SO WELCOME
PLAYERS are ticked to pick up a hand full of top cards. Yet such cards, which are so strong that your partner is unlikely to hold any of them, are among the most difficult of all to handle deftly in the bidding. It is sometimes almost impossible to find out whether the few cards of rank possessed by the player opposite you are really of any value at all.

in clubs. After taking the first trick, he cashed the club tops and led a third club to East. When in again with the heart K, he led another club to East, who cashed his heart Q and put declarer on the board again with a spade to the A. Thus a total of seven tricks were taken by the declarer, his six top tricks plus one more in clubs. Had North held even the queen and another club, with the suit dividing evenly, game would have been made. But how can a bidder find out such things?

Unhappy experiences with hands of this type have caused more and more players to prefer opening them with a minimum bid, in this case 1-Club, to find out if the partner has enough for a response.

Lenten Diet Trims Figure for Easter

By LOGAN CLENDENING, M. D.

LENT begins tomorrow. The church orders it as a season of fasting. Let those weak-kneed ones who can't stick to a reducing diet solicit the church's aid and set aside Lent for our 40-day reducing diet.

I will print a diet every day in this column all through Lent. It is dated the day before so the house-mother can order in time. It is not

Dr. Clendening will answer questions of general interest only, and then only through his column.

Crastic—the time is long enough to make it scientifically feasible. It is balanced as to vitamins and minerals. The first effects should be felt in ten days. Anyone should lose 10 to 15 pounds by Easter.

First Day's Diet

Here is the Lenten reducing diet for Ash Wednesday:

Breakfast—One orange, one-half slice toast, one-half teaspoonful butter, one soft-boiled egg, one cup coffee with one piece of sugar, one teaspoonful of cream.

Lunch—Two grilled frankfurters or one lamb chop; one helping sauerkraut, string beans or cole slaw; two saltines, black coffee or tea with lemon.

Dinner—Glass of tomato juice, vegetable dinner—any one or two of beets, cauliflower, cabbage, broccoli, carrots, turnips, stewed tomatoes; some slice of toast, one-half teaspoonful butter, stewed apricots or pears (strain off juice); one glass of milk (optional), black coffee or tea with lemon.

Day's Calories: 1100

Treating Arthritis With Bile Salts

What do conservative doctors think of the treatment of arthritis with bile salts?

The treatment is too new to allow of any definite pronouncement, pro or con. The idea of the treatment began with the observation by Hench, of the Mayo Clinic, that when patients with arthritis developed jaundice, a prompt and dramatic relief of symptoms occurred.

This was also true of certain cases of neuralgia, such as sciatica. About two-thirds of the patients were relieved temporarily and about one-third were less markedly but somewhat relieved. The relief lasted for varying periods, in some cases a month or two and in some three or four years. The average period of relief was four months.

These observations furnished an obvious hint for treatment and the use of bile salts for arthritis was begun. The best method of using the bile salts is by vein.

Thompson and Wyatt, of Tucson, Arizona, reported this year on several patients who were given injections of bile salts by vein. Relief in symptoms of arthritis occurred from this artificial jaundice as it did in natural jaundice. The relief lasts for several weeks and a second course of treatment results in another period of relief.

QUESTIONS AND ANSWERS

M. H.: "Will you please answer in your column and tell me if there is anything that will dissolve kidney stones?"

Answer: Nothing.

D. L. M.: "Will enlarged tonsils affect the sight and hearing, and is there any danger of their becoming cancered?"

Answer—Sight, no effect; hearing, possibly. Tonsils are not subject to cancer.

J. H.: "What is the cause and treatment of cold and sweating feet?"

Answer—The cause is some disturbance of the automatic nervous system. Treatment is by soaking the feet morning and night in a solution of formalin (teaspoonful to a quart of water), and by contrast foot baths—alternating dipping the feet in a bucket of very hot and then very cold water for 20 minutes morning and night.

EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by reader. Each pamphlet sells for 10 cents. For any one pamphlet, desired, send 10 cents in coin, and a self-addressed envelope stamped with three-cent stamp, to Dr. Logan Clendening in care of this paper. The pamphlets are: "Three Weeks Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."
