Japan May Act Now

The Japanese government is probably going to announce the end of its policy of non-intervention in the Pacific.

Since the end of the Russo-Japanese war, Japan has been a member of the League of Nations.

All of this is in the nature of the present situation in the Pacific.

It is possible, although wholly improbable, that the subject of the result of the present and domestic disagreements in the Japanese government is not a government.

In any event the odds are decidedly in favor of a more pronounced Japanese policy in some direction.

The United States navy takes over Iceland. Well, anyway, this is the season for such a move.

Time To Economize

On a number of occasions we have commended the City Council for its wise and judicious policy.

It would seem that gentlemen in charge of running the city's affairs would have sufficient appreciation of the value of the money they are spending.

Before the meeting of the City Council when the tentative budget for the coming year was approved, it was said that there were some things which should be done.

It is true the gentlemen who are in charge of the city's affairs are not getting much credit for their jobs.

It is true the gentlemen who are in charge of the city's affairs are not getting much credit for their jobs.

Members of the City Council ought to bring themselves around to a greater consciousness of their obligations to those who put them in office.

The mere fact that city officers were elected or re-elected easily or without opposition at all should not be the basis for handing public funds in the manner it is now proposed to do.

Members of the City Council ought to bring themselves around to a greater consciousness of their obligations to those who put them in office.

Openings Stay Put

Middle Belt tobacco markets were more or less inert outlookers in the demand of Georgia interests for a ten-day delay in the opening of the 1941 selling season.

This is about the first time in our history, however, when the tobacco association's sales committee has been confronted with requests for delay.

Decision of the committee in refusing the request is not surprising, though it has not settled the issue.

So far as we have been able to learn, opening dates set at the recent Virginia Beach convention have been satisfactory everywhere except in Georgia.

It is true the gentlemen who are in charge of the city's affairs are not getting much credit for their jobs.
