Flu Epidemic Abates In Some Areas

(By The Associated Press.) An influenza epidemic, that con-tinued to spread in the eastern sections of the Carolinas today, appeared to be showing some letup in the upper portion of South Carolina, where the first reports of widespread prevalence of the disease were noted. At Anderson, S. C., the city health sound announced that theatres and bacon for the family breakfast there

Points in western North Carolina and along the North Carolina-South theatres also were closed.
