Army Will Be Reorganized **Immediately**

Finland Will Go Forward "With a Sword in One Hand and a Trowel in the Other", Premier Ryti Tells Parliament.

Helsinki, March 16.—(AP)—Fin-land will begin immediately to fortify her newly narrowed frontiers and to rcorganize her battered army despite the non-aggression clause in her peace treaty with Russia, informed quarters declared today.

There will be no general demobili-

zation of the army except for certain classes which will be released to help with civil reconstruction work after the costly 105-day war, these sources said.

The Finnish government attitude toward the future was suggested by Premier Risto Ryti, who told the diet last night that the nation would go forward "with a sword in one hand and a trowel in the other."

Finland's proposal for a defense al-liance with Sweden and Norway is another part of her determination to be strong.
All of western civilization remains

in the greatest danger and only the future can show whether Finland acted wisely in making peace with Russia, Ryti declared.

Ryti addressed the Finnish par-liament following its approval of the peace terms by a vote of 145 to 3.

Teachers Adopt Platform Storm Over British Supply And Pledge Erwin Support Ministry

London, March 16. - (AP) storm arising out of criticism of Britain's wartime supply ministry in-creased sharply today with a charge by a dismissed ministry official that he had been "sacrificed" by Supply Minister Leslie Burgin.

In the midst of demands for Burgin's resignation, Robert Behar, one of three ministry officials dismissed spectacularly March 5 without explanation, issued a statement charging that Burgin "embarrassed by attacks on his department and by ques-tions in the House of Commons sacrificed me in a miscalculated political maneuver."

"Mr. Burgin's action" charged Behar, "was in violation of every principle of natural justice".

Behar's brother, David, one of three dismissed yesterday, demanded his "rehabilitation" or a plain declaration of the reasons for his dis-

missal. Burgin had refused to give these reasons to the house.

As this storm brewed, Britain or-dered 600,000 more men to register for military service and members of North Carolina Education Associa- Parliament prepared to press the tion, being elevated from the vice- government for a more aggressive policy in the Balkans.
