Great pillars of white stone were toppled in fragments around a crater 15 feet deep and 53 feet wide.

Only household staff members were there when the bomb struck and they were in air raid shelters.

There was very little damage inside, the spokesman said, "mostly from flying glass and soot from chimneys. Paintings and other art objects were removed long ago."

Ten Thousand Planeloads of Bombs Daily Will Be Unleashed on London, Nazi Quarters Declare: Raids to Start Soon.

(By The Associated Press.)

Nazi quarters in Berlin asserted today that ten thousand planeloads of bombs daily will be unleashed on the London area in the next few days, striking from French coastal bases in a titantie "all out" assault.

A host of 2.500 German warplanes making four trips daily will carry out the threatened full seale blitzkrieg, they declared, apparently aimed at wiping out the 2,000-year old British capital with its 8.000,000 inhabitants.

"I wouldn't give a farthing for the houses of parliament" said a German closely connected with Reichmarshal

The informant said Goering had "left open" the question of whether troop landings would be attempted, declaring:
"It all depends on how weii the

British fight back. "It is conceivable that England will collapse under the weight of our air attacks. Then invasion will be

either way."
This unofficial report, if true, would indicate that the next two or three days may see a decisive turn in the year-old European conflict.
