Release of Latest Type American Warplanes to Allies Brings Chance of Reduced Appropriation by Congress.

Washington, March 29 -- (AP)-Release of the most advanced typ of American warplanes to the allies gave Congressmen a talking point today in advocating a reduction in the big aircraft defense program.

Senator Clark, Democrat, Missouri, said he thought the two righting services had "stated themselve clear out of court" on the subject of large immediate expenditures. Barring a change of policy, he add-

d, he and others would demand appropriation reductions to cover only number of planes which experts estimate would be delivered by July 1, 1941. The army's original \$300,000,000

program was to expand the air corp to 5.500 planes by 1941, but General George C. Marshall, chief of staff. eaid yesterday the objective might be reduced to 3,500 because allied buying would obviate the immediate need for accumulating reserves. He looked for a possible saving of \$27,000,000 for the next year.

Allied Relations With Russia Given Fresh Prominence As Two Vessels, Intercepted in Far East, Are Transferred.

London, March 29.-(AP)-Great Britain threw allied relations with Soviet Russia into fresh prominence today by announcing that she was turning over to French authorities two Russian freighters which were intercepted in the Far East enroute to Vladivostok, one of them from the United States, on suspicion of carrying contraband.

i.—Russian ambassador Ivan Maisky only this week has been discussing the detention of the freighters in Hongkong with British authorities.
