French Renew Talk Of Swede Blitzkreig

Paris, April 26. — (AP) — The French air ministry said today that several German troop ships had left Baltic ports, reflecting fears of an invasion of Sweden.

The ministry spokesman said that it was not known whether the Ger-

row's secret." French military officials said Wednesday that German troops were being embarked at ports nearer Sweden than Norway and there were reports then that transports were leaving.

The French said that these reports had been confirmed today.

The spokesman added that British and French warships were alternating in patrolling the Skagerrak. A
A "very tight" blockade is being

maintained, he said. Should troop ships be bound for Norway they would have to dare the allied fleets because they would have to steam through the Skagarrak.
