CHRIST FOR ALL-ALL FOR CHRIST The Word of God

CHRIST MADE THE WORLD A NEIGHBORHOOD. But he willing to justify him self, said unto Jesus, And who is my neighbor?—Luke 10:29.

What Do You Know About North Carolina?

By FRED H. MAY

- 1. Who defeated Charles B. Aycock for the Democratic nomination for congress in 1890? 2. Who did Governor Morrison appoint as the first State Highway commission in 1921? 3. What is North Carolina's official flower? 4. What was Zeb Vance's majority in his home town in the election of 1864? 5. What three cotton crops in North Carolina have exceeded a million bales each? 6. What place not in existence today was proposed as the State Capitol in 1831?

ANSWERS.

- 1. Benjamin F. Gray, of Sampson county. After serving two terms in Congress he retired to private life in his home county. 2. John Sprunt Hill, of Durham, William A. Hart, Tarboro, John McBee, Bakersville, Rufus A. Doughton, Sparta, James A. Stikeleather, Asheville, J. Elwood Cox, High Point, William A. McGirt, Wilmington, W. C. Wilkinson, Charlotte and J. E. Cameron, Kinston. Frank Page of Aberdeen, was named chairman. 3. The State has never adopted an official flower. Some lists of state flowers list the golden rod and others list the oxeye daisy as the state flower of North Carolina. Neither one of these is correct. 4. Vance lived in Charlotte. In the election for governor that year Charlotte gave Vance 700 to one for Holden. 5. The crops of 1911, 1923, and 1925. 6. Haywood, a town incorporated in 1799 and located at the confluence of the Deep and Haw Rivers. The new town was to be the head of navigation on the Cape Fear. Streets were laid off and lots sold at high prices. When the Capitol at Raleigh burned in 1831 an effort was made to make Haywood the State Capitol. Haywood proved to be a dream city, now a ghost of the past.

5-10-20-25 Years Ago

November 10, 1934 The \$180,000 building of the First Methodist church here will be formally dedicated at special services to be held there tomorrow morning at 11 o'clock. Bishop Paul B. Kern will be here to preach the dedicatory sermon. Several former pastors of the church will be here to participate in the exercises, including Rev. T. G. Vickers, of Oxford, and Rev. W. C. Martin, of Rocky Mount, who had big parts in the building of the church.

November 10, 1929 Holiday goods will begin to make their appearance in the stores of Henderson in a few weeks, and merchants generally are expecting a good season. Stocks already have been bought for the most part, and early shipments also have been made, but little has been put on display thus far. Thanksgiving usually marks the start of the Christmas season.

November 10, 1919 The canvass of the lady members of the local chapter for the Red Cross Third Roll Call will end Tuesday, November 11, Armistice Day. It is expected by them that as many as 500 memberships will be secured by the time of the close of the campaign. The program that had been planned for Tuesday evening at the

Gubernatorial Race Draws McDonald Group At Raleigh

Raleigh, Nov. 10.—Presence in Raleigh Wednesday night and Thursday of Dr. Ralph W. McDonald, Willie Lee Lumpkin, the McDonald 1936 manager; Timous T. Valentine, the McDonald assistant manager; E. Johnson Neal, big man in the new radio station in Raleigh; D. Lacy McBryde, of Cumberland, and Paul D. Grady, of Johnston, moved the politically-minded to the comment that there was governorship in their thar conferences. The reputed reason for this assemblage was some conferring on the candidates for governor. Senator Grady, who was nosed out in the lieutenant governorship three years ago, has had some higher gubernatorial aspirations. The news that issues from Johnston is geographical—there ought to be an eastern man running. The east, as impersonated by Neal, Lumpkin, Valentine, Grady and McBryde, generally has not been a supporter of the candidates nominated. That section went hard against Ehrinshouse, Hoye and would have gone hard against Gardner with a big candidate against him. Big majorities were piled up

for Fountain and McDonald, losing candidates. Similarly, the east treated Senator Grady well when he ran for lieutenant governor in 1936. The reported sentiment of the Conference is that the governorship should not come from Raleigh. There are too many cosmopolites living in the capital. They can go down the line back home for the machinery candidate. Who the machine candidate is today the conference could not say. Certainly it must be as dubious about the machinery as anybody. During his race in 1936 Dr. McDonald proclaimed many times that the machine was getting State Treasurer Charles M. Johnson ready for the governorship in 1940, but if so Treasurer Charley has cast a piece of hardware in the machinery. Objection is made to all three Raleigh candidates. Further opposition is noted as to Lieutenant Governor Horton. He not only beat Senator Paul Grady, Governor Horton hails from Chatham county, worse west. The mind of Senator Grady isn't made up, but back somewhere in it, or in his friends' thinktank, is the idea of running his own self. More likely than not would Senator Lee Gravelly get the conference nod. He is furthest east of the whole field, then he never has voted for the sales tax. He isn't so very far from Timous Valentine's home. The two probably divided badly in former votes, but they are neighbors. If Gravelly does not pick up some bloc power as the result of this meeting, it will be funny politicking.

ANSWERS TO TEN QUESTIONS

- 1. France. 2. By extracting the gas from coal. 3. Commemorative inscription on a tombstone or monument over a grave. 4. Golf. 5. Little Rock. 6. The six-year molar. 7. The "Cotton State". 8. Four of clubs. 9. In-val'id. 10. Hawk family.

Chamber of Commerce, in commemoration of Armistice Day, the first anniversary of the ending of hostilities in the World War, has been abandoned.

Beer Drive Intensified

Daily Dispatch Bureau In the Sky Water Hotel By HENRY AVERILL.

Raleigh, Nov. 10.—Information from the committee itself and from news items in various localities indicate that there has recently been an intensification of activities on the part of the brewers and North Carolina beer distributors committee, headed by Col. Edgar Bain, of Goldsboro.

Within the past 30 days the committee has brought about revocation of beer licenses to at least a dozen dealers in such widely scattered areas as Buncombe, Preced, New Hanover, Brunswick and Gaston; and added testimony to the real benefits from the "Clean Up Or Close Up" campaign are to be found in the obvious fact that in many instances the committee has been able to secure revocation of the beer licenses held by notorious bootleggers.

For instance, one of the Brunswick county dealers from whom the permit to sell beer has been taken is known throughout his own county to be a persistent bootlegger and in neighboring New Hanover he is equally well known under the title of "The Big Bootlegger Across the River".

In New Hanover there may be more revocations next week, as the County Commissioners are slated to act upon petitions to revoke others on Monday, November 13. In the west the Haywood commissioners have set December 4 to act on a Bain petition for revocation.

Colonel Bain said today that petitions will be filed in several other counties next week, in which the committee will seek revocation of several retail licenses.

Five North Carolina club girls will attend the National 4-H Club Congress in Chicago next month, says Miss Frances MacGregor, assistant 4-H Club leader at State College.

Unless cattle get an adequate amount of Vitamin A, they will become sick, blind, and die prematurely. Says Dr. J. O. Halverson, nutrition chemist of the State College Experiment Station.

Weight Less Twins usually weigh a little less than single babies, naturally. Usually one twin is heavier, and in a large series the heavy twin weighed seven and one-half pounds, which is not very far off the average.

The prospective mother is in a little more danger from the ordinary course of events, such as the toxemias of pregnancy, but she gets it over sooner. A twin pregnancy is

HIS WINTER OVERCOAT

Your Chances of Having Twins

By LOGAN CLENDENING, M. D. MAN, or I suppose I should say woman, is one of the few animals that ordinarily and habitually have a litter of one. But this rule is sometimes bent and occasionally smashed to bits. A young friend of mine, who had just completed his medical education and graduated from two years in a hospital, decided to settle in a small town in Kansas. He landed there at 8 p. m. of a hot July night and went to the home of his sister. A man was waiting for him on the porch. Waiting is sort of a weak word to describe his condition because he was about to become a father. My young doctor friend accompanied him home and had his first experience as a full-fledged doctor. This first patient bore a set of twins—the first he had ever seen; and I am happy to state that he acquitted himself beautifully, saving all four persons involved.

There has come to my desk a most portentous monograph on the number of twins they have had at Johns Hopkins Hospital in the 40 years of its existence. The total number of twin deliveries was 521—one out of every 80 deliveries. The age of the mothers was, on the average, between 20 and 25. The diagnosis of the possibility of twins was missed in a third of the cases. So if that happens at so ultra a place as Johns Hopkins, don't blame your neighborhood doctor if he springs a little surprise on you. The chances of making the diagnosis are better if one twin weighs more than the other. I don't know why, but statistics show that.

Dr. Clendening will answer questions of general interest only, and then only through his column. Mrs. R.: "Please write an article on mineral oil, its benefits if any, or if it is harmful in any way." Answer: Mineral oil, or liquid petrolatum, is classified as a bulk-producing cathartic. Of the cathartics there are two varieties—the bland and the rough; the bland, mineral oil, agar, tragaecanth and cellulose; the rough, psyllium seed and fax seed. None of them has any direct stimulating effect on the intestine except as any non-absorbed, bulky substance has such an effect. Mineral oil does not become rancid and is not absorbed in the alimentary tract. It softens and increases the fecal bulk so that expulsion is easier. It can do no harm. And, as a matter of fact, in most cases it is the cathartic of choice. The dose is two to four teaspoons at bedtime.

V. B.: "You suggest a strong surgical soap for blackheads. Please recommend the brand of soap and method of use. Where can I obtain a comedone extractor?" Answer: Ordinary surgical soap is known as tincture of green soap. It is used like any soap. A comedone extractor can be purchased at a drugstore.

EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. For any one pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, in care of this paper. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."

Two cartoon panels titled 'NOAH NUMSKULL' with humorous text and illustrations of Noah and his animals.

CASCADE
