

## Mayor Names Committee To Draw Zoning Program

**First Meeting To Be Next Week; Half of Eight Members Are From City Council, Half Residents of Four City Wards.**

Mayor Henry Powell announced today the entire personnel of the committee which will make study of a zoning system for Henderson, and said the first meeting of the group would be called some time next week.

The City Council last Monday night authorized appointment of the committee after a petition had been received bearing names of 112 citizens requesting that the city be zoned, making out residential, business and manufacturing sections and such other divisions as might be found advisable or necessary for operation of the plan. It was pointed out that members of the Council from each of the four wards and one citizen from each of those wards be named to the committee, which will make recommendations to the Council for adoption.

The citizens committee announced today by the Mayor included S. J. Lane of the first ward, Henry A. Dennis from the second, J. P. Z. Deane from the third, and R. C. Gray from the fourth.

Although named by the mayor last Monday night, include T. H. Crabtree from the first ward, B. H. Hicks from the second, T. W. Ellis from the third, and the mayor from his own ward, the fourth.

Names of their wards will be furnished to all members of the committee so that they may study the area and be prepared to make suggestions when meetings are held.

## Farm Meetings To End Friday

Meetings at three colored schools in the county tomorrow night will conclude the series of educational sessions which have been conducted this week under sponsorship of the Vance Agriculture Workers Council.

A meeting originally scheduled to be held tomorrow night at the Towns high school was cancelled because of conflict with a Hilltown party planned by the school.

The meetings have been held for the purpose of explaining to farmers the part agriculture has played in the effort, and to outline ways of increasing food and fiber production which have been accepted for this county.

"Those directing the destiny of our nation are evidently expecting the farmer to deliver the goods," said County Agent J. W. Sanders, "and I am sure Vance county farmers will not disappoint them."

Meetings scheduled for tomorrow night with the speakers to appear at each, include: Townsville colored school—E. C. Jones and H. D. Barden; Woodworth colored school—J. T. Richardson, H. E. Webb and J. W. Sanders; Williamsboro colored school—E. T. Oxley, P. F. Horn, Jr. and T. W. Day.

## After 40—To Enjoy Life More GIVE LIVER BILE FLOW A BOOST—Start Tomorrow Morning and Keep This Up for 30 Days

Normally the liver should discharge about a quart of digestion-aiding bile juices a day. If it doesn't—a scanty flow—may mean Sick Headaches, so-called Biliousness, Poor Digestion, with that half-sick, tired, all-gone feeling and most probably Constipation.

There's no need to take Calomel or other risky drugs, just take a little daily dose of that world-famous Krushen Salts—half a level teaspoonful in a glass of hot or cold water about half an hour before breakfast. This rouses the flow of bile with its gentle bowel action. Try it for 30 days and you may shake off that "run-down" feeling and get a real "lift." But don't start unless you are willing to keep it up for 30 days. If then you do not feel 100% better get your money back. Parker's Drug Store—Adv.

Mr. Kesler said the drive will get under way Armistice Day and efforts will be made to clean up the work as rapidly as possible. Workers are now being selected and the organization is expected to be completed in time for drive to begin November 11.

Mrs. Geneva Teser has been designated as vice chairman and will devote her efforts to the work of the organization. The full list of teams and workers will be announced in advance of the start, Mr. Kesler said.

A new angle this year will be the effort to form advance gifts committees to solicit such larger gifts as may be obtainable prior to the solicitation of memberships of a dollar each.
