

Released to Britain by Embargo Repeal

Tarpaulined airplanes, minus their wings, are loaded on lighters at Floyd Bennett Airport, N. Y., for shipment to Staten Island where they are transferred to vessels bound for Europe. Signing of embargo repeal by President Roosevelt started these planes and hundreds of others on the way to Britain and the Western Front.

Economic Pressure On Japan Might Be Unleashed By U. S.

Next Mex President

Gen. Manuel Avila Camacho. Pictured in uniform is General Manuel Avila Camacho, unanimously nominated for the presidency of Mexico by the dominant revolutionary party. Gen. Camacho is a former war minister.

Congress May Empower Roosevelt to "Embargo Any And All Exports to Japan" Unless Relations Improve by Time Treaty Ends Jan. 25.

Washington, Nov. 6.—(AP)—A prediction that the 1940 Congress might follow up the administration's neutrality program, now in full operation, authorizing economic pressure against Japan, was made today by legislative leaders.

Chairman Pittman, Democrat, Nevada, of the Senate Foreign Relations Committee, said unless relations improved before the Japanese-American commercial treaty expires January 26, Congress undoubtedly would enact his resolution empowering the President to "embargo any and all exports to Japan."

Coast Gale Is Subsided; Damage High

(By The Associated Press.) A 55-mile-an-hour gale that lashed eastern seaboard states with sleet, heavy rains and snow subsided today, leaving in its wake much inland and water front property damage.

The storm, traveling north from Cape Hatteras, battered the coast line last night with a fury reminiscent of the New England hurricane of September, 1938. The disturbance was described as a "tropical cyclone" by Prof. Charles Brooks, of Harvard's Blue Hill observatory. Dr. Brooks, who sent up a recording balloon, said the temperature

Slayer of Bride Pleads Innocent In District Court

Springfield, Mass., Nov. 6.—(AP)—In the same district court where legal barriers were removed only ten days ago to permit his speedy wedding, Walter Hibbard, 20, pleaded innocent today to a charge of murdering his pretty wife.

Meanwhile, the mutilated body of his 16-year-old wife, Caroline Havy Hibbard, was taken to Lyman, Maine, by road. The decapitated body was discovered early Saturday in the bathroom of their apartment after Hibbard, police said, walked into the bathroom, VI. police station, 65 miles distant, and told police he had murdered his wife "because of an urge to kill."

Hibbard was held without bail, and his case was continued to November 16. In all capital cases in Massachusetts, he will be given a mental examination before his next court appearance.

Four Men Killed In Mine Blast at Mullins, West Va.

Mullins, W. Va., Nov. 6.—(AP)—Four men were reported killed and one injured in an explosion today at the mine of the Brulle Smokeless Coal Company in nearby Otsego.

Official comment from the company was lacking, but persons near the scene said the "local gas explosion caught five men in a room" of the mine.

At noon, rescue crews were attempting to reach the men, caught deep in the pit behind a slate fall, but there was little hope they would be alive.

Muzzled Politics Ready To Explode Full Force

By CHARLES P. STEWART, Central Press Columnist. Washington, Nov. 6.—With Congress' adjournment politics shortly again. It's been pretty well muzzled during the neutrality debate on Capitol Hill.

True, there's been a conflict on the embargo and related issues, but it hasn't been on party lines. Republicans have bolted G. O. P. ranks to vote for embargo repeal, as desired by the Democratic administration. Not all of them, but a fair proportion. Contrariwise, some Democrats have been as vehement anti-repealers,

Senator Clark

Distressed Ship At Hatteras Safe

New York, Nov. 6.—(AP)—Mackay Radio reported today that the steamship Vamar was out of danger after a tropical storm had caused her lumber cargo to shift in the dangerous waters north of Cape Hatteras.

The 598-ton vessel, formerly one of the ships used by Admiral Richard Byrd in his polar explorations, sent out an SOS early today, and the freighter El Mundo reached her at 9:10 a. m., eastern standard time to find the Vamar's crew dumping her deckload of lumber.

Court Holds HOLC Not Due to Pay For Mortgage Filings

Washington, Nov. 6.—(AP)—Deciding another conflict between Federal and State power, the Supreme Court ruled today that mortgages on Maryland property executed to the Home Owners' Loan Corporation were not subject to State documentary and recording taxes.

The government contended that the HOLC "is an instrumentality of the United States," engaged in the functions of the Federal government and that State taxation "is precluded by constitutional limitation."

In reply, the State argued that the taxes customarily are paid by the mortgagor and that any burden on the HOLC "as an instrumentality of the United States was speculative, remote and uncertain, if it existed at all."

VANCE COUNTY MAN IS GRANTED PAROLE

Raleigh, Nov. 6.—(AP)—Governor Hoey today granted a parole to Graham Evans, sentenced to four to seven years imprisonment in Vance county in January, 1938, for highway robbery.

Annenberg Wire Service Will Be Continued While

Chicago, Nov. 6.—(AP)—U. S. District Attorney William J. Campbell agreed today to a temporary continuance of the telephone wire service to M. L. Annenberg's horse race information bureau.

The Illinois Bell Telephone Company had been prepared to withdraw its facilities at noon. A short time before the deadline, Nationwide News Service of Illinois, Inc., petitioned the Federal court for an injunction restraining cancellation of the contract.

Later, attorneys for both sides stipulated the telephone company's service would be maintained until at least noon Thursday, when the American Telephone & Telegraph Company and the Western Union planned to withdraw their facilities.

In addition to the suit against Illinois Bell, Annenberg's attorneys filed a similar action in behalf of the Nationwide News Service of Delaware, Inc., against the American Telephone and Telegraph Company.

Russia, Germany Assail U. S. U. S.-Venezuela Pact Signed

Agreement 22nd Made By Mr. Hull

Becomes Effective December 16 After Details Are Promulgated by President; Lasts For Three-Year Period.

Washington, Nov. 6.—(AP)—The State Department announced today the signing at Caracas of a trade agreement between the United States and Venezuela.

The agreement is the 22nd negotiated by the United States and the eleventh to be concluded with American republics. Details will be announced later today.

The State Department disclosed that the general provisions and the schedules of concessions would enter provisionally into force December 16, pending ratification of the agreement by the Venezuelan government. The agreement will enter into force 30 days after exchange of the instruments of ratification of the Venezuelan government and the promulgation of the agreement by President Roosevelt. It will remain in force until December 15, 1942.

Caffey Race To Have Many Strange Pulls

Daily Dispatch Bureau, In the Sir Walter Hotel.

Raleigh, Nov. 6.—Announcement of John Caffey, of Greensboro, that he will run for Congress from the sixth district has more angles than the ordinary hat tossing act of a politician who has "heard the voice of the people" and decided he'd like a \$10,000 a year (with perquisites and pap) in Washington.

To begin with, it likely means a repetition of the 1938 sixth district congressional primary, which was as mixed up as the North Carolina laws about slot machines, and makes it extremely difficult at this stage of the game to predict who will eventually hit the jackpot.

On the other hand, it perhaps simplifies the campaign for speaker of the 1941 House, though this is by no means a certain result. On the face of things, it would seem to enhance greatly the chances of Rowan's George Uzzell; but there's nothing sure about that, because the Caffey decision to try the grazing in other political pastures may be just the incentive needed to put anywhere up to a dozen other representatives to running.

But above everything else, it probably is the best news that Carl Durham, incumbent from the sixth, has heard in a long time. It obviously increases his chances for re-election.

French Oust Germans From Rhine Island

Paris, Nov. 6.—(AP)—Military sources reported today that German troops had occupied a small island in the Rhine, only to be driven back to their own bank of the river by fire from heavy mortars.

The German units crossed to the unidentified island on the hitherto quiet southern flank of the western front before French observers noted their presence. The French fired sent earth and brush flying into the air, it was said, and the Germans hastily withdrew. German casualties, if any, were not disclosed.

Patrol skirmishes and artillery action was general on both sides along the 100-mile southern flank, but French attention was riveted to the south because of the apparently first German attempt to cross the Rhine, a natural barrier between the opposing armies in that area.

A strong German force attempted to storm a French post in the Vosges.

France Gets Nazi Oil

This huge cargo of oil, pictured at an unnamed French port and originally destined for Hamburg, Germany, was captured by the French contraband control. It has been revealed that at least twenty-seven United States ships have been stopped and searched since the outbreak of war. (Central Press)

Economic Upswing In 1940 May Lower Federal Subsidies

Farmers Expected to Receive Larger Incomes Than This Year; Demand For Government Aid Expected to Be Reduced.

Washington, Nov. 6.—(AP)—Official prediction that 1940 would bring a moderate industrial and business improvement led farm leaders to speculate today on the possibility that the next session of Congress may be able to reduce government subsidies to agriculture.

The Bureau of Agricultural Economics, in its annual outlook report, said that farmers are expected to receive a larger cash income from their products in 1940 than in 1939.

"A slightly larger volume of marketings will be disposed of at higher prices," the bureau forecast. The last Congress appropriated approximately one billion dollars for subsidies to finance crop control programs and for removal of price depressing surpluses. While Federal farm officials declined to give any figures for 1940 subsidies, they said that if the predictions of better prices and enlarged markets for farm products were borne out, the demand for government financial aid would not be so great as it has been for several years.

Her freedom assured by Norway's rejection of German protests, the United States freighter City of Flint idled at anchor today awaiting a decision where her strange voyage would take her next.

It was apparent that Norwegian officials, anxious over the possibility that Germany might make an issue of the case, would like to see the ship outside Norwegian waters bound for anywhere.

Mrs. J. Borden Harriman, United States minister to Norway, was expected to confer at Bergen today with the United States consul there, Maurice Dunlap, and Captain Joseph Gainard, master of the City of Flint.

One rumor was that the ship's

Wife Is Held For Fatal Shooting of Tabor City Man

Tabor City, Nov. 6.—(AP)—Claude Norris, 37, member of a prominent family here, died in a Tabor City hospital this morning of pistol wounds which

Coroner C. E. Sasser, of Conway, S. C., said were inflicted Sunday night by Mrs. Norris.

The wife, Sasser said, has been arrested and is under guard in a Conway hospital, where she is being treated for shock. He said the shooting occurred during an argument over a pin table at a village station.

Soviet Plea Directed At Bourgeois

Moscow, Nov. 6.—(AP)—Premier - Foreign Commissar Vyacheslav Molotov today assailed the United States for repealing the arms embargo, asserting it was "only a mask to cover this struggle for profit."

In a speech opening a three-day celebration of the bolshevik revolution's 22nd anniversary, Molotov also attacked Britain and France, accusing them of wishing to prolong their war against Germany.

Berlin, Nov. 6.—(AP)—Disappointment over the fact that the United States' vast war reserves were made available to the Allies by repeal of the arms embargo act became apparent today from the tone of morning paper editorials and inspired pronouncements.

Nevertheless, comment on the United States action in lifting the embargo was somewhat restrained, but intensified sea warfare appeared a likely consequence. The implication was that Congress failed to establish that neutrality which President Roosevelt claimed was the purpose of the legislation sponsored by himself. The word "unneutral," however, was not directly used.

All commentators drew parallels between the action of Congress and earlier utterances of Mr. Roosevelt and Secretary of State Hull.

Moscow, Nov. 6.—(AP)—The Communist Internationale today attacked

(Continued on Page Seven)

Mass Bombing Not Probable At Early Date

London, Nov. 6.—(AP)—British military experts predicted today that large scale long range bombing attacks in this war would await development of "distance" fighting convoys. These sources contended that Germany's new "expeditionary" raids on Britain's naval anchorages had proved that bombers not in convoy were too vulnerable to fast attack planes for profitable mass bombing forays.

The average bombing fighting planes, it was said, might have a range of 650 miles without refueling. It is about 300 miles from the British Isles to Germany. This is too far, it was said, for a safe margin for maneuvering of invading fighting planes.

This source added that "most of us believe that enmass long range bombing will wait until the fighters catch up in their staying abilities with the bombers. There were hints that steps were being taken in this direction."

L. S. U. Head To Make Plea Of Guilty

Baton Rouge, La., Nov. 6.—(AP)—Counsel for Dr. James Monroe Smith, former Louisiana State University president summoned to trial today on a forgery charge involving University bonds, announced in court that the educator would plead guilty this afternoon.

Court recessed until 2 p. m. when it was reported that Smith was suffering an attack of nervous indigestion.

Walter B. Hamlin, Smith's attorney, said his client would throw himself on the mercy of the court. Hamlin said an arrangement had been worked out with District Attorney Dewey Franchez whereby Smith would plead guilty to one of each type of charge contained in more than two dozen indictments returned against the former L. S. U. president.

World War Mayor Of Brussels, Who Defied Huns, Dies

Brussels, Belgium, Nov. 6.—(AP)—Adolf Max, burgomaster of Brussels, who was imprisoned by Germany during the World War, and who has held office continuously ever since, died today at the age of 70.

Max had been burgomaster of Brussels since 1909, but he first won world fame for his stubborn resistance to German invaders in August, 1914.

Refusing even to shake hands with the German commander, Max continuously protested infringement of Belgian civil rights and slept in his office rather than surrender his authority. But in September the Germans arrested him and kept him in a German prison until the war was over.

Weather FOR NORTH CAROLINA. Fair tonight and Tuesday; continued cool tonight, scattered frost, slowly rising temperature Tuesday.
