that today's maximum would equal that of Sunday, and no immediate relief appeared in sight at the time of the last report. The heat wave has climaxed a period of something like six weeks, during which time the only rainfall has been brief showers far apart. It has been one of the most protracted dry seasons in recent years.

Skies have been overcast but little during the long dry period. and the sun shone today with as much oppressiveness as in midsummer.

Pace.

No community today could thrive by building a wall about itself. It is not possible for every one of us to buy at home everything that we need and use. But we do have a definite obligation to patronize home merchants. They represent the backbone of the community's commercial life.

Let's keep this in mind constantly and give these friends and neighbors of ours the best of our patronage. Money spent at home is well spent.

NATIONAL

FIRE

PREVENTION

WEEK

OCT. 6 - 11

Real Estate - Property Management Joel T. Cheatham, President

Now comes the annual revival of fire prevention week-the time for thorough inspections of homes, offices, stores, and factories as a precautionary measure against dreaded fire hazards.

The movement is especially important this year in its relation to the National Defense Program to prevent waste.

"Play safe," says Reddy Kilowatt, Your Electrical Servant,

'and lend your cooperation during National Fire Prevention Week!
