Vance Vote Unanimous For Quotas

Twenty-seven of the 69 wheat producers of Vance county who were eligible to vote Saturday in the nationwide wheat marketing quotas referendum cast their ballots unanimously in favor of restrictions, it was announced today at the office of County Agent J. W. Sanders.

Six votes were cast at the Henderson polling place and 21 votes were cast at Townsville.

In a nation-wide straw poll taken in the nation as a whole, substantially more than the necessary two-thirds majority of those voting favored the marketing quotas, giving the Agriculture department authority to tell farmers how much wheat they can sell or feed this year, and to collect a penalty of 40 cents a bushel from those who do not comply.

As a consequence, growers were assured of a government crop loan for wheat at 45 per cent of parity, or about 97 cents a bushel, compared with last year's loan rate of 36 per cent of parity, or about 72 cents. Legislation recently approved authorized the higher loan in the event quotas were approved.
