania province, it was reported that all wom-en, old and young, shouldered spades and dug trenches.
Poland, heartened by the firm at-

titude of her guarantors, Britain and France, sought, meanwhile, to discount the possible consequences of a Russian-German non-aggression treaty. The Polish people also found reassurance in the fact that the projected pact has not been concluded. Accused Of

Chicago, Aug. 23.—(AP)—M. L. Anenberg, millionaire publisher, today was accused of conspiracy by a Federal grand jury, which also rec-ommended dissolution of his vast racing news empire because "it depended almost entirely on illegal gambling.'

The special federal grand jury, in session 27 days in its inquiry into alleged violation of monopoly and racketeering laws, returned a presentment along with its indictment of Annenberg and three others on charges of conspiracy to influence a witness before the jury. Today's action was entirely separate from that of another federal grand jury, which on August 11 accused Annenberg of the largest personal income tax evasion on record, more than \$5,500,-000, including penalities, and yesterclaration in a Budapest newspaper day accused him and seven others that Hungary must seek a "totaliof conspiracy to violate the income tax laws in the operation of one of his companies.
