season.

weeks ago.

from Sweets

What is the mechanism of pain in a tooth on the contact of sweets?

This is a fact but it is without any very definite explanation. Of course, it means that there is a cavity in the tooth. Contact with sweets for many years a fairly common does not cause pain in the case of practice among doctors, but I think an intact tooth. We must assume it has pretty well died out. It is that the nerve endings which are

Aching Corns

When It Rains

Why do corns hurt during damp or rainy weather?

The relation of barometric pressure to pains of the joints and of calluses, such as corns and scars, is principally due to changes in the caliber of the blood vessels and to changes in blood pressure at this time.

In a series of about 1,000 rheumatic patients, this symp-tom was acknowledged in over 80 per cent.

Value of Bacon

for Babies

several children's doctors whether this was a good practice. Their re-

"There is no adequate explanation for the common practice of adding bacon to the diet of babies." "If it is done, as is commonly said, to give the baby something to chew on, other articles of diet could be

used to better advantage, such as toasted bread crusts or zweibach." "The use of bacon in the diets of babies and small children was a little difficult to tell why it had

"Bacon contains no nutritional factor besides the fat and protein." "The old-fashioned bacon rind that some babies got in a certain strata of society is fortunately no longer encountered and I believe had no real standing with physi-

so long a popularity."

QUESTIONS AND ANSWERS

Mrs. J. M.: "Is it all right to It is, of course, easy to explain the effect of temperature, hot li-quids, or cold liquids, upon tooth pain. give beer to a baby from six months Under any circumstances, the hurt him, as it will only make him

> Answer-Good heavens, no! It is not all right to give a baby, six months old, beer; nor six years old. It is very bad. A baby, nine months old, will sleep all right, and beer will int a beer will just make it sleep an unnatural, profound sleep. I think a good, oldfashioned mother-in-law fight, so that she would stay away for a year, would do your household good.

M. H.: "What is the average or normal blood pressure of a person at the age of 21?"

Answer—The systolic pressure— that is, when the heart is in contraction-should be from 100 to 120. The diastolic-when the heart is opening or in relaxation-should be 70 to 80. The figures refer to millimeters of mercury pressure. There is no definite normal; the blood pressure, like every functioning thing in the body, changes.

for Babies Is bacon good or bad for babies, er does it make any difference? Children's doctors and mothers are likely to advise the addition of a little bacon to the diet of babies and small children. HYGEIA, the official journal of the American Medical Association, recently asked

ter. Mickey Sullivan, end who snag-ged the pass that gave State a have responding slowly to treat-AUTHORITY ON SOILS ged the pass that gave State a triumph over Davidson in the sea-son's opener; John Savini, stellar guard; Bobby Sabolyk, who shares a halfback's bost, and Tony DiYeso, the compact little fellow who has done a bang-up job of signal call-ing for the Wolfpack this beason. Here's an angle for the Duke-State tussle. Pittsburgh's mighty Eanthers defeated Duke 14-13 in the Panthers defeated Duke 14-13 in the Smokey City early in the season. Then along came Duquesne's Night Riders to upset Pitt 20-13. To top things off, State played a whale of the main section of the North Carolina section of Michaels, tackles; Bob Heymann and Ed be held at Duke university. Pain in Neck

What are the causes of pain in the muscles of the neck? This may be due to spasm. Such a cause can be spotted because the pain disappears when the patient relaxes or goes to sleep.

It may be due to necrosis of the vertebrae of the neck, but most likely of all it is a simple

In some patients the use of oxygen combined with the use of ergo-tamine tartrate has been very

QUESTIONS AND ANSWERS

Mrs. B .: "Will a teaspoonful of table salt, taken upon arising every morning, cause any change in the quality of the blood? What about lemon juice taken at the same time?"

Answer-The body needs a certain amount of salt every day, but not nearly as much as a teaspoonful. However, it does no harm, because as soon as the blood and tissues have all they need, it is passed off by the kidneys. Lemon juice is a fine vi-talizer and alkalizer. It does no harm, but good.
